

Don't waste hours on troubleshooting ever again, with the ATL-KITPROHD3 your answers are just minutes away. With the ability to test EDIDs, cables, and compatibilities of all devices before installing the ATL-KITPROHD3 enables you to fix compatibility problems before they start. Able to diagnose 99% of connectivity issues the ATL-KITPROHD3 is also great for troubleshooting. Find the source of your syncing issues with each part of the Atlona Custom Installation Testing Kit. Test cables and displays with the HD800, test sources with the ATL-DIS7PROHD, and have a quick leave behind solution for EDID and HDCP sync issues with the HDSync.

Take the EDID not the display (ATL-ATHDSYNC)

The ATL-ATHDSYNC's nonvolatile memory makes any EDID fully mobile. Save any display's EDID and take it to the job site or a different end of an installation, avoiding heavy lifting, recabling, and extra time on troubleshooting.

Find the problem before it starts (ATL-ATHD800)

With 16 testing patterns (3 - 3D patterns), EDID reading, resolutions up to 1080p or 1920x1200, and HDCP testing, the ATL-ATHD800 can find almost any compatibility problem before installation.

Diversify (ATL-ATDIS7PROHD)

With built in format compatibility, connect any HDMI, DVI (with optional adapter), VGA, or Component (with included adapter) device to the ATL-ATDIS7PROHD for testing of resolutions up to 1080p or 1920x1200.

Bring the display to the source without having to move a 50" display. With the ability to not only test resolutions up to 1080p, 1920x1200 and 3D but the ability to learn any display's EDID. The ATL-ATDIS7PROHD is a testing device that can duplicate hot plug events and validate audio signal presence. Ensure no time is wasted on an installation or tech call with the Atlona 7" Portable Testing Monitor.

Clip to a pocket and go. The fully portable ATL-ATBATDIS7PRO is a rechargeable accessory for the ATL-ATDIS7PROHD and ATL-ATHD800, allowing them up to 4 hours of use.

With so many potential problems in any installation it's always better to be ready before the problem starts. With the Atlona Portable HDMI Signal Generator, test HDMI cables, determine compatible resolutions, and read EDIDs before installation to avoid problems or after to troubleshoot compatibility issues. Save time and avoid guesswork with the ATL-ATHD800.

Read, copy and replicate almost any EDID with the AT-HDSync. With built in EDID memory the HDSync is perfect for large installations where EDID issues usually occur. Simply learn the display's EDID, place the HDSync in the line next to the source and watch HDCP and EDID problems disappear. The Atlona HDMI Recorder and Hot Plug Emulator is an easy and affordable solution for some of the most common installation problems out there.

PACKAGE CONTENTS

- 1 x AT-DIS7-PROHD
- 1 x Power Supply (5V DC 2.6A)
- 1 x 5ft VGA to Component Cable
- 1 x User Manual
- 1 x AT-HD800
- 1 x 5V/2A Power Supply
- 4 x AA Batteries
- 1 x Rubber Case
- 1 x User Manual
- 1 x AT-BAT-DIS7PRO
- 1 x Leather case
- 1 x USB to DC adapter cable
- 1 x USB to Micro USB cable
