## All Media Cable Tester

## LTM-CTBQ User Manual

### GETTING STARTED

#### Warranty Information

Laird warrants your product to be free from malfunctions and defects in both materials and workmanship for one year from the date of purchase. Please see the enclosed warranty card for full details or your local dealer or Distributor for questions concerning the warranty.

#### Technical Support

Laird maintains a free user support web site for your technical support needs. Visit: <http://laird-support.com/>

#### Unpacking the LTM-CTBQ

We recommend that you:

- Unpack the equipment carefully and save the original box and packaging materials for possible future shipments.
- Review the contents of this instruction manual.

Included batteries come pre-installed in the LTM-CTBQ

Included BNC to F adapter for testing F Cables.

### DESCRIPTION

#### ***All Media Cable Tester!***

Tests Every Audio & Video Format Including CAT5 & FireWire! Test cables with any combination of FireWire (6-Pin), CAT5 (RJ45), S-Video, BNC, RCA, XLR, Phone and Mini connectors. Tests for open cable shielding. Ultra heavy duty steel stage box design. 75Ω BNC connector specification for testing Serial Digital cables. 9V battery operation (included). BNC to F adapter included for testing RF cables. 1 year warranty.

## LTM-CTBQ User Manual

### CABLE TESTING

The Laird LTM-CTBQ is easy to use. Simply insert cable ends into the corresponding connectors. The **TEST OK** LED will illuminate indicating that the cable has passed.

**Note:** This tester will only test for standard manufactured cables on a “go” or “no-go” basis. It will not test for cross-wiring or internal shorts typical of custom cables.

### CHANGING THE BATTERY

Remove the top panel battery compartment cover as shown in Figure 1 using a small Phillips head screwdriver. Use a standard flat head screwdriver to lift out battery. Replace 9V battery and cover.
