CODICE PRODOTTO: 6551505

TEMPTATION 505 SBEA

Honeywell

Presentazione generale

Reference Number

6551505

Gamma

Temptation

Line

Essentials

Marchio

Honeywell

Marchio precedentemente noto come

BACOU

Settore

■ Industria generica

Utilizzo del prodotto

Calzatura sicurezza per uso professionale

Caratteristiche

PU wedged outsole

Vantaggi

Flexible and light Slip resistance on different types of surfaces

Funzioni e vantaggi

Caratteristiche

200J safety toecap

Vantaggi

Offers optimal protection

Caratteristiche

Half leather insole

Vantaggi

Comfort and durability

Caratteristiche

Blue perforated leather upper

Vantaggi

Aeration of the foot for added comfort

Descrizione tecnica

taglie

35-42

Corrispondenza delle taglie

Table Size

Tomaia

Top-grain leather thickness 1,6-1,8 mm perforated for aeration. Leather-lined forefoot High upper with comfortable padded cushion. Entirely blue.

Puntale

Protective epoxy treated steel

Soletta interna

Leather insole

Suola

Built up heel. Polyurethane mono density :PU 1D Excellent anti-skid properties Adherence coeff. 0,18 (mini INRS 0,15) Very good abrasion resistance Good resistance to flexion Good resistance to rupture Good resistance to heat < 100° Energy Absorption Capacity > 20 Joules

Informazioni aggiuntive

Manutenzione

Ciclo di vita

If the footwear is supplied with a part of, or the whole sole unit made of polyurethane: We advise that the footwear should be used in the limit of 3 years following the manufacturing date, which figures on the footwear.

After this time limit, certain factors such as : exposure to sunlight, hydrometry, temperature changes, could cause a modification in the structure of the material, which would no longer maintain the same performance levels with regards to the requirements defined in the European Directive 89.686 CEE.

If the footwear is supplied with a sole unit made from a material other than polyurethane: We advise that the footwear should be used in the limit of 5 years following the manufacturing date, which figures on the footwear.

Informazioni per la conservazione

Footwear should be stored in their original packaging, kept in a controlled stock area, not subject to rapid changes in temperature or humidity levels.

Istruzioni per la cura

After use leave your footwear to dry in an aired place away from heat.

Remove any excess dust or dirt with a brush. Remove any marks using a damp cloth and soap if necessary.

Finally polish any grain or pigmented leathers using a commercially available shoe care product
