- **.exe**

Proceed to the next section for file descriptions.

2 VIGIL File Legend

File Type	Description	Applicable Products
AutoGasPOSJournal Service v8.00.0000.exe	Installs AutoGas POS Journal Service (POS Data collection utility) on a system hosting VIGIL Server software.	VIGIL Server, AutoGas POS
Central Database Support v8_00_0000.exe	Installs files needed for the Central SQL Database feature. Must be run after installing MSDE on the central SQL Server when it is initially being set up.	This file will install the necessary structure for a VIGIL Central Database on a server system that may or may not host VIGIL Software.
Central Database Update v8_00_0000.exe	Updates Central SQL Server database to work with the specified (in file name) VIGIL version. Should only be run on Central SQL Server if it has already been set up, and if VIGIL Server are being updated to the specified version.	This file will install the necessary structure for a VIGIL Central Database on a server system that may or may not host VIGIL Software.
Central Video Analytics Support v8_00_0000.exe	Installs files needed for the Central Video Analytics feature. This file should be installed on the VCM server after installing VCM server and MSDE.	VIGIL Central Management (VCM)
Central Database Update (Multiple SQL Version) v8_00_0000.exe	Updates Central SQL Server database to work with the specified (in file name) VIGIL version. Should only be run on Central SQL Server if it has already been set up, and if VIGIL Servers are being updated to the specified version	This file will install the necessary structure for a VIGIL Central Database on a server system that may or may not host VIGIL Software.

File Type	Description	Applicable Products
Central Video Analytics Update v8_00_0000.exe	Updates Central Video Analytics files to work with specified (in file name) version. This should be installed on the Central Video Analytics server if it has already been set	VIGIL Central Management (VCM) w/ Central VA Database
Central Video Analytics Update (Multiple SQL Version) v8_00_0000.exe	Updates Central Video Analytics files to work with the specified(in file name) version on systems featuring multiple SQL servers. This should be installed on the Central Video Analytics server if it has already been set	VIGIL Central Management (VCM) w/ Central VA Database
DV Player v8_00_0000.exe	Installs DV player, will update DV Player if it is already installed. This is installed automatically with most VIGIL Software.	VIGIL DV Player
DVR Link v8_00_0000.exe	Installs DVRLink on a system hosting VIGIL Server software. Installs DVRLink. This utility is meant to interface with cloud services for the purpose of streaming Live video from a VIGIL Server.	VIGIL Server, DVR Link
EIRIS Integration v7_50_000.exe	Installs the EIRIS POS Integration Utility on a system hosting VIGIL Server software.	VIGIL Server
GatekeeperVS v8_00_0000.exe	Installs Gatekeeper VS. Only run this file if Gatekeeper VS has <u>NOT</u> been previously installed.	VIGIL Gatekeeper VS
GatekeeperVSUpdate v8_00_0000.vgl	Updates Gatekeeper VS to the specified(in file name) version. Only run this file if a previous version of Gatekeeper VS <u>HAS</u> been installed on the system.	VIGIL Gatekeeper VS
Hirsch Integration v8_00_0000.exe	Installs the Hirsch Integration Utility on a system hosting VIGIL Server software.	VIGIL Server
MustekMecerPOS400_dStore5_UDPReader v8_00_0000.exe	Installs the MustekMecer POS 400 dStore5 UDP Reader on a system hosting VIGIL Server software. This utility has been engineered to interface the VIGIL Server with the MustekMecer POS 400 system.	VIGIL Server
MVRLCD v8_00_0000.exe	Installs the MVRLCD utility, will update MVRLCD if a previous version is installed. Should only be run on MVR machines.	VIGIL Server installed on 3xLOGIC MVR systems.
Remote VIGIL Big Lots Deployment Utility v8_00_0000.exe	Install the Big Lots VIGIL Remote Deployment Utility on any system. This software is, intended to aid in the deployment and configuration of VIGIL software and systems in the existing Big Lots corporate surveillance network.	VIGIL Server
Remote VIGIL Murphy Deployment Utility v8_00_0000.exe	Install the Murphy Oil VIGIL Remote Deployment Utility on any system. This software is intended to aid in the deployment and configuration of VIGIL software and systems in the existing Murphy Oil corporate surveillance network.	VIGIL Server
Site Map Designer v8_00_0000.exe	Installs the Site Map Designer software, will update Site Map Designer if a previous version has been installed.	VIGIL Site Map Designer

File Type	Description	Applicable Products
VIGIL Analytics Bridge v8_00_0000	Installs the VIGIL Analytics Bridge utility.	VIGIL Analytics Bridge
VIGIL Analytics Reporter v8_00_0000.exe	Installs VIGIL Analytics Reporter. Run this file on a DVR that has the specified (in file name) version VIGIL Server already installed. Used to view DVR Analytics reports.	VIGIL Analytics Reporter
VIGIL ANPR v8_00_0000.exe	Installs the VIGIL ANPR utility.	VIGIL ANPR Utility
VIGIL Archive Server v_8_00_0000.exe	Installs VIGIL Archive Server on a system hosting VIGIL Server software. Archive Server is a video stream support component for Sonitrol video verification.	VIGIL Server
VIGIL Big Lots Deployment Utility v8_00_0000.exe	Installs the Big Lots VIGIL Deployment Utility on a system hosting VIGIL Server software. This utility is intended to expedite the configuration of a VIGIL Server system for use on the Big Lots corporate surveillance network.	VIGIL Server
VIGIL Client (Silent) v8_00_0000.exe	Installs VIGIL Client in the background, requiring no user interaction. Only run this file if VIGIL Client has NOT been previously installed.	VIGIL Client
VIGIL Client I v8_00_0000.exe	Installs VIGIL Client using the InstallShield wizard. Only run this file if VIGIL Client has NOT been previously installed.	VIGIL Client
VIGIL Client v8_00_0000.exe	Installs VIGIL Client using the WISE Install Wizard. Only run this file if VIGIL Client has NOT been previously installed.	VIGIL Client
VIGIL Display Matrix v8_00_0000.exe	Installs VIGIL Display Matrix, will update VIGIL Display Matrix if a previous version has been installed. Each component of VIGIL Display Matrix can be selected from inside this installer.	VIGIL Display Matrix
VIGIL Easy Setup Wizard v8_00_0000.exe	Installs the VIGIL Easy Setup Wizard on a system hosting VIGIL Server software. This utility is, a setup and install wizard intended to aid in the configuration of the 3xLOGIC v250 NVR.	VIGIL Server
VIGIL EasyView v8_00_0000.exe	Installs VIGIL Easy View, will update Easy View if a previous version has been installed.	VIGIL EasyView
VIGIL Infinias Service v8_00_0000.exe	Installs the VIGIL Infinias Service on a system hosting VIGIL Server software. The Infinias Service is a utility which interfaces VIGIL Server with the Infinias Intelli-M Access suite.	VIGIL Server, Infinias Intelli-M Access (on network)
VIGIL Installation Wizard v8_00_0000.exe	Installs the VIGIL Installation Wizard utility.	VIGIL Installation Wizard

File Type	Description	Applicable Products
VIGIL Local Update v8_00_0000.exe	Installs the VIGIL Local Update software, which allows VIGIL Software to be updated. This program is installed with most VIGIL Software	All VIGIL Suite Products
VIGIL Media Server Tester v8_00_0000.exe	Installs the VIGIL Media Server Tester utility, an application which is engineered to quickly test the configuration of the Media Server portion of a VIGIL Server.	VIGIL Server with VIGIL Media Server(included with VIGIL Server)
VIGIL Murphy Deployment Utility v8_00_0000.exe	Installs the Murphy VIGIL Deployment Utility on a system hosting VIGIL Server software. This utility is intended to expedite the configuration of a VIGIL Server system for use on the Murphy corporate surveillance network.	VIGIL Server
VIGIL ODM v8_00_0000.exe	Installs the VIGIL ONVIF Device Manager on a system hosting VIGIL Server software. ODM is a utility engineered to locate, configure and add ONVIF cameras on your network to VIGIL Server.	VIGIL Server, VIGIL ONVIF Device Manager
VIGIL ONVIF Server v8_00_0000.exe	Installs VIGIL ONVIF Server on a system hosting VIGIL Server Software. VIGIL ONVIF Server software essentially allows a Server to output all of its camera channel streams as ONVIF streams, enabling the Server to be added to other VIGIL Server's as an ONVIF device, granting quick access to all of the ONVIF Server's camera channels.	VIGIL Server
