Address

Dear Sir/Madam:

Re: Account #
Service Address

The Region of Peel and Reliance Home Comfort are writing to you with an important reminder about the Profi-Plus water filtration unit at your property.

You should only use the unit in accordance with the operating instructions. In particular, when performing a back flush do not leave the unit unattended.

Operating instructions for the unit are located in the user's manual you received with the equipment and are summarized on the unit. You can also access the user's manual online at http://www.judo-online.de/judo/BETRIEBSANLEITUNGEN/GB/Art-Nr_1702046_PROFI-PLUS.pdf.

Failure to use the unit in accordance with the operating instructions, and in particular, failure to reset the unit following the back-flush function being performed, may result in excessive water consumption. You are responsible for the consequences of any misuse of the unit. All water bills are based on the water meter reading so the Region of Peel will not provide a reduction to a bill if excessive water consumption occurs.

If you have any questions or concerns, please contact the Region of Peel at 905-791-8711 or by email at billingops@peelregion.ca

Yours truly,

Melodie Reaume
Manager - Billing
Operations Support
