- Display prayer times for any day of the year.
- Cover all methods of calculating prayer time.
- Selective prayer alarm.
- Two ways for displaying the Qeblla direction.
  - Relative to North.
  - Relative to Sun.
- Selective auto-start with device.
- Display of important Islamic Events.

Installation

Use Nokia PC Suite for installation, or copy the installation package **'Organizer.Jar'** to your device memory. Refer to your phone user manual for more information about installing new applications

Using Islamic Organizer

The application can be divided into 4 parts:
Calendar
Prayer times
Direction of Qeblla
Settings

Calendar

Calendar is responsible for adding/editing/deleting calendar entries. The Calendar window consists of 2 parts. Calendar grid and today's date (Hijri and Gregorian).
You can view calendar in 2 modes: Month view and Week view. You can switch between views by pressing view button.
There is a number of functions you can perform in Calendar, such as:

- Week View

Select '**Week view**' from '**Options**' menu, To view and manage your events by week view.

- Synchronise

Select '**Synchronise**' from '**Options**' menu, To update your phone calendar with Islamic organizer in both directions.

- Make a note

Select '**make a note**' from '**Options**' menu. Choose your event type for example choose "**Meeting**" and enter your note details.

- Delete a note

Select '**Delete notes**' from '**Options**' menu, Choose to delete all notes or old notes only.

- Go to date

Select '**Go to date**' from '**Options**' menu. Enter your date and press '**view**' button.

- Date conversion

Select '**Hijri to Gregorian**' or '**Gregorian to Hijri**' from '**Options**' menu, to convert from a date.

- Islamic events

Select '**Islamic events**' from '**Options**' menu, to view Islamic events.
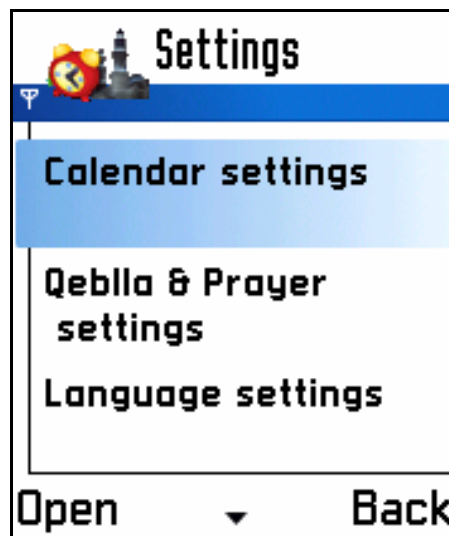

Prayer times

From the main menu please select '**Prayer times**' to view prayer times for your selected city, for today's date or a certain date that you can specify.
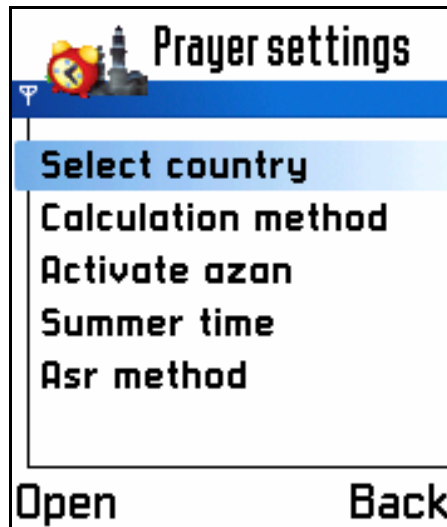

Direction of qeblla

From the main menu please select '**Direction of qeblla**' to view qeblla direction relatively from north or according to sun.

Settings

Calendar settings: to choose between Hijri / Gregorian calendar as default.

Qeblla & Prayer settings:

Country: to choose your country and city
calculation method: depends on your country
summer time: to choose day light saving option
Asr method: depends on your country
