WIRELESS PROFESSIONAL

Introducing the newest innovation: the Wireless Professional – the revolutionary new electrotherapy device, without cables!

Tailored especially for professional users, the Wireless Professional lets you enjoy unlimited, cable-free use, allowing your patients the freedom to move and exercise while they benefit from electrotherapy. With its contemporary compact design, advanced interfacing capabilities, and unique in-built Muscle Intelligence™ technology, the Wireless Professional adapts to each patient's muscle physiology, creating an array of programs, stored for recurring use. A stimulation session is now only three clicks away!

NEUROTRAC™ SPORTS

Product Code: NT4SPORTS

FEATURES:

- Digital Dual Channel STIM unit
- 6 Built in Sports programmes for ease of use
- 3 Customisable constant mode programmes
- Ability to lock the unit
- Records time in use and average current
- User friendly
- Compact, light and reliable

BENEFITS:

- Basic stimulator for Aerobic and Anaerobic muscle training.
- 3 Customisable programmes, 15 Pre-set Stimulation Programmes for:
 - Warm up, Capillary, Toning
 - Endurance,
 - Resistance force output treatment for activities which require prolonged and high activity muscle force: Cycling, Rowing, middle distance Running etc.
- Maximum force output treatment to produce maximum muscle force output and muscle bulk: weight lifting, judo, ball games, sprint running etc.
