# USB Video and Audio Digitalizer

## AT-EzCap-886

AT-EzCap 886 and AT-EzCap-2011C is a video converter for PC. It works with nearly any video source, capture/edits video from any home A/V devices, such as DV, V8, Hi8, VHS. Once converted, you can watch your videos on your computer, burn them to DVD, download them to your favorite portable video players. Connect your VCR, DVD player, videocamera, or other video source with composite and S-video inputs.

Real-Time MPEG1/2 format, burn DVD, VCD, SVCD  
Chop, crop, effect, and add music with included software.  
Transfer video to iPod, PSP. Upload video to YouTube.  
Snapshot mode for capturing still images from video.  
High resolution video and high fidelity, stereo sound.

## AT-EzCap-2011T

The USB Tape Digitalizer turns your historical tapes into Mp3 for you to listen on your computer and iPod.

Convert your old mix tapes and cassette to MP3 to Playback on iPod/MP3 player or burn to CD

Portable design fits in virtually any bag and enables you to play and transfer anywhere.

Plug and Play USB device, no drivers required.

Flexible battery or USB-powered operation.

Comes with Tape Converter software to guide you through transfer.

Audio output enables you to listen on your stereo, Headphones, or other speaker system.

## AT-EzCap-668

The USB Audio Digitalizer allows you to use your existing turntable, cassette deck, CD player and more, to capture high quality audio to your PC or Mac computer!

This is the most simple and affordable way to get your analog music into the digital realm.
