"You only get what you pay for", something we all learned years ago. Fox Labs sprays do cost a little more, but they are THE BEST! Is your life worth the few extra pennies? Fox Labs Pepper Sprays contain 2% 5,300,000 Oleoresin Capsicum (OC), which is a super hot mixture. In fact my sprays are exactly what thousands of law enforcement agencies are carrying worldwide: This should tell you something. We sell the same sprays to civilians that we do to law enforcement. Just one of our sprays is a very small investment that could make a world of difference for yourself, a loved one, or a friend.

PEPPER SPRAYS

Since 1997, the only duty use pepper sprays we have offered on our site and in our catalog have been Fox Labs. This is because we have always had the attitude that for a few dollars more, people would always go for one of the best pepper sprays in the world. I was not implying that there were no other good sprays out there; just that for a few dollars more you could buy the best. Well I learned my lesson this year with a few test items on the site. I found out that even if you tell people one item is much better than another, they will often times opt for the cheaper unit. In light of my recent discoveries, we have decided to carry Police Magnum Pepper Spray as well as Pepper Shot Pepper Sprays in our product lineup. These are both high quality pepper sprays by decent manufacturers. They may not work as fast as the Fox Labs, but they will still get the job done. Bottom line is, We still think Fox Labs is the best OC in the world, but we want to give you more choice.

The Defender also acts as a traditional kubotan weapon, allowing you to hold the unit and jab the attacker or slash him with the keys. The Palm Defender is only 4-3/8" long, while the Key Defender is 5-3/4" long. Both units are 5/8" in diameter. The Street Defender is a bit larger, but it holds more spray. It is 6-3/4" long and 3/4" in diameter. All the Defenders are available in black or silver. Spray is included.

J & L UMG Glove

Our Ultimate Motorcycle Glove "UMG" was designed by riders for riders. We put everything into the UMG that we felt would make this the "ultimate" motorcycle riding glove. The UMG is made with heavy "milled grain" leather that is thick and durable; yet soft enough to allow flexibility. The UMG is lined with Dupont™ cut resistant Kevlar® that offers incredible protection against abrasion, cuts and heat.

Kevlar® acts as an excellent barrier between you and the pavement if you go into a slide; much like a heavy leather suit or jacket. A normal leather glove will disintegrate fast under extreme conditions, but the Kevlar® liner will stay in tact and continue protecting the hand much longer. The UMG features a wrist strap that allows for a snug fit and also has a textured rubber grip in the palm and finger area to help hold onto the handlebars, clutch and brake levers. Merlin Conceal Carry Fanny Pack

The Soft Armor pack by Mil-tec is the most discreet and unobtrusive conceal carry bag I have ever seen. Both Cops and civilians with a CCP are always looking for a comfortable way to carry a handgun without looking like they are packing heat. Mil-tec figured out a way to give the illusion of a small fanny pack with a decoy 5" x 6" front cover. Only the

body of the weapon sits in this area.

The gun barrel actually fits into the padded portion of the belt. The unit is ambidextrous and even has a small zippered pocket for keys or ammo. The larger pack can accommodate up to a 6" barrel from larger guns like the Glock 17. The smaller size fits guns like the Glock 26.

The new Advanced Taser M-18 series has almost 100% effectiveness rating. It combines the injury reducing benefits of traditional stun technology with a quantum leap in stopping power via new Electro-Muscular Disruption (EMD) technology. In police studies, the new Advanced Taser has a higher instant incapacitation rate than a 9mm hand gun. The Advanced Taser shoots out 2 darts attached to 15 feet of wire. 50,000 volts travels over the wires and over-rides the central nervous system providing incredible takedown power.

The Bunker Buster is the latest high-end blowgun to hit the streets. It is very similar to the Warrior line we carried for years, but with a few added benefits. 1st thing is you get 50 darts in place of the 40 which has been the industry standard. 2nd thing is, you get the darts people really want. No more bulky broadhead darts, now you get 8 Magnum Stun Darts, 8 Spike Darts, 8 Regular Stun Darts, 10 Spear Head Darts and 16 Target Darts which are the most used. The 3rd benefit is, these guns not only come in standard black, but are also available in the awesome new Green or Purple swirl camo, as shown on this page for \$4.00 more. Terminator Blowguns are top quality units that are made in the USA and include a sling, 4" grip, safety mouthpiece, peep-site muzzle guard and a lifetime warranty. Available in 24", 36", 48", 60" & 72" lengths. The 36" gun can be purchased in a 1 or 2 piece version but all guns 48" and longer are only available in 2-piece. Economy Expandable Batons

If you want the finest tactical baton in the world, then see ASP Batons on page 6. If you want a decent baton for general purpose use, then our economy expandable baton is for you. It is steel construction with a real rubber grip. I have found the cheaper line of batons that have a foam rubber grip (mimic of the ASP) do not hold up as well as the rubber. The foam tears easily, and cannot be repaired. The rubber textured grip gives you a solid, no-slip hold on the baton and the durability of the rubber far exceeds that of the foam-rubber. Our Economy Expandable Batons are sold in the three sizes as shown; 16", 21" and 26" lengths. The length extended is how each baton gets its name, IE the SZ21 21" baton is 21 inches in length when fully extended. Each baton includes a FREE heavy duty nylon holder as shown. This alone can save you about \$25.00.
