# Safety Precautions \_\_\_\_\_

To achieve the best performance from your Jasmine Evolution-I Home Media Center, and for your own safety, please read and follow these important safety instructions:

Never place the Jasmine EVOLUTION-I near heat sources such as radiators, fireplaces, stoves, or other appliances that produce heat. Avoid placing the Jasmine EVOLUTION-I where it will be subject to direct sunlight or low temperatures.

- AC extension cords are not recommended for use with this product. If an extension cord must be used, be sure it is an approved type and has sufficient current carrying capacity for this product.
- Before cleaning the Jasmine EVOLUTION-I, always disconnect the power supply cord. Use a soft cloth and if necessary, dampen with clean water or mild cleaning agent. Never apply water, or any other cleaner, directly to the chassis.
- If you smell smoke or an abnormal smell, immediately unplug the Jasmine EVOLUTION-I from the power supply and contact your Jasmine dealer.
- Never attempt to do service on the Jasmine EVOLUTION-I beyond what is described in this Owner's Manual. Qualified service personnel should perform all repairs.
- Unplug unit if it becomes wet.
- Do not open unit when attached to AC outlet; dangerous voltages may be encountered.
- Replace fuse only with the exact type originally included.

# Introduction

---

All of us at Jasmine would like to offer thanks and congratulations to you for purchasing the Jasmine EVOLUTION-I. We sincerely believe that your Jasmine EVOLUTION-I is an intelligent purchase decision that will bring you many years of entertainment pleasure and satisfaction. While every new owner is anxious to begin trying, we encourage you to take a few minutes to read this manual and familiarize yourself with the full capabilities of the Jasmine Evolution-I.

To reduce the risk of injury or damage to your Jasmine EVOLUTION-I, please read the safety instructions on the first page of this manual. In addition, please pay particular attention to the sections of this manual where the symbol at left is shown.

## A Brief History of Jasmine

**Jasmine Audio** was established by a group of professional audiophile with the pure passion for the perfection of sound in 2001. The result of this passion is products with marvellous and smooth dynamic sound combined with innovative design. No detail on a Jasmine product is left unattended, and all components are handpicked by experienced and qualified engineers. Owning a Jasmine product should be seen as being part of a very special “club”, created by enthusiasts for enthusiasts.

## The Design Philosophy of Jasmine

**Pure, Simple, Natural !**

# Installation

---

This section includes information on how to unpack and position your Jasmine EVOLUTION-I Home Media Center.

## Unpacking

After carefully unpacking your Jasmine EVOLUTION-I, inspect for any shipping damage and call your dealer immediately if any is found. Do not plug your Jasmine EVOLUTION-I into any outlet if you find shipping damage.

Please save all packing materials so the unit can be easily and safely shipped if the need arises.

## The Accessory Kit

Included in the carton, you will find an accessory kit that contains the following:

- Remote control
- Integrated Wireless Keyboard&Mouse
- USB Inductor for Keyboard&Mouse
- Component video connecting cable.

## Choosing a Location for the Jasmine Home Media Center

For best performance, place the Jasmine EVOLUTION-I on a solid, non-resonant shelf. The 15cm height top space must be leaved, and must have an open space at front and rear direction.

**Notice: To put the machine in a airtight place will result the thermal problem and cause the machine shutdown!**

# Connections

This section provides instructions to connect the Jasmine EVOLUTION-I to the rest of your Audio/Video system. Below is an illustration of the Jasmine EVOLUTION-I rear panel, showing all inputs and outputs.

Avoid allowing static shocks to be applied to the inputs or outputs. To prevent static shocks, touch any grounded surface, such as the chassis of a component that is plugged into an AC socket, before connecting or removing a cable.

Inputs and outputs can be safely connected to the Jasmine EVOLUTION-I when the AC power is switched off.

## Connecting to AC Power

Check to make sure your Jasmine EVOLUTION-I has been manufactured for operation at your AC line voltage. Attempting to use your Jasmine EVOLUTION-I at any voltage other than that specified on the rear of the unit may cause damage that is not covered by Jasmine's warranty.

### Jasmine AC Power Mode:

The 220V mode is suitable for using in 220 ~ 240V voltage environment.

The 110V mode is suitable for using in 110 ~ 120V voltage environment.

## Connecting to AV Amplifier or DAC Device

If you have an AV amplifier or AV decode center with decode functions (like DTS, AC3, etc), we suggest you to connect the Evolution-I to your AV amplifier by Coaxial S/PDIF interface.

For the best sound effects, when you are going to enjoy music and movies only by two speakers system, we recommend you connecting a two channels DAC device to the Evolution-I through the coaxial S/PDIF interface. Of course, you can directly connect the FRONT analog output to your stereo amplifier from Evolution-I if you have not a DAC device.

## Connecting to Multi-channels Amplifier

The EVOLUTION-I own all kind of decode functions, you can directly connect it to your multi-channels amplifier through 5.1 channels analog output.

## Connecting to Display Device

The Evolution-I support various display terminals. You can choice the most suitable connecting port according to your display device.

If your TV only supports component connection (RGB), you can use the covert cable to connect it.
