**Congratulations on purchasing this fine JLab Audio product!**

**YOUR SATISFACTION IS GUARANTEED**

JLab takes great pride in providing you with the highest quality products. If you're not satisfied for any reason, please contact us and we will resolve the issue to your satisfaction. Please give us the chance to satisfy you before posting any reviews online.

You can contact us 24 hours a day by e-mail at [service@JLabAudio.com](mailto:service@JLabAudio.com) or call us during business hours toll-free at 1.866.358.6640 and we will be happy to assist you.

Your new headphones require a burn-in period to operate at their full potential. Simply plug them into your favorite sound device and let it play for 24 to 48 hours or more at normal to loud volume. This allows the driver to warm up and gain flexibility in order to reproduce a more accurate frequency range. The longer you listen to them, the better they will sound. JLab has provided a simple burn-in method for your convenience at: [JLabAudio.com/burn.php](http://JLabAudio.com/burn.php)

**Instructions for use:** Lower the volume on your audio device. Gently put headphones on your ears. Gradually raise the volume to a comfortable level. In order to block outside noise, position the headphones so they form a seal inside your ear.

**Cautions:** Avoid getting moisture or liquids on the headphone cups. Avoid extreme heat, cold, and humidity. Avoid dropping or crushing headphones, stressing the cable by rapid pulling or extreme force, or bending the cable at a sharp angle. Wax may build up in headphone cups, lowering the sound quality. Carefully remove the wax with a Q-tip or other small tool to improve the sound quality. If you experience discomfort or pain, try lowering the volume or discontinuing use temporarily. If you experience regular discomfort while using this product, discontinue use and consult your physician.

**Warranty:** To activate your limited one year warranty coverage for this product, visit [www.JLabAudio.com](http://www.JLabAudio.com) within 30 days of purchase, go to support and follow the link there. If you do not register your warranty within 30 days, your product will not be covered. At its option, JLab Audio will repair or replace the defective product. Retain your proof of purchase to ensure warranty coverage. If you believe your product is defective while under warranty, visit [www.JLabAudio.com](http://www.JLabAudio.com) for service and support.

## Instructions for microphone models:

**Use with Phone:** To make or receive a call, simply press the phone control button (pictured) once. When you are finished, press the phone control button again to return to normal music listening mode.

**When listening to music:** Quickly press the phone control button twice to skip to the next track, or quickly press it three times to skip to the previous track.

**Compatibility:** iPhone, Android, BlackBerry and most phones with a 3.5mm jack.
