Stunning graphics, outstanding sound and superb high-resolution screens support thrilling gameplay, movie-viewing and sophisticated presentations, neatly combining busin-

Harness the power of the best technology on the market to do anything you want. These systems offer the perfect combination of multimedia, high-level specifications and top performance to effortlessly meet every need.

Don't tie yourself down. Get connected anytime, anywhere with state-of-the-art integrated communications.

Great looks are backed by cool design features, including an all-in-one combination of optical drives. HDDs and diskette drives that delivers maximum flexibility for every

The latest software applications offer instant out-of-the-box enjoyment and productivity. A host of practical features ensure the best possible user experience.

Mobile multimedia made easy and affordable.

You get fantastic value with these brilliant entry-level Satellite A10 notebooks. Powerful communications let you stay in touch at all times. Everything is pre-installed, so you can get up and go with all the essentials at hand. It's great performance wrapped up in a smart design at an affordable price.

- technology and power straight out of the box to run some of the most demanding applications
- Latest high-powered Intel® Celeron® processor meets any need
- Amazing value for money, exceptional
 Cutting-edge communications with everything on board, including built-in wireless LAN antenna for easy upgrade to full Wi-Fi™ capability
 - · Ultra-stylish and lightweight design gives you the freedom to work or play

Satellite A30 series

The power you need at a price you can afford.

You don't need a big budget if you want power and performance. The Satellite A30 delivers next-generation mobile computing at a great price. From copying CDs and surfing the net to finance and business applications, the Satellite A30 has everything you need to breeze through life. With its impressive multimedia. capabilities and extensive connectivity, it's the ideal all-in-one portable solution the perfect choice for students, home users and business professionals

- With high performance processing power courtesy of the latest Intel Pentium® 4 processors onboard. you can run the most demanding
- applications Integrated i.LINK® supports highspeed connectivity with peripheral devices, while integrated LAN and a built-in Wi-Fi™ antenna for optional

wireless upgrading allow easy

connection to office networks

- The integrated DVD-R/RW is ideal for multimedia playback and burning your own CDs and DVDs
- Contemporary, distinctive blue and black design gets you noticed on the
- . Comes with a broad range of software applications pre-installed for out-of-the-box functionality

Satellite M30 series

Work smart, Look smart The ideal notebook for a mobile lifestyle

with 64 MB RAM and state-of-the-art

Harman Kardon stereo speakers for an

outstanding home cinema experience

The sleek new silver design, weighing

only 2.8 kg, creates maximum visual

impact wherever you go

The M30 series is designed for true mobility without sacrificing high performance and entertainment capabilities. The 15.4" widescreen display and powerful NVIDIA® GeForce™ graphics bring movies to life in all their cinematic glory. With a vast array of connectivity features packed into its slim and stylish design and powered by Intel® Centrino™ mobile technology, the Satellite M30 is perfect for business or pleasure.

- Intel® Centrino™ mobile technology with
 NVIDIA® GeForce™ FX Go5200 graphics integrated wireless capability enhances. mobility and prolongs battery life for increased independence
- Advanced connectivity with everything onboard, including i.LINK® (IEEE 1394). SD™ Card slot, three USB ports, Fast InfraRed and LAN
- The 15.4" widescreen display featuring a 16:10 ratio is ideal for watching movies

Cinematic widescreen multimedia goes mobile.

Satellite P20 series

The Satellite P20 multimedia showcase takes the imagination to an astonishing new level. Its sensational 17" widescreen display, supported by cinematic-quality NVIDIA® graphics and Harman Kardon stereo sound, provides unprecedented theatre-style computing on the go. This fully-fledged mobile entertainment platform gives you true desktop replacement, wrapped in an innovative red and silver case that stands out from the rest.

- . Super-crisp 17" display featuring a widescreen 16:10 ratio and outstanding Harman Kardon audio deliver real cinema-standard mobile entertainment
- NVIDIA® GeForce™ FX Go5200 with DX9 support generates faster, smoother special effects for superior 3D gaming
- Intel® Pentium® 4 processing with HT Technology up to 3.20 GHz, 512 MB DDR RAM and 80 GB HDD run big multimedia tasks effortlessly

Innovative red and silver styling concept with multi-coloured LED palm rest keys makes a major style statement

Satellite 5200 series

multimedia solution. Experience the unexpected.

When it comes to games or movie watching on the go, don't settle for anything less than the best. This is the dream multimedia machine for the mobile lifestyle, producing 3D gaming effects, amazingly realistic images and theatre sound on a par with the hottest Hollywood motion pictures. Add in cutting-edge screen technology and phenomenal processing and watch your games fly.

- Up to NVIDIA® GeForce™ FX Go5600 with DX9 support to power mindblowing cinematic effects
- Dolby Digital Surround Sound and Harman Kardon speakers with integrated subwoofer create a spectacular home theatre experience
- Choose from a DVD-R/RW drive for full multimedia playback and DVD burning or the DVD-Multi drive for reading and writing CDs and DVDs at maximum speed
- . 15" Super Fine View or 15" Clear Super View displays offer pin sharp resolution with ultra-wide viewing angle
- Unique touch-screen cPad™ brings easy navigation and interactive information display such as calendar or calculator
- Toshiba Remote Control allows hands-off control when listening to music, watching movies or delivering a presentation

High-powered Pocket PCs entertained and productive

Toshiba's ultra-portable Pocket PCs are the perfect productivity and digital entertainment systems for mobile executives or personal users on the move. Zip through video streaming or spreadsheets, play games, get connected -

on the move.

Ultra-slim with amazing power and versatility.
