

# ENA 9 One Touch

SWISS  MADE

## The slim machine with a host of coffee specialties

The ideal line for people looking for a first, different or more advanced automatic coffee machine now has something extra to offer. ENA 9 One Touch, JURA's slimmest One Touch machine, makes latte macchiato and cappuccino at the touch of a button. It's perfect for smaller households who expect nothing but the best.

### Wide selection of specialties

ENA 9 One Touch offers the full range of specialty coffees at the touch of a button. Using fresh beans and fresh milk, the model for first-time buyers with a genuine love for coffee even makes cappuccino and latte macchiato, topped with the finest, light-as-air milk foam. Of course, it makes the specialty drink you want at the touch of a button without moving the cup.

### Ingenious dual spout

For the first time in a household machine, the ENA 9 One Touch features a height-adjustable dual spout which adjusts to any height between 75 – 125 mm. The machine is easy to dismantle and clean. Two separate pipe systems for coffee and milk ensure perfect results and easy clean up.

### Revolutionary fine foam technology

Another new development from JURA ensures a unique milk foam quality of a fine, feather-light consistency: fine foam technology.

### The direct route to enjoyment

Because the buttons are clearly arranged and labeled, preparing a wide range of specialty coffees is extremely simple. The Aroma Boost function provides a natural, refreshing energy boost when you need it.
