ACCESS Assessment Process

- All Grade K – 12 students identified as LEP will take an ACCESS test.
- All Grade K – 12 students identified as LEP and enrolled on November 7, 2014, should have received an ACCESS label.
- If a student exits the district before the ACCESS test is given, the label should be destroyed.
- If a student enrolled after labels have been sent, please bubble the student's information on a blank testing document.

ACCESS Assessment Process

- **ISBE created the ACCESS Correction file to capture the data as of the last day of testing.**
 - Demographic, Home School, and Grade details must reflect a student's status as of the last day of the ACCESS testing period.
 - Changes made to the ACCESS correction data only affects data that is being submitted to MetriTech; it does not update the related student information in SIS.
 - Updates to SIS student demographic, enrollment, and program indicator data (and enrollment exits) must also continue through the end of the school year.
 - If student demographic errors are identified in the ACCESS Correction file, revisions must be made both via the ACCESS Correction file and within SIS (via the Student Demographic/Enrollment batch file or the available online areas).
 - An ACCESS Correction record can only be added if the student has an ELL record in your district for the 2015 school year.

PARCC/DLM-AA Correction Process

PARCC Corrections will be handled in 3 Steps:

- Step 1: Clear Unassigned Test Results (1300 out of 2.1 million)
- Step 2: Clean Up Multiple Test Records (221 out of 2.1 million)
- Step 3: Update PARCC Correction Data

The screenshot displays the 'Student Information System' interface for the Illinois State Board of Education. The header includes the state seal and navigation links like 'Home', 'Student', 'Search SID', 'Request New SID', 'Exit Enrollment', 'Assessment', 'Adjusted Cohorts', 'Teacher', 'Batch Files', 'Reports', 'Help', and 'Log Out'. The main content area lists three steps for PARCC corrections:

1. Do you have PARCC Tests that are not assigned to your student's?
[Unassigned Test Results](#)
2. Do you have multiple PARCC Test records for students that need resolved?

■ Step 1 – Clear Unassigned Test Results

- Use Unassigned Test Results screen to identify test records that do NOT match to your current school year data in SIS. Students will appear on this screen for the following reasons:
 - Home School Code was not entered in PAN or was entered incorrectly (Testing School Only)
 - To correct this, update the student's SID and the Home School RCDTS on the Unassigned Test Results screen.
 - This will move the record to the correct Home School, hopefully matching the record. If there is no match, it will appear on the Home Schools Unassigned.
 - Student SID was entered incorrectly at PAN
 - To correct this, select the student and update the SID.
 - Student does not have a Enrollment with the Home School RCDTS that matches the user updating the record.
 - To correct this, create an enrollment for the student in SIS.

Adjusted Cohort Graduation Rate

- The 2015 adjusted cohort graduation rate will be calculated based on SIS data.
- Because the related information will be derived from student information, the accuracy of data reported to SIS becomes even more significant. The adjusted cohort graduation rate will be calculated based on student enrollments and upon proper identification of Enrollment Exit Codes.
- The **Cohort Enrollment Exit Type Code** is essential in providing an accurate measure of high school graduation data. The Cohort Enrollment Exit Type Code is initially set to the student's general Enrollment Exit Type Code, but it can be updated (as appropriate) through the related online screens.
- **Cohort Enrollment Exit Type Codes** fall into 3 categories (Graduates, Non-Graduates, and "Removed from Cohort") that are used in calculating the adjusted cohort graduation rate.
