**PFAFF® creative™ 4.0 –
the moment it becomes possible.**

Elegant lace motifs, embroidered on water-soluble stabilizer, turn glass vases into designer pieces. Designs such as these are part of the large PFAFF® creative™ 4.0 Embroidery Collection.

You can look forward to more than hundred breathtakingly beautiful embroideries, all included with the purchase of the PFAFF® creative™ 4.0 sewing and embroidery machine.

creative™ 4.0

PFAFF® is the brand which elevates sewing to new levels of creativity. The elegant design of the PFAFF® creative™ 4.0 sewing and embroidery machine is based on German tradition. It influences the look of an exciting new generation of sewing machines. You can use it as a source of inspiration and to explore your ideas. Its carefully designed technology makes sewing and embroidery easy.

Spacious

The large, extended sewing space, a long free arm, and a large embroidery area are waiting for you!

Bright

The perfectly illuminated sewing space, the brilliant PFAFF® HD Screen and the three-dimensional view of designs, shapes and colors will fascinate you.

Precise

The original IDT™ system guarantees absolutely even fabric feed from top and bottom. Precise Positioning is the easiest, most accurate means of connecting sections of large embroidery creations. A huge selection of high-quality 9 mm stitches will inspire new ideas.

Embroider monograms, words or entire sentences – all with perfect results. The creative 4D™ QuickFont software is included with the purchase of your PFAFF® creative™ 4.0 sewing and embroidery machine. Use it to turn TrueType fonts from your computer into embroidered text. Also included is the creative 4D™ Organizer which lets you organize your design files on your computer, save designs as image files, print design catalogues and more.

The moment you discover a new inspiration for your next quilt ...

Every quilt reflects an explosion of creativity and ideas. With the PFAFF® creative™ 4.0 sewing and embroidery machine, you will experience a new dimension of quilting.

When quilting, space and precision count!

You need lots of space when working with large amounts of fabric. The PFAFF® creative™ 4.0 sewing and embroidery machine has the space you need – 250 mm (almost 10 inches) to the right of the needle – that's an unbeatable advantage. Leave the embroidery unit attached when you sew, to expand your work surface. Absolutely even fabric feed from top and bottom – that's the guarantee of the IDT™-System.

The highest level of sewing and quilting ease!

At the touch of a button, the presser foot is automatically raised to its highest position or lowered, top and bobbin threads are cut, and the machine can be started or stopped without the foot control. The thread sensors let you know when the thread is running low or breaks. The PFAFF® HD screen shows your stitches in actual size, at the recommended setting. Each setting can be changed, and the new setting can be permanently saved in the machine's memory for later use. Adjust the presser foot pressure for the fabric you

are using. With 37 different needle positions available for straight stitch, you can stitch each stitch exactly where you want it. The extra-large stitch plate has seam markings to the left and the right of the needle to guarantee the right spacing and perfect sewing results.

Create unique surfaces!

Select one of the two Free-motion modes, and move the fabric as desired to create a unique stitched surface. The PFAFF® creative™ 4.0 sewing and embroidery machine sets the correct presser foot height and lowers the feed dogs automatically for you.

Large sewing space – a dream, not only for quilters!

The well-designed shape of the PFAFF® creative™ 4.0 sewing and embroidery machine offers unbelievable space for working with large amounts of fabric. A sewing space of 250 mm (almost 10") to the right of the needle – an unbeatable advantage when quilting.

The original – only from PFAFF® for over 40 years!

The ultimate in piecing perfection!

Absolutely even fabric feed from both the top and the bottom.

Everything stays in place when working with fine fabric or several layers. When sewing long pieces of fabric, such as curtains, both layers are fed evenly along the entire length. Patterned fabric, such as stripes, always match.
