Introduction

Time office software is generally used to generate reports (after capturing punching data) on daily basis , monthly basis , yearly basis etc in excel, word and text format. With the help of this time office software we can calculate over time of those employees who stay after their working hours and also can calculate out work.

After installing time office software, you just double click on star Time Office general and you will see license window and ask the valid user name and password like below:

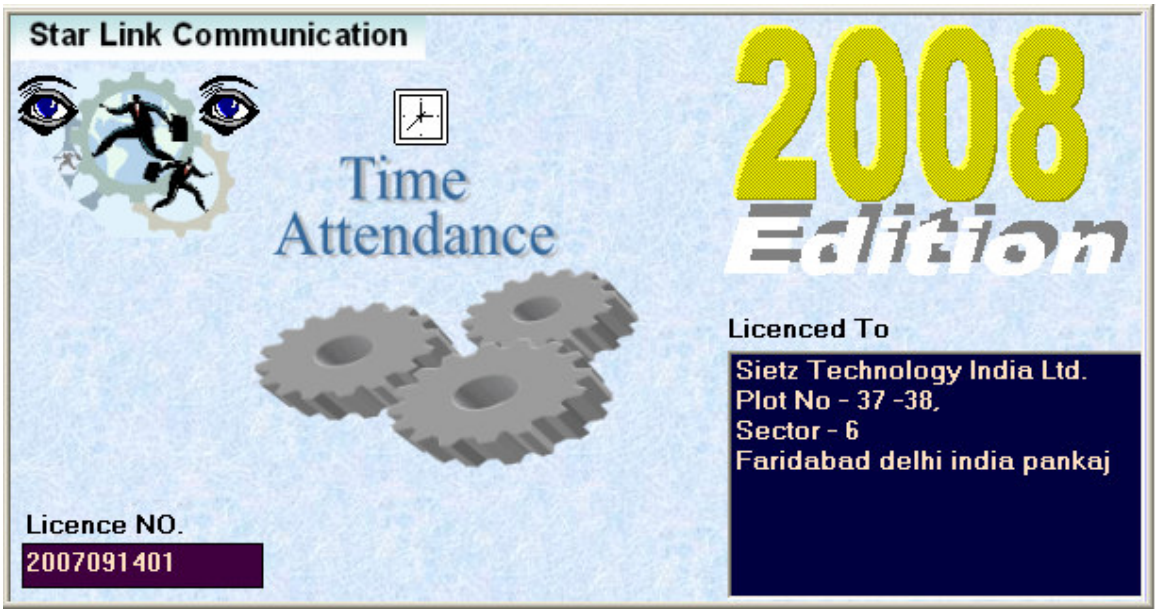

Figure 1: License window for time office software

Figure 2: Set User Name and Password

Enter a user name and password that you can set for open time office software

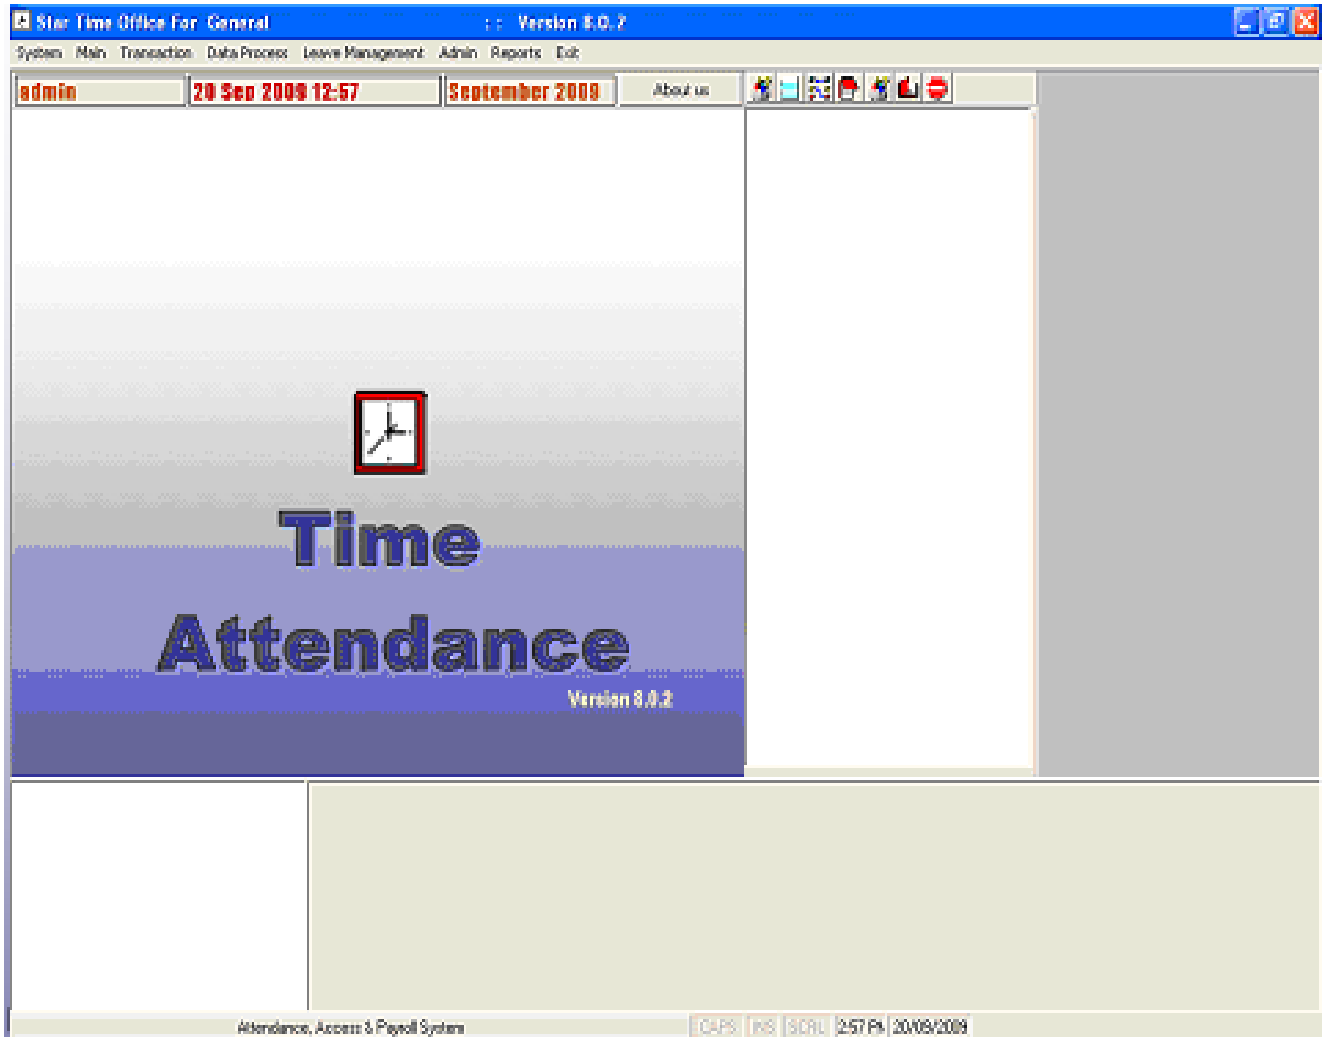

Figure 3: Main Screen for Time Office Software

1 System

In system you can set password or change password, and see calendar and use calculator and import data.

1.1 Password

You can set password to restrict unauthorized user for access the time office software. If you are giving password first time then you have to leave blank the old password textbox and enter password which you want to give in the new password textbox then confirm it in the confirm new password textbox Press "Ok" button to activate the new password. You can change password through this option. Enter old password in the old password textbox and continue the same process as new password creation and press "Ok". The new password will activate after pressing "Ok" button.

To cancel the new password creation process press "Cancel" button.

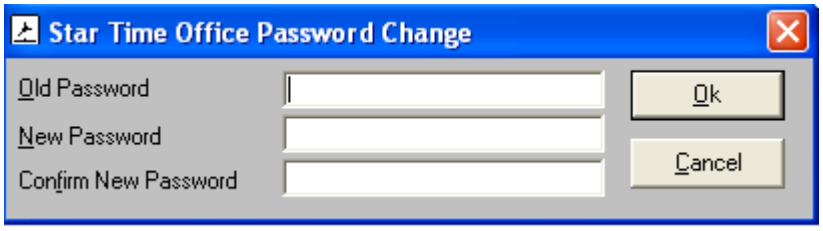

Figure 4: Set/ Change Password window

6.1 Time office Setup

Each company has its own policy for time office setup. This time office setup will work for all employee.

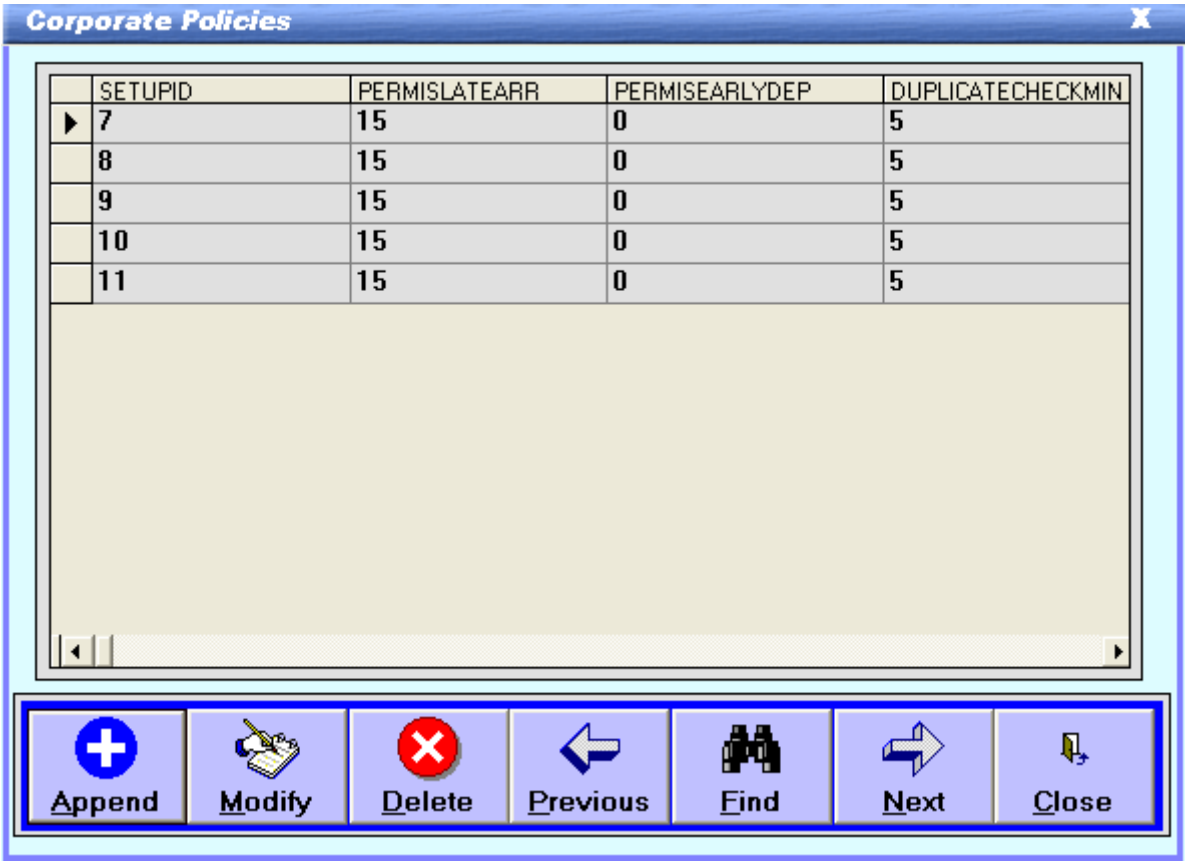

Figure 51: time office setup-1

There are following parameters which each company has to set for all employees:

- Setup Register No.: This will automatically generate on every time when you modify in time office setup.
- Duplicate check min: This is a time duration in which if a employee punch his/her card at many time, software will take first punch. Default time is 5 minute.
- Four Punch in Night shift: By clicking on this option, you can allow maximum 4 punches in the night shift.
- End time to IN Punch & End time for End Punch: this option is used for RTC employees only for the duration of more than 24 hours.
- Maximum Late Arrival Duration: You can set maximum duration for late arrival (240minutes).

- ❖ Maximum Early Departure Duration: You can set maximum duration for early departure (240minutes).
- ❖ Half Day Making: If you want to allow to half day to all employees, click on this option.

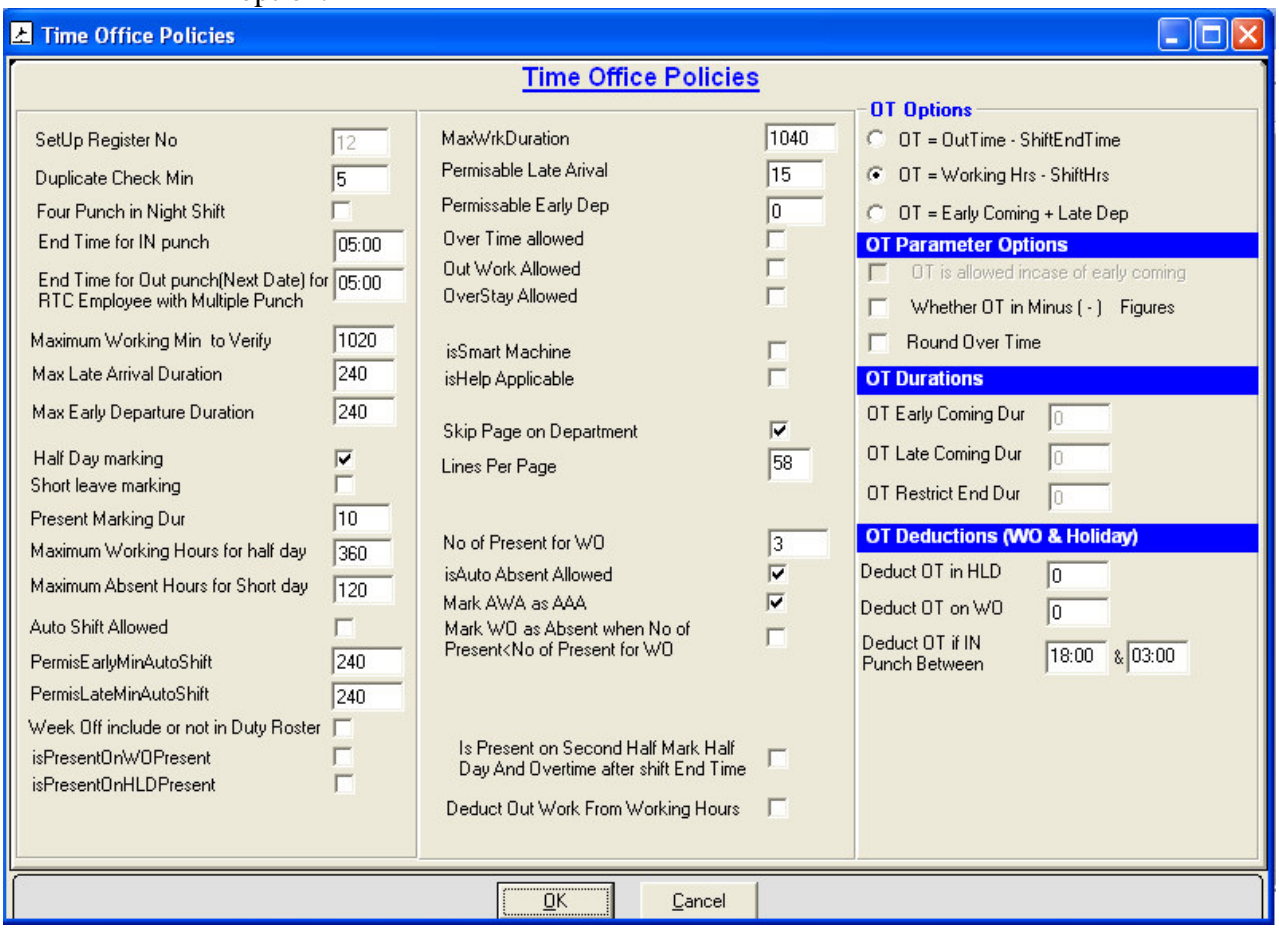

Figure 52: time office setup-2

- ❖ Short Leave Marking: If you want to allow to short leave to all employees, click on this option.
- ❖ Present Marking Duration: You can set min time for mark present.
- ❖ Maximum Working Hours for Half Day: You can set maximum hours for half day.
- ❖ Maximum Absent Hours for Short Day: You can set maximum absent hours for short day.
- ❖ Auto Shift allowed: By clicking this option, software will pick up shift automatically.
- ❖ PremisEarly min auto shift: By setting this time duration, if an employee is coming earlier, that employee will belong to which shift.
- ❖ Weekly Day include or not in Duty Roster: If you want to include weekly off in duty roster, click this option.
- ❖ Present on WO present: If you are present on weekly off, click on this option.

- Present on HLD present: If you are present on holiday, click on this option.
- Maximum Working Duration: You can set maximum working hours for working in a month.
- Permissible Late Arrival: You can set time which you give to employee who comes late without marking as late.
- Permissible Early Departure: You can set time which you give to employee who goes early without marking early departure.
- Over Time Allowed: By clicking on this option, you can activate this option.
- Out Work Allowed: By clicking on this option, you can activate this option.
- Overstay Allowed: By clicking on this option, you can activate over stay.
- Mark AWA as AAA: If an employee is absent on Saturday and also absent on Monday. By clicking this option, Sunday will also count as absent.
- No of present for WO: You can set no of days for weekly off.
- Is Auto absent Allowed: If an employee is absent on Saturday, software will show his absent automatically by clicking this option.
- Mark WO as Absent when no of present < no of present of WO: if no of weekly off is greater than no of present, weekly off will count as weekly off by clicking on this option.
- There are some formulas for Over Time:
  OT=Out Time-Shift End Time
  OT=Working hours – shift hours
  OT=Early coming + Late Departure
- OT parameter options:

1. check on "OT is allowed incase of early coming" : Over time will count on early coming.
2. check "round OT" to count OT round figure.

- OT Durations:

1. OT Early Coming Duration: In this you have to enter time duration before that if an employee is coming, OT will not count. OT will count after that time.
2. OT Late Departure Duration: By setting this time duration, if an employee stay after working hours, after this duration OT will not count.
3. OT restrict End Duration: You have to set maximum over time.

6.2 Time office Corporate policy

If you want to change in time shift policy for all employees or selected employees in employee master, use this option.
If you change in permissible late arrival, permissible early departure and maximum working hours in a day and press button save to save these information only.

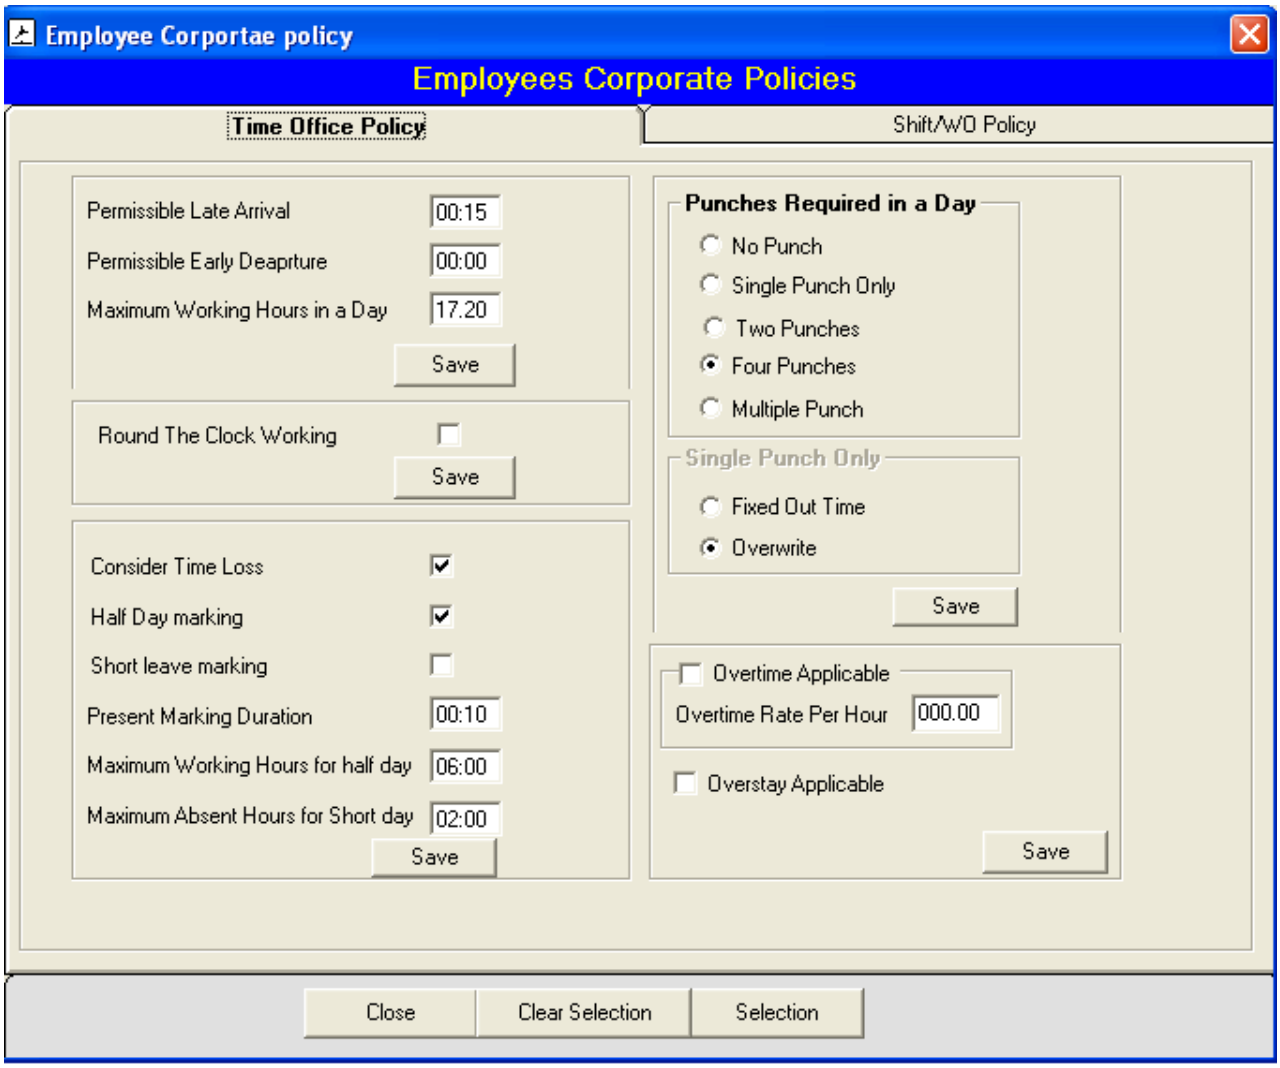

Figure 53: Time Office Corporate Policy
