Check that the unit has not been damaged during transport

Read all cautions and warnings  
prior to operation of this  
equipment

#### Protection Against Fire

Fire

1. Maintain a minimum of 1 foot distance from any type of flame.
3. Replace fuse only with the specified type and rating.
4. Do Not install the unit too close to a heat source.
5. Make sure cables are properly secured away from unit movement.
6. Maximum surface operating temperature 104°.

#### Protection Against Fire

Electrical

1. Disconnect power before lamp replacement or servicing.
2. For connection to main power supply proceed to page 6.
3. This unit must be earthed. (electronically grounded)
4. Do not expose unit to rain or moisture.

#### Protection Against Mechanical Hazards

Mechanical

1. Use safety chain when hanging unit.
2. Use quality clamps or bolts when positioning unit
3. Do not open unit risk of electrical shock.

# Specifications

## Part Numbers

### Fixture

**1120 - AXIS Prime 10R**

### Lamp

**LOSR280 -Osram HRI280W**

### Flight Case

**P-1120 DUALCASE**

## Mechanical Specifications

**Pan:** 540°      **Tilt:** 270°  
**DMX Connectors:** 3-pin and 5-pin XLR connectors  
**Thermal:** Maximum ambient temperature 40° C  
 Maximum surface temperature 80° C  
**Fastening System:** 2 Quick release Clamp mounts bi-directional  
**Looking System:** Pan & Tilt lock for transportation

Fixture	Packaged for Shipping
Size: 15.5/8" x 12.75" / 15.5" (with Connection) x 22.75" Weight: 40 lb	Size: 18.5" x 24" x 15.75" Weight: 46 lb

## Electrical Specifications

**Power supply:** Auto Switch 100V-240V 50/60 HZ  
**Power consumption:** 3.94 amps  
 427 watts  
**Ballast:** Electronic  
**LAMP:** Osram Sirius HRI 280W

## Electromechanical Effects

**Focus:** Motorized Focus  
**Zoom:** Motorized Zoom 2.7°≈48°  
**Prism:** 3-Facet prism rotating in both directions at different speeds  
**Dimmer:** Mechanical Dimmer.  
**Shutter:** Mechanical strobe of lamp 9 flash per second

## Main Power Connec-

### Caution!

1. Do not connect fixture to a dimmer system.
2. This unit must be earthed. (electronically grounded)
3. Replace fuse only with the specified type and rating.

This device is equipped with a auto switching power supply that will allow you to work from 100V-240V 50/60Hz

The occupation of the connection-cable is as follows:

Cable (USA)	Cable (EU)	Pin	110V	220V
Black	Brown	Live	L	L
White	Light Blue	Neutral	N	L
Green	Yellow/Green	Ground		

110V  
Connec-

220V  
Connec-

## DMX-512 Connec-

The fixture is equipped with 3 pin XLR Sockets for DMX input and output. The sockets are wired in parallel. Only use a shielded twisted pair cable designed for RS-485 and 3 pin XLR plugs and connectors in order to connect the controller with the fixture or the fixture with another.

### DMX—input

### DMX—output

1. Shield
2. Signal (-)
3. Signal (+)
4. N/A
5. N/A

### Caution!

At the last fixture the DMX signal needs to be terminated with a terminator. Solder a 120 Ohm resistor between the (-) and the (+) signal into a 3 pin XLR plug and plug it in to the last fixture on the signal run. Pre-manufactured terminator plugs are availa-

# Rigging the fix-

## Caution!

1. The installations must be carried out by an authorized dealer or trained professional.
2. Unit may cause severe injuries if you have doubts concerning the safety do not install.

When rigging a unit it is very important that you follow common safety procedures. Rigging requires extensive experience including but not limited to calculating working loads, material being used and periodic safety inspections. If you lack these qualifications, do not attempt the installation yourself, instead use a professional structural rigger.

When rigging the unit always be secured with a secondary safety attachment. The installation location of the projector has got to be built in the way that it can hold 10 times the weight for 1 hour with out any harming. Installation should be checked at least one time a year by a skilled person.

## Main Control

The control board on the fixture base is your interface to access and control all the functions on the unit. Its LED display gives you a code view of the options and functions. The following will explain each function and its options.

Introduction

DMX ADDR:  
  
001

		Entire Fixture Reset	247-249
		No Function	250-255

# Cleaning and maintenance

**Installation Maintenance:** The operator has to make sure that the unit is operating safely and has the installations and electronics checked by an expert every 2 years.

The following points have to be considered during the inspection:

- 1) All screws used for installing the device or part of the device have to be tightly connected and must not be corroded.
- 2) There must not be any deformations on the housing, fixation and installation spots (ceiling, suspension, trussing).
- 3) Mechanically moved parts like axles and other must not show any traces of wearing and must not rotate with unbalances.
- 4) The electronic power supply cables must not show any damages, material fatigue (e.g. porous cables) or sediments. Further instructions depending on the installation spot and usage have to be adhered by a skilled installer and any safety problems have to be removed.

**Disconnect from mains before starting maintenance operation!**

*Caution Danger to life!*

Electrical

We recommend a frequent cleaning of the device. Please use a moist, lint free cloth. Never use alcohol or solvents!

- 1) The objective lens will require periodic cleaning on usage and environment. Environment with foggers will require more periodic cleaning as fog fluid tends to build up residues, reducing the light output.
- 2) The cooling-fans should be cleaned monthly. DO NOT blow high pressure air into fans as incorrect rotation can damage the fans operation.
- 3) The gobos, dichroic color filters and internal lenses may be cleaned with soft brush using soapy water.
- 4) The interior of the fixture should be cleaned using a vacuum.
- 5) We recommend proper lubrication of the motor wheel. The quantity of the oil must not be excessive in order to avoid oil run outs when motor wheel rotates

**Note:** There is no serviceable parts inside the device except for the fuse. Maintenance and service operations are to be carried out by authorized dealers.

**Replacing the fuse:** Only replace the fuse with the same type and rating.

**Replacing the power cable:** If the power cable of this device becomes damaged, it has to be replaced by authorized dealers only

**Should you have further questions , please contact your dealer.**

## Parts List

P-1120	Dual Axis Prime Case
L-OSR280	Osram HRI 280W Lamp
1120-DC	DC Converter
1120-LD	Lamp Driver
1120-DIS	Display Card
1120-FAN	Fan 80mm
1120-SFAN	Fan 60mm
1120-LP	Lamp Power Supply
1120-PS	Motor and Control Power Supply
1120-QRM	Quick Release Mount Set
1120-SP	Power Switch

1120-PL	Primary Lens
1120-ARMB	Arm Body Set
1120-DISB	Display Body Set
1120-HEADB	Head Body Set
1120-MC	Motor Color
1120MRG	Motor Rotating Gobo
1120-MGR	Motor Gobo Rotator
1120-MFG	Motor Fixed Gobo
1120-FU	Replacement Fuse

## Warranty Information

### Warranty Conditions

- Unless otherwise stated in writing, your product is covered by a one year parts and labor limited warranty.
- LEDs are not guaranteed to match in color temperature or output.
- It is the owner's responsibility to furnish receipts or invoices for verification of purchase, date, and reseller or distributor.

If purchase date cannot be provided, date of manufacture will be used to determine warranty period.

• GOODS RETURNED UNDER WARRANTY MUST FOLLOW THE PROPER AUTHORIZATION PROCEDURE AND MUST BE

ACCOMPANIED BY A COPY OF THE ORIGINAL INVOICE

• Goods repaired under warranty will be returned to the owner with the freight prepaid by MSI via the most economical means of shipment

• REPAIR OR REPLACEMENT AS PROVIDED FOR UNDER THIS WARRANTY IS THE EXCLUSIVE REMEDY OF THE

CONSUMER. MEGA SYSTEMS INC. MAKES NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO ANY PRODUCT, AND MEGA SYSTEMS SPECIFICALLY DISCLAIMS ANY WARRANTY OF MERCHANTABILITY OR FITNESS

FOR A PARTICULAR PURPOSE. MEGA SYSTEMS SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGE, INCLUDING LOST PROFITS, SUSTAINED OR INCURRED IN CONNECTION WITH ANY

PRODUCT OR CAUSED BY PRODUCT DEFECTS OR THE PARTIAL OR TOTAL FAILURE OF ANY PRODUCT REGARDLESS OF THE FORM OF ACTION, WHETHER IN CONTRACT, TORT (INCLUDING NEGLIGENCE), STRICT LIABILITY OR OTHERWISE, AND WHETHER OR NOT SUCH DAMAGE WAS FORESEEN OR UNFORESEEN.

• Warranty is void if the product is misused, damaged, modified in any way, or for unauthorized repairs or parts. This warranty

gives you specific legal rights, and you may also have other rights which vary from state to state.
