ADD / EDIT OPTION GROUP

LOC:: System Config. > Options ... Click "Add New Group" or "Edit Group" button

- Name: Name of the group
- Code: Code of the group (Must be unique and system group code cannot be changed)
- <u>Priority</u>: Display priority of the option group at back end

For advanced users: If you change the group code here, you must change the code where the code has been reference too.

LOC:: System Config. > Options ... Click a group name to view option list/entries

Switch between option item

- <u>Value</u>: The value of the option, must be unique in a group
- Name: Option item caption (Multi-lingual)
- Set default: Default selection of a option group
- Priority: Option item display priority
- Image: In some system, option items are displayed as images, such as member logo selection, or language selection, gift wrapping, etc.
- <u>Description</u>: Extra information for the option items, some system will use this description to provide extra functions

SPECIAL OPTION GROUPS

The following option groups are very important groups that we recommend you to know more about their nature before make any modification

Group	Description
Shipping methods	Once you change option code for items of this group, you must go to the shipping cost calculation part to make corresponding changes. It is suggested that do not change the option code, instead, change the option name/caption to prevent chaos
Payment methods	Same as above
Member type	As member type are related to member discounts, so you must go to the general setting part of the membership management session to make corresponding updates
Gift wrapping	Gift wrapping option item values must be in the form of XX=12.34, where XX is the gift wrapping code, and 12.34 is the price in system settlement currency rate
Order Type	Never change the code (01for orders with shippable goods only, 10 for virtual/non-shippable products, 11 for order of mix type)
Search Type	Do not change the item value code (Defaults are TITLE, FULL, CONTENT, BBS)
