

FCC Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction guide, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult a service representative for help.

Properly shielded and grounded cables and connectors must be used in order to comply with FCC emission limits. LifeWorks is not responsible for any radio or television interference caused by using other than recommended cables and connectors or by unauthorized changes or modifications to this equipment. Unauthorized changes or modifications could void the user's authority to operate the equipment.

Mouse Devices: Health Warning

Use of a mouse may be linked to serious injuries or disorders. As in many activities, when using a computer you may experience occasional discomfort in various parts of your body. However, do not ignore symptoms such as persistent or recurring discomfort, pain, throbbing, aching, tingling, numbness, burning sensation or stiffness. Promptly see a qualified doctor, even if symptoms occur when you are not working at your computer.

There is general consensus among researchers that there may be many factors linked to the occurrence of these symptoms, including overall health, stress, physical condition and how a person positions and uses his or her body during work and other activities (including the use of a keyboard or mouse). The amount of time a person spends performing an activity may also be a factor.

If you have questions about how your own lifestyle, activities or physical condition may be related to these symptoms, see a qualified health professional.

system requirements

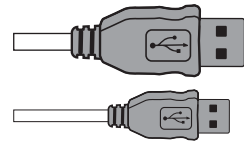

- Windows® XP, Windows Vista® or Windows 7 or Mac® OS X v10.5 or later
- USB port

setup

1 • verify package contents

case with
bluetooth keyboard

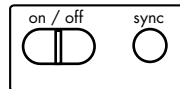

USB charging cable

quick start guide
(in your hands right now)

2 • syncing your keyboard

1. Slide the switch on the front of the Bluetooth keyboard to the on position.
2. Press the "Bluetooth Pairing" button on the Bluetooth Keyboard, and a blue LED will flash.
3. Tap the "Settings" icon on your iPad to open the Settings menu.
4. Tap the name of your Bluetooth keyboard when it shows up on your iPad. A Passkey number will be shown on the iPad. Type this number on your Bluetooth keyboard and press "Enter." The iPad and keyboard will now be paired.
5. Open an iPad application you can type in, such as Notes or Pages. You should be able to type with the Bluetooth keyboard.

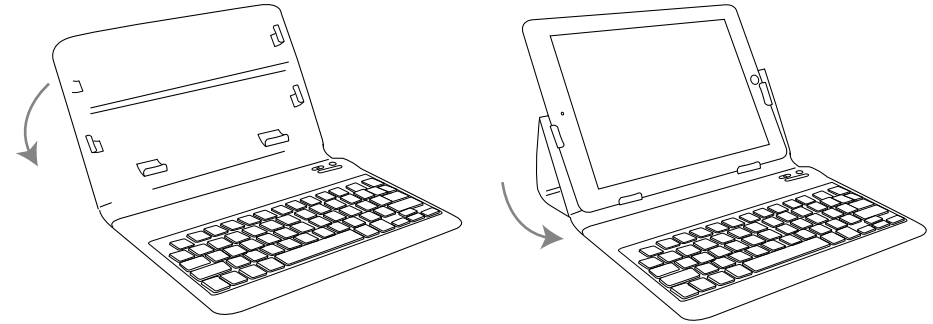

3 • charging your keyboard

1. Use the included charging cable to plug the keyboard into any USB port. the mini USB port is located in the left side of the keyboard.

4 • typing

- To use the keyboard, simply unsnap the top two hooks and fold the cover back until it is tucked under the keyboard. As shown below.

Note:

LED indicator status:

- Blue LED: Flashes while Bluetooth keyboard is searching for and pairing with a Bluetooth device. Glows steadily once paired.

Product Tips:

- When placing the iPad in the case make sure the power button of the iPad is on the bottom of the case. The same side as the keyboard's mini USB port.
- Bluetooth keyboard is compatible with iPad, iPhone and Bluetooth enabled Mac computers.
- We recommend using this product on stable flat surfaces for the best user experience possible.

Please exercise caution when using directly in your lap.

troubleshooting

situation	try this
keyboard does not pair	<ul style="list-style-type: none">• Ensure the on/off switch on the keyboard is in the on position.• Make sure that the pairing light is blinking.• Ensure the Bluetooth is active on your device.
keyboard does not charge	<ul style="list-style-type: none">• Try a different wall outlet• Try a different charger• Try a different charging cable
