V2.8

Following pop-up will appear if you were properly authenticated and above was successful.

2.2 Preparing Your AMIBROKER

Step 1:

1) Create A New Database As Above. Go To AMIBROKER. Menu: File->New Database

Choose Path As: %\Program Files\ AMIBROKER \ RT.

Click Create

Only after creating the Database, Bottom options will be visible.

eneral	
Database folder:	PT Browse
<ul> <li>Load this database at sta</li> </ul>	artup Create
ata source	
ata source:	Data Provider 44313
ocal data storage:	Enable (recommended) Disable
Jumber of bars: 260 daily bars is about one 'ear worth)	(approx. 0 days, 7812 KB per symbol)
ase time interval:	Tick
Eluch cache	raday settings

2) Choose Database Settings As Following.

Data Source: DATA PRO 44xxx (PRESENTLY DATA PRO 44320)

No of Bars- 250000

Base Time Interval- TICK (RECOMMENDED)

Demo users of AMIBROKER can't select this option. Please then use instead of Tick.

3) Click Okay

Database folder:		
C:\Program Files\AmiBro	oker\Data	Browse
		Create
ata source		
)ata source:	Data Provider 443	13
ocal data storage:	⊙ Enable (recomm ○ Disable	ended)
Number of bars: (260 daily bars is about or year worth)	ne 250000 (appr 7812	rox. 0 days, KB per symbol)
Base time interval:	Tick	~
Flush cache	Intraday settings	Configure
	ОК	Cancel

Step 2: Add SYMBOL in AMIBROKER using Menu: - SYMBOL-New –ACC. After doing that following should be displayed. The Name of the symbol in the Main Window- AMIBROKER-[NIFTY.....Daily]

V2.8

IMP: If it does not show like above then Click AMIBROKER/VIEW/ Charts. Basic Indicators/ Price (all in one). A pane will be added and Step 2 displayed. If still you can' see in AMIBROKER main window- Top Left Then Please check AMIBROKER version is greater than 4.92

In AMIBROKER, Please see Bottom Right: It will Show that Data Provider is logged and Green Button is seen. Please refer the picture below:

Step 4:

Your AMIBROKER is ready to use. Please go to Usage Guidelines In section 3.1 to see how to get data.

# 2.3 Preparing Your METASTOCK:

Step 1:

Please Ensure that METASTOCK database is downloaded from link:

Metastock Download and unzip same to C:\

After finishing you should have folders like C: \Equis\EOD\ and C: \Equis\RT

PLEASE DO NOT UNZIP TO ANOTHER EQUIS, Example : FOLDER WHICH SHALL MAKE UR DATBASE AS C:/EQUIS/EQUIS is incorrect

Step2:

Please Open Your MetaStock & Set Number of Bars Path:-File->Open->Options->Load Options No. of Bars-65000.

🍀 Open					
Look in :	🗀 A		× 🗃 🖬 -	Tools 🝷 Og	tions •
	Symbol	Name	Periodicity	First Date	La 🔨

	<				>
	Symbol:		~	Ope	en 📄
Periodicity:	File description:		~	Can	cel
Tick 💌	Files of type:	Smart Charts	~	Hel	P

Step3:

Please Open Your METASTOCK and load any symbol file from any of the folders. You should see the name of the symbol as shown below on picture's title:

METASTOCK PROFESSIONAL-[Boeing Co] or METASTOCK PROFESSIONAL-Boeing Co FOR EXAMPLE: (SEE PICTURE BELOW)

Wrong way to display the chart for a selected symbol (using templates):

You have directly applied template. Please close this and open it directly from database folders and then apply indicators.

# Step 4:

Your METASTOCK is ready to use. Please refer to Usage guidelines in section 3.2 for getting data.

# **3. Using Software**

3.1. Using Data Provider for AMIBROKER

IMP Note for Non Exploration Package:

1) The DP SEES what u SEE. So if you are seeing Nifty Chart, DP will get u data for NIFTY. As soon as you open another chart the Data for that Chart will be brought. You can have 20 charts open- BUT WHAT YOU HAVE PRESENTLY SELECTED and in VIEW- you shall get data for that chart. This is an intelligent system designed for benefit of users, to view the data with just one press of button there is no need of separate backfill or any preparation, DP handles everything and follows you with whatever chart you are viewing auto backfilling when you switch charts instantly.

(Note: this restriction is not there for Exploration packages) 3.1.1 EOD for AMIBROKER: ONLINE MODE: Gets Chart instantly from 1994

	Clean All RT Data From Amibroker/Metastock	
	Clean All EOD Data From Amibroker/Metastock	
	System Tray Notification ON - See Symbol/Server Info	1
	2 de de la	

Select symbols from Dropdown list Box & using Add to List button add symbols to ListBox. Repeat same process to add more symbols. Then select all symbols & do right click on selected symbols. It display different options to Backfill your stocks as follows.

- 1. Update EOD of Selected Stocks.
- 2. Backfill Previous days +Current Day's Intraday Data.
- 3. Backfill Only Current day's data.
- 4. Delete EOD data.
- 5. Delete intraday data.

V2.8

It shall start downloading data. Please be patient till the downloading is finished.

You shall get a confirmation message when downloading is finished.

10

**V2.8** 

3.2. Using Data Provider For METASTOCK: IMP:

You CANNOT open more than one chart of same symbol i.e. if you have opened ACC chart form eod folder then same time you can not open ACC chart from RT folder.

2) The software SEES what you SEE. So if you are seeing Nifty Chart, the software will get u data for NIFTY. As soon as you open another chart the Data for that Chart will be brought. You can have 20 charts open- BUT WHAT YOU HAVE PRESENTLY SELECTED and in View- you shall get data for that chart. This is an intelligent system designed for benefit of users, to view the data with just one press of button there is no need of separate backfill or any preparation, DP handles everything and follows you with whatever chart you are viewing auto backfilling when you switch charts instantly.

(Note: this restriction is not there for Exploration packages)

1) If Click Start/Market Data Provider/Data Provider

Once the application starts

You can change the mode by clicking on TOP left button.

V2.8

Click Get Me Data

To get RT data open a Chart from RT folder, On pressing "Get Me Data" DP button will show Get ->Meta-RT.

To get EOD data open a Chart from EOD folder. On pressing "Get Me Data" DP button will show Get->Meta-EOD.

Open METASTOCK. Choose your symbol from C:\Equis\EOD Make sure the name is displayed in title bar: SEE PICTURE Above: Do not open EOD and RT charts of same symbol in Metastock at the Same time when running Data Provider.

# 3.2.2 RT for METASTOCK:

Open METASTOCK. Choose your Symbol from C: \Equis\RT\ Make sure the name is displayed in title bar.

**3.3 Using Offline Mode – Get EOD & IEOD Data** Synchronize Database

Click Backfill menu- Go on New Feature: Synchronize complete Database-Eod/IEOD Data

V2.8

Choose Synchronization option from Dropdown List Box. It displays different options as follows:

1) Import All Eod Cash & Fno from 1994-Required one time import.

- A) Download Complete Database from Link: Download Ready to Use Eod Database.
- B) Please unzip the file and store unzipped folder any where On your computer.
- C) Select in Drop down Options:"<u>Import All Eod Cash & Fno from</u> <u>1994-Required one time import</u>" and then click on start button. It shall start importing Data & after that DP shall automatically Restart.
- 2) Update Eod Data Till Today- if less than 30 days of import.
  - A) Before using this option, you must first import All Eod cash & fno data As per above option.
  - B) Select this Option to update eod database (From Last updated Date to Current Date).

3) Update Cash IEOD data Till Today.

To update cash IEOD data from Last Updated date to Current date. Please select this option and click Start.

4) Update Future IEOD data Till Today.

To update future IEOD data from Last Updated date to Current date. Please select this option and click Start.

5) Update MCX EOD Till Today.

To update MCX EOD data from Last Updated date to Current date. Please select this option and click Start.

### 6) Update MCX IEOD Till Today.

To update MCX IEOD data from Last Updated date to Current date. Please select this option and click Start.

# 3.4 Procedure to run Exploration mode

# 3.4.1 Tick Mode

Choose this mode to get automatic Backfill of EOD / RT / Intraday data for currently viewed stock in Amibroker or Metastock.

NOTE: For all below exploration modes, to backfill your list you do not need to Stop DP, leave it running with Get Me Data. Simultaneously backfill your desired list for Previous+ Current Day from Backfill Window.

0

3.4.2 Fno Cash Exploration Mode

Choose this mode to get current streaming data of all FNO Cash Stocks. If you want to Backfill EOD/Historical Intraday data of any stock, you can do so even while running in exploration mode by going to Backfill menu on DP. Please refer to section 3.1.4.

# 3.4.3 Curr Future Exploration Mode

V2.8

Choose this mode to get current streaming data of all Current Future . If you want to Backfill EOD/Historical Intraday data of any stock, you can do so even while running in exploration mode by going to Backfill menu on DP. Please refer to section 3.1.4.

# 3.4.4 All Exploration Modes

Choose this mode to get current streaming data of all NSE stocks + Future Stocks at a time. If you want to Backfill EOD/Historical Intraday data of any stock, you can do so even while running in exploration mode by going to Backfill menu on DP. Please refer to section 3.1.4.

# 3.4.5 MCX Exploration Mode

V2.8

Choose this mode to get current streaming data of all MCX counters at the same time. If you want to Backfill MCX counters at the same time of any stock, you can do so even while running in exploration mode by going to Backfill menu on DP. Please refer to section 3.1.4

# 3.4.6 NSE + MCX Exploration Mode

👽 Data Pro	vider		
EOD+RT	Expl-NSE+MCX	Backfill	Help
	iet Me Data		Stop

Choose this mode to get current streaming data of all SP 500 cash stocks + current month futures + all MCX counter at the same time. If you want to Backfill EOD/Historical Intraday data of any stock, you can do so even while running in exploration mode by going to Backfill menu on DP. Please refer to section 3.1.4.
