# Blu-ray<sup>TM</sup> Disc Player user manual

## imagine the possibilities

Thank you for purchasing this Samsung product. To receive more complete service, please register your product at www.samsung.com/register

# Key features

### **Blu-ray Disc Features**

Blu-ray Discs support the highest quality HD video available in the industry - Large capacity means no compromise on video quality.

The following Blu-ray Disc features are disc dependant and will vary.

Appearance and navigation of features will also vary from disc to disc.

Not all discs will have the features described below.

### Video highlights

The BD-ROM format supports three highly advanced video codecs, including AVC, VC-1 and MPEG-2. HD video resolutions are also supported:

- 1920 x 1080 High Definition
- 1280 x 720 High Definition

### For High-Definition Playback

To view high-definition contents on a Blu-ray Disc. vou need an HDTV (High Definition Television). Some Blu-ray Discs may require you to use the player's HDMI OUT to view high-definition content. The ability to view high-definition content on Blu-ray Discs may be limited depending on the resolution of your TV.

#### **BD-LIVE**

You can use a Blu-ray Disc that supports BD-LIVE to download content provided by the disc manufacturer through a network connection.

### **Blu-ray Disc Player Features**

#### Smart Hub

You can download various for pay or freeof-charge applications through a network connection. These applications provide a range of Internet services and content including news, weather forecasts, stock market quotes, games, movies, and music.

### **AllShare**

You can play videos, music, and photos saved on your devices (such as your PC, mobile phones, or NAS) through a network connection.

### Playing multimedia files

You can use the USB connection to play various kinds of multimedia files (MP3, JPEG, DivX, etc.) downloaded from a USB storage device.

# Safety Information

### Warning

TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE THE COVER (OR BACK). NO USER-SERVICEABLE PARTS ARE INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL

### CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

The lighting flash and Arrowhead within the triangle is a warning sign alerting you of dangerous voltage inside the product.

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK) NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL. The explanation point within the triangle is a warning sign alerting you of important instructions accompanying the product.

#### WARNING

• To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

### FCC NOTE (for U.S.A)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- · Connect this equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- This class B digital product meets all requirements of the Canadian Interference -Causing Equipment Regulations.

### Note to CATV system installer

This reminder is provided to call CATV system. installer's attention to Article 820-40 of the National Electrical Code (Section 54 of Canadian Electrical Code, Part I) that provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building as close to the point of cable entry as practical.

### CLASS 1 LASER PRODUCT

This Compact Disc player is classified as a CLASS 1 LASER product. Use of controls, adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

Complies with 21CFR 1040.10 except for deviations pursuant to Laser Notice No. 50, dated June 24, 2007.

#### DANGER:

 VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN, AVOID DIRECT EXPOSURE TO BEAM. (FDA 21 CFR)

#### CAUTION:

- CLASS 3B VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN. AVOID EXPOSURE TO THE BEAM (IEC 60825-1)
- THIS PRODUCT UTILIZES A LASER, USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE, DO NOT OPEN COVER AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.

CLASS 1 LASER PRODUCT KLASSE 1 LASER PRODUKT **LUOKAN 1** LASER LAITE LASER APPARAT KLASS 1 PRODUCTO LÁSER CLASE 1

### NOTE

 If the Region number of a Blu-ray Disc/DVD disc does not correspond to the Region number of this player, the player cannot play the disc.

# Safety Information

### **Precautions**

### Important Safety Instructions

Read these operating instructions carefully before using the unit. Follow all the safety instructions listed below.

Keep these operating instructions handy for future reference.

- 1. Read these instructions.
- 2. Keep these instructions.
- 3. Heed all warnings.
- Follow all instructions.
- 5. Do not use this apparatus near water.
- 6. Clean only with a dry cloth.
- 7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including AV receivers) that produce heat.
- 9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10. Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11. Only use attachments/accessories specified by the manufacturer.
- 12. Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- 13. Unplug this apparatus during lightning storms or when unused for long periods of time.
- 14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

### Disc Storage & Management

### Disc Handling

### Disc Shape

· Use discs with regular shapes. If you use an irregular disc (a disc with a special shape), you can damage the player.

### Holding discs

· Avoid touching the surface of a disc where data has been recorded.

#### **Blu-ray Discs**

- Do not leave a Blu-ray Disc in the player for long periods of time. Remove the Blu-ray Disc from the player and store it in its case.
- Be careful not to scratch or leave fingerprints on the surface of the Blu-ray Disc.

### DVD-VIDEO, Audio CD (CD-DA)

• Wipe off dirt or contamination on the disc with a soft cloth.

### Disc Storage

Be careful not to damage the disc because the data on these discs is highly vulnerable to the environment.

- Do not keep under direct sunlight.
- Keep in a cool ventilated area.
- Store vertically.
- Keep in a clean protection jacket.
- If you move your player suddenly from a cold place to a warm place, condensation may occur on the operating parts and lens and cause abnormal disc playback. If this occurs, unplug the player, wait for two hours, and then connect the plug to the power outlet. Then, insert the disc, and try to play back again.

### **Handling Cautions**

- Do not write on the printed side with a ball-point pen or pencil.
- Do not use record cleaning sprays or antistatic sprays to clean discs. Also, do not use volatile chemicals, such as benzene or thinner.
- Do not apply labels or stickers to discs. (Do not use discs fixed with exposed tape adhesive or leftover peeled-off stickers.)
- Do not use scratch-proof protectors or covers.
- Do not use discs printed with label printers available on the market.
- Do not load warped or cracked discs.
- Before connecting other components to this player, be sure to turn them off.
- Do not move the player while it is playing a disc. The disc can be scratched or damaged and the player's internal parts can be damaged.
- Do not put a flower vase filled with water or any small metal objects on the player.
- Be careful not to put your hand into the disc
- Do not place anything other than the disc in the disc trav.
- Interference from exterior sources such as lightening and static electricity can affect the normal operation of this player. If this occurs, turn the player off and on again with the POWER button, or disconnect and then reconnect the AC power cord to the AC power outlet. The player will operate normally.

- Be sure to remove the disc and turn off the player after use.
- Disconnect the AC power cord from the AC outlet when you don't intend to use the player for long periods of time.
- To clean a disc, wipe it in a straight line from the inside to the outside of the disc.

- Do not expose the player to any
- When the AC plug is connected to a wall outlet, the player will still draw power (standby mode) when it is turned off.
- Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- The main plug is used as a disconnect device and shall stay readily operable at any time.

### Maintenance of Cabinet

Before you clean the Blu-ray's cabinet, be sure to disconnect the AC power cord from the AC outlet.

- Do not use benzene, thinner, or other solvents for cleaning.
- Wipe the cabinet with a soft cloth.

### Restrictions on Playback

restrictions.

- This player may not respond to all operating commands because some Blu-ray, DVD, and CD discs allow specific or limited operation and provide only certain features during playback. Please note that this is not a defect in the player.
- Samsung cannot guarantee that this player will play every disc bearing the Blu-ray Disc, DVD or CD logo because disc formats evolve, and problems and errors may occur during the creation of Blu-ray Disc, DVD, and CD software and/or the manufacture of discs. Please contact the SAMSUNG customer care center if you have questions or encounter difficulty in playing Blu-ray, DVD, or CD discs in this player. Also, refer to rest of this user manual for additional information on playback

Index Specifications

# Getting Started

### Before using the User Manual

### Disc Types and Contents your player can play

Content	Logo	Icon	Definition
	Blu-ray Olsc	BD-RE/-R	Indicates a function available on a BD-ROM or BD-RE/-R disc recorded in the BD-RE format.
VIDEO	RW RW RCO-MANUAL ROCAMANAL	DVO-WOED  OVO-WWAR	Indicates a function available on a DVD-VIDEO or recorded DVD+RW/DVD-RW(V)/DVD-R/+R discs that have been recorded and finalized.
	-	DivX/MKV/MP4	Indicates a function available in a CD-RW/-R, DVD-RW/-R, BD-RE/-R disc or a USB storage media containing DivX, MKV, MP4 contents.
MUSIC	DIGITAL AUDIO	Audio CD	Indicates a function available on an audio CD-RW/-R (CD-DA format).
IVIUSIU	-	MP3/WMA	Indicates a function available in a CD-RW/-R, DVD-RW/-R, BD-RE/-R disc or a USB storage media containing MP3 or WMA contents.
РНОТО	-	JPEG	Indicates a function available in a CD-RW/-R, DVD-RW/-R, BD-RE/-R disc or a USB storage media containing JPEG contents.

### **◎** NOTE

- The player may not play certain CD-RW/-R and DVD-R because of the disc type or recording conditions.
- If a DVD-RW/-R disc has not been recorded properly in DVD video format, it will not be playable.
- Your player will not play content that has been recorded on a DVD-R at a bit-rate that exceeds 10 Mbps.
- Your player will not play content that has been recorded on a BD-R or USB device at a bit rate that exceeds 30 Mbps.

### Disc types your player cannot play

- HD DVD
- DVD-ROM/PD/MV-Disc, etc
- DVD-RAM
- Super Audio CD (except CD layer)
- DVD-RW(VR mode)
- CVD/CD-ROM/CDV/ CD-G/CD-I/LD (CD-Gs play audio only, not graphics.)
- 3.9 GB DVD-R Disc for Authoring.

### NOTE

- Some commercial discs and DVD discs purchased outside your region may not play on this player.
- Playback may not work for some types of discs, or when you use specific operations, such as angle change and aspect ratio adjustment. Information about the discs is written in detail on the disc box. Please refer to this if necessary.
- Do not allow the disc to become dirty or scratched. Fingerprints, dirt, dust, scratches or deposits of cigarette smoke on the recording surface may make it impossible to use the disc for playback.
- Discs with PAL programs recorded on them cannot be played using this player.
- This player is compatible with the NTSC color system.
- When you play a BD-J title, loading may take longer than a normal title or some functions may perform
- This player may not respond to all operating commands because some Blu-ray, DVD, and CD discs allow specific or limited operation and provide only certain features during playback. Please note that this is not a defect in the player.
- Samsung cannot guarantee that this player will play every disc bearing the Blu-ray Disc. DVD or CD logo because disc formats evolve, and problems and errors may occur during the creation of Blu-ray Disc, DVD, and CD software and/or the manufacture of discs

Please contact the SAMSUNG customer care center. if you have questions or encounter difficulty when playing Blu-ray, DVD, or CD discs in this player. Also, refer to rest of this user manual for additional information on playback restrictions.

### Blu-ray Disc Compatibility

Blu-ray Disc is a new and evolving format. Accordingly, disc compatibility issues are possible. Not all discs are compatible and not every disc will play back. For additional information, refer to the Compliance and Compatibility Notice section of this user manual.

### **Disc Types**

#### **BD-ROM**

Blu-ray ROM discs can only be played back. This player can play back pre-recorded commercial BD-ROM discs.

### BD-RE/-R

Blu-ray RE/-R discs can be recorded on and played back.

This player can play back a BD-RE/-R disc recorded by other compatible Blu-ray disc recorders.

### DVD-VIDEO

- This player can play back pre-recorded commercial DVD discs (DVD-VIDEO discs) with movies.
- When switching from the first layer to the second layer of a dual-layered DVD-VIDEO disc. there may be momentary distortion in the image and sound. This is not a malfunction of the plaver.

#### DVD-RW/-R/+R

This player can play back a DVD-RW/-R/+R disc recorded and finalized with a DVD video recorder. The ability to play back may depend on recording conditions.

### DVD+RW

• This player can play back a DVD+RW disc recorded with a DVD Video recorder. The ability to play back may depend on recording conditions.

### Audio CD (CD-DA)

- This player can play back CD-DA format audio CD-RW/-R discs.
- The player may not be able to play some CD-RW/-R discs due to the condition of the recordina.

# Getting Started

### CD-RW/-R

- Use a 700MB (80 minute) CD-RW/-R disc. If possible, do not use an 800MB (90 minute) or larger disc, as the disc may not play back.
- If the CD-RW/-R disc was not recorded as a closed session, you may experience delays when playing back the beginning of the disc or all recorded files may not play.
- Some CD-RW/-R discs may not play on this player, depending on the device which was used to burn them. For contents recorded on CD-RW/-R media from CDs for your personal use, playability may vary depending on the contents and discs.

### AVCHD (Advanced Video Codec High Definition)

- This player can playback AVCHD format discs. These discs are normally recorded and used in camcorders.
- The AVCHD format is a high definition digital video camera format.
- The MPEG-4 AVC/H.264 format compresses images with greater efficiency than the conventional image compressing format.
- Some AVCHD discs use the "x.v.Color" format. This player can playback AVCHD discs that use "x.v.Color" format.
- "x.v.Color" is a trademark of Sony Corporation.
- "AVCHD" and the AVCHD logo are trademarks of Matsushita Electronic Industrial Co., Ltd. and Sony Corporation.

#### NOTE

- Some AVCHD format discs may not play, depending on the recording condition. AVCHD format discs need to be finalized.
- "x.v.Color" offers a wider color range than normal DVD camcorder discs.
- Some DivX. MKV and MP4 format discs may not play, depending on the video resolution and frame rate condition.

### **Region Code**

Both players and discs are coded by region. These regional codes must match for a disc to play. If the codes do not match, the disc will not

The Region Number for this player is displayed on the rear panel of the player.

Disc Type	Region Code	Area
		North America, Central America, South America, Korea, Japan, Taiwan, Hong Kong and South East Asia.
Blu-ray		Europe, Greenland, French territories, Middle East, Africa, Australia and New Zealand.
		India, China, Russia, Central and South Asia.
		The U.S., U.S. territories and Canada
	2	Europe, Japan, the Middle East, Egypt, South Africa, Greenland
	3	Taiwan, Korea, the Philippines, Indonesia, Hong Kong
DVD-VIDEO	4	Mexico, South America, Central America, Australia, New Zealand, Pacific Islands, Caribbean
	<b>(5)</b>	Russia, Eastern Europe, India, most of Africa, North Korea, Mongolia
	6	China

### Supported File Formats

### Notes on the USB connection

- Your player supports USB storage media, MP3 players, digital cameras, and USB card readers.
- The player does not support folder or file names longer than 128 characters.
- Some USB/digital camera devices may not be compatible with the player.
- Your player supports the FAT16, FAT32, and NTFS files systems.
- · Connect USB devices directly to the player's USB port. Connecting through a USB cable may cause compatibility problems.
- Inserting more than one memory device into a multi-card reader may cause the reader to operate improperly.
- The player does not support the PTP protocol.
- Do not disconnect a USB device during a "loading" process.
- The bigger the image resolution, the longer the image takes to display.
- This player cannot play MP3 files with DRM (Digital Rights Management) downloaded from commercial sites.
- External HDD device is not supported.
- Your player only supports the video that is under 30fps (frame rate).

# Getting Started

### Logos of Discs the player can play

Bluring Disc	Master Audio	DIVX.	BD LIVE
Blu-ray Disc	DTS-HD Master Audio	DivX	BD-LIVE
DOLBY.	NTSC	Ja Nove	Va"
Dolby TrueHD	NTSC broadcast system in U.S.A, Canada, Korea, Japan	Ja	va

### Accessories

Check for the supplied accessories below.

1	DISC TRAY	Opens to accept a disc.
2	REMOTE CONTROL SENSOR	Detects signals from the remote control.
3	DISPLAY	Displays the playing status, time, etc.
4	OPEN/CLOSE BUTTON	Opens and closes the disc tray.
5	STOP BUTTON	Stops disc playback.
6	PLAY/PAUSE BUTTON	Plays a disc or pauses playback.
7	POWER BUTTON	Turns the player on and off.
8	USB HOST	You can connect a USB memory flash stick here and use it as storage when the player is connected to BD-LIVE. You can also use the USB Host for software upgrades and MP3/JPEG/DivX/MKV/MP4 playback.

### **⊗** NOTE

- You can perform software upgrades using the USB Host jack with a USB memory flash stick only.
- When the player displays the Blu-ray disc menu, you cannot start the movie by pressing the Play button on the player or the remote. To play the movie, you must select Play Movie or Start in the disc menu, and then press the ENTER button.

# Getting Started

1	WIRELESS LAN ADAPTER	Connect the optional Wireless LAN Adapter (WISO9ABGN) here to use a Wireless network.
2	LAN	Use for network based services (See pages 49~58), BD-LIVE, and software upgrades using a network connection.
3	HDMI OUT	Using an HDMI cable, connect this HDMI output terminal to the HDMI input terminal on your TV for the best quality picture or to your AV receiver for the best quality sound.
4	VIDEO OUT	Connects to the video input of external devices using a video cable.
5	AUDIO OUT	Connects to the audio input of external devices using audio cables.
6	DIGITAL AUDIO OUT	Connects to a AV receiver.

### **Remote Control**

### Tour of the Remote Control

### Installing batteries

#### NOTE

- If the remote does not operate properly:
  - Check the polarity +/- of the batteries.
  - Check if the batteries are drained.
  - · Check if the remote sensor is blocked by obstacles.
  - · Check if there is any fluorescent lighting nearby.

### Connections

### Connecting to a TV

### Case 1: Connecting to a TV with an HDMI Cable - Best Quality (Recommended)

- 1. Using an HDMI cable, connect the HDMI OUT terminal on the rear of the player to the HDMI IN terminal of your TV.
- 2. Turn on the player and TV.
- 3. Press the input selector on your TV remote control until the HDMI signal from the player appears on your TV screen.

### **◎** NOTE

- An HDMI cable outputs digital video/audio, so you don't need to connect an audio cable.
- If the player is connected to your TV in the HDMI 720p, 1080i, or 1080p output mode, you must use a High speed (category 2) HDMI cable.
- HDMI outputs only a pure digital signal to the TV. If your TV does not support HDCP (High-bandwidth Digital Content Protection), random noise appears on the screen.
- Depending on your TV, certain HDMI output resolutions may not work. Please refer to the user manual of your TV.
- When you connect the player to the TV using the HDMI cable for the first time or to a new TV, the HDMI output resolution will be automatically set to the highest supported by the TV.
- A long HDMI cable may cause a screen noise. If this occurs, set Deep Color to Off in the menu.

### Case 2: Connecting to a TV with an HDMI-DVI Cable - Best Quality (Also recommended)

- 1. Using an HDMI-DVI cable, connect the HDMI OUT terminal on the rear of the player to the DVI IN terminal of your TV.
- 2. Using the audio cables, connect the AUDIO OUT (red and white) terminals on the rear of the player to the AUDIO IN (red and white) terminals of your TV.
- 3. Turn on the player and TV.
- 4. Press the input selector on your TV remote control until the HDMI-DVI signal from the player appears on your TV screen.

#### **◎** NOTE

- HDMI outputs only a pure digital signal to the TV. If your TV does not support HDCP (High-bandwidth Digital Content Protection), random noise appears on the screen.
- Depending on your TV, certain HDMI output resolutions may not work. Please refer to the user manual of your TV.
- When you connect the player to a TV using the HDMI-DVI cable for the first time, the HDMI output resolution will be automatically set to the highest supported by the TV.
- If both HDMI and Video out are connected at the same time, only the HDMI signal is outputed.

### Connections

### Case 3: Connecting to a TV with an Audio/Video cable - Good Quality

- 1. Using an Audio/Video cable, connect the VIDEO OUT (yellow) / AUDIO OUT (red and white) terminals on the rear of the player to the VIDEO IN (yellow) / AUDIO IN (red and white) terminals of vour TV.
- 2. Turn on the player and TV.
- 3. Press the input selector on your TV remote control until the "VIDEO" signal from the player appears on the TV screen.

#### NOTE

- Noise may be generated if the audio cable is placed too close to the power cable.
- If you want to connect to an AV receiver, please refer to the AV receiver connection pages. (See pages 21~22)
- The number and position of the input terminals may vary depending on your TV set. Please refer to the user manual of
- If there is only one audio input terminal on the TV, connect it to the AUDIO OUT (right/white) terminal of the player.

#### ! CAUTION

 Do not connect the player to your TV through a VCR. Video signals fed through VCRs may be affected by copyright protection systems and the picture will be distorted on the television.

### Connecting to an Audio System

- Please turn the volume down when you turn on the AV receiver. A sudden loud sound may cause damage to the speakers and your ears.
- Please set the audio format according to the capabilities of your AV receiver. (See pages 29~31)
- The position of HDMI input terminals may vary depending on your AV receiver. Please refer to the user manual of your AV receiver.

### Case 1: Connecting to an Audio System (HDMI supported AV receiver) - Best Quality (Recommended)

- 1. Using an HDMI cable, connect the HDMI OUT terminal on the rear of the player to the HDMI IN terminal of your AV receiver.
- 2. Using an HDMI cable, connect the HDMI OUT terminal of the AV receiver to the HDMI IN terminal of your TV.
- 3. Turn on the player, TV, and AV receiver.
- 4. Press the input select button of the AV receiver to select the external input to hear sound from the player. Refer to your AV receiver's user manual to set the AV receiver's audio input.

### Connections

### Case 2: Connecting to an Audio System (AV receiver with Dolby Digital or DTS decoder) - Better Quality

- 1. Using an optical cable, connect the DIGITAL AUDIO OUT (OPTICAL) terminal on the rear of the player to the DIGITAL AUDIO IN (OPTICAL) terminal of your AV receiver.
- 2. Using the video signal cable(s), connect the HDMI or VIDEO OUT terminals on the rear of the player to the HDMI or VIDEO IN terminal of your TV. (See pages 18~20)
- 3. Turn on the player, TV, and AV receiver.
- 4. Press the input select button of the AV receiver to select the external input and hear sound from the player. Refer to your AV receiver's user manual to set the AV receiver's audio
- 5. Press the input selector on your TV remote control to select the video source (HDMI or Video.)

### Case 3: Connecting to an Audio System (2 Channel Amplifier)

- Good Quality
- Using the audio cables, connect the AUDIO OUT (red and white) terminals on the rear of the player to the AUDIO IN (red and white) terminals of your 2 Channel Amplifier.
- 2. Using the video signal cable(s), connect the **HDMI** or **VIDEO OUT** terminals on the rear of the player to the **HDMI** or **VIDEO IN** terminal of your TV. (See pages 18~20)
- 3. Turn on the player, TV and 2 Channel Amplifier
- 4. Press the input select button of the 2 Channel Amplifier to select the external input in order to hear sound from the player. Refer to your 2 Channel Amplifiers user manual to set the 2 Channel Amplifier's audio input.
- 5. Press the input selector on your TV remote control to select the video source (HDMI or Video.)

#### NOTE

 If you use the Digital Audio connection described in Case 2, you will hear discs with PCM audio soundtracks only through the front two speakers.

### **Connecting to the Network**

This player lets you use network based services (See pages 49~58) such as Smart Hub and BD-LIVE, and download software upgrades when it is connected to a network. We recommend using an AP (Access Point) or IP router for the connection. For more information on router connections, refer to the user manual of the router or contact the router manufacturer for technical assistance.

#### Cable Network

- 1. Using the Direct LAN Cable (UTP cable), connect the LAN terminal of the player to the LAN terminal of your modem or router.
- 2. Set the network options. See pages 32~35

Networking with PC for AllShare function

#### **◎** NOTE

- Internet access to Samsung's software update server may not be allowed, depending on the router you use or your ISP's policy. For more information, contact your ISP (Internet Service Provider).
- For DSL users, please use a router to make a network connection.

### Connections

### Wireless Network

You can connect to network with a Wireless IP sharer (a router or a modem).

- A wireless AP/IP router and the Samsung Wireless LAN Adapter is required to make a wireless network connection. Connect the Wireless LAN adapter (not included) to the Wireless LAN Adapter jack on the rear panel of the player. See the diagram below.
- 2. To Set the network options. See pages 32~35.

### **⊗** NOTE

- Use only the Samsung wireless LAN adapter with this player. (Model name: WIS09ABGN).
   Do not use this wireless adapter with any third-party players.
   To purchase the Samsung wireless LAN adapter, visit your Samsung retailer.
- You must use a wireless IP sharer that supports IEEE 802.11 a/b/g/n. (n is recommended for stable operation of the wireless network.)
- Wireless LAN, by its nature, may cause interference, depending on the operating conditions (AP performance, distance, obstacles, interference by other radio devices, etc).
- Set the wireless IP sharer to Infrastructure mode. Ad-hoc mode is not supported.
- The player supports only the following wireless security key protocols:
   WEP(OPEN/SHARED), WPA-PSK(TKIP/AES), WPA2-PSK(TKIP/AES)
- Due to changes in WiFi policy, this player cannot support the TKIP encryption method in the 802.11n mode.

# Setup

### **Initial Settings**

1. Turn on your TV after connecting the player. When you connect the player to a TV for the first time, player turns on automatically and the Initial Settings screen appears.

- 2. Press the ▲▼◀▶ buttons to select the desired language, and then press the ENTER button.
- 3. Press the ENTER button to select Start.
- 4. Press the ▲▼ buttons to select the desired TV Aspect Ratio, and then press the ENTER button. (See page 27)
- Press the ▲▼ buttons to select the desired Network Settings: Wired, Wireless (General), WPS(PBC) or One Foot Connection, and then press the ENTER button. If you do not know the details of your Network Settings, press the BLUE (D) button on your remote instead to skip Network Settings here, finish the Initial Settings, and go to the Home menu. If you selected a Network Setting, go to pages 32~35 for more information about the Network settings. When done, go to Step 6.
- 6. The Home menu appears. (For more information about the Home menu, please see page 26.)

#### Home Menu

### NOTE

- When the player is connected to the TV for the first time, the player turns on automatically. This is not malfunction.
- The Home menu will not appear if you do not configure the initial settings except as noted below.
- If you press the BLUE (D) button during the network setup, you can access the Home menu even if the network setup is not completed vet.
- If you want to display the Initial Setting screen again to make changes, select the Reset option. (See page 36)
- If you use an HDMI cable to connect the player to an Anynet+(HDMI-CEC)-compliant Samsung TV and 1.) You have set the Anynet+(HDMI-CEC) feature to **On** in both the TV and the player and 2.) You have set the TV to a language supported by the player, the player will select that language as the preferred language automatically.
- If you leave the player in the stop mode for more than 5 minutes without using it, a screen saver will appear on your TV. If the player is left in the screen saver mode for more than 20 minutes, the power will automatically turn off.

# Setup

### **Accessing the Settings Menu**

- O MENU Button · Press to move to the Home menu
- 2 **RETURN** Button: Return to the previous menu.

#### **ENTER / DIRECTION Button:**

- Move the cursor or select an item. 8 Activate the currently selected item. Confirm a setting.
- 4 **EXIT** Button: Press to exit the current menu.

To access the Settings menu and sub-menus, follow these steps:

- 1. Press the POWER button. The Home Menu appears.
- Home Menu

- O Selects My Devices.
- Selects My Contents. 2
- 6 Selects Internet.
- 4 Selects Settings.
- 6 Displays the buttons available.

- 2. Press the ◀▶ buttons to select **Settings**, and then press the **ENTER** button.
- 3. Press the ▲▼ buttons to select the desired submenu, and then press the ENTER button.
- 4. Press the ▲▼ buttons to select the desired item, and then press the ENTER button.
- 5. Press the **EXIT** button to exit the menu.

#### NOTE

- When the player is connected to a network, select Smart Hub from the Home menu. Download the desired content from **Samsung Apps**. (See pages 56~57)
- The access steps may differ depending on the menu vou selected.
- The OSD (On Screen Display) may change in this player after you upgrade the software version.

### **Display**

You can configure various display options such as the TV Aspect Ratio, Resolution, etc.

### TV Aspect

Depending on the type of television you have, you may want to adjust the screen size setting.

- 16:9 Original: Select when you connect the player to a 16:9 TV screen. The player will display all content in its original aspect ratio. Content formatted in 4:3 will be displayed with black bars on the left and right.
- 16:9 Full: Select when you connect the player to a 16:9 TV screen. All content will fill the full screen. Content formatted in 4:3 will be stretched.
- 4:3 Letter Box : Select when you connect the player to a 4:3 TV screen. The player will display all content in its original aspect ratio. Content formatted in 16:9 will be displayed with black bars on the top and bottom.
- 4:3 Pan-Scan : Select when you connect the player to a 4:3 TV screen. 16:9 content will have the extreme left and right portions cut off.

### NOTE

- Depending on the disc type, some aspect ratios may not be available.
- If you select an aspect ratio and option which is different than the aspect ratio of your TV screen. then the picture might appear to be distorted.
- If you select the 16:9 Original, your TV may display 4:3 Pillarbox (black bars on sides of picture).

### Smart Hub Screen Size

Set the Smart Hub Screen to the optimal size.

- Size 1 : Smart Hub screen size will be smaller than default. You may see some black on sides
- Size 2: This is the default setting for Smart Hub. The player displays the normal Smart Hub screen size.
- Size 3: This will display a larger Smart Hub screen size. The image may be too large for vour TV screen.

### BD Wise (Samsung Players only)

BD Wise is Samsung's latest inter-connectivity feature.

When you connect a Samsung player and a Samsung TV with BD Wise to each other via HDMI, and BD Wise is on in both the player and TV. the player outputs video at the video resolution and frame rate of the BD/DVD disc.

- Off: The output resolution stays fixed at the resolution you set previously in the Resolution menu, regardless of the resolution of the disc. See Resolution below.
- On: The player outputs video at the original resolution and frame rate of the BD/DVD disc.

### NOTE

- When BD Wise is on, the Resolution setting automatically defaults to BD Wise and BD Wise appears in the Resolution menu.
- If the player is connected to a device that does not support BD Wise, you can not use the BD Wise function.
- For proper operation of BD Wise, set the BD Wise menu of both the player and the TV to **On**.

#### Resolution

Lets you set the output resolution of the HDMI video signal to Auto, 1080p, 1080i, 720p, 480p or 480i. The number indicates the number of lines of video per frame. The i and p indicate interlaced and progressive scan, respectively. The more lines, the higher the quality.

- Auto: Automatically sets the output resolution to the connected TV's maximum resolution.
- BD Wise: Automatically sets the resolution to the resolution of the BD/DVD disc if you have connected the player via HDMI to a TV with the BD Wise feature. (The BD Wise menu item appears only if BD Wise is set to On. See BD Wise above.)
- 1080p: Outputs 1080 lines of progressive video.
- 1080i: Outputs 1080 lines of interlaced video.
- 720p: Outputs 720 lines of progressive video.
- 480p: Outputs 480 lines of progressive video.
- 480i: Outputs 480 lines of interlaced video.

# Setup

### Resolution according to the output mode

### • Blu-ray Disc/E-contents/Digital Contents playback

	HDMI /	HDMI / not connected	
Setup	HDM	VIDEO Mode	
	Blu-ray Disc	E-contents/Digital contents	VIDEO Mode
BD Wise	Resolution of Blu-ray Disc	1080p@60F	-
Auto	Max. Resolution of TV input	Max. Resolution of TV input	-
1080p@60F	1080p@60F	1080p@60F	-
Movie Frame : Auto (24Fs)	1080p@24F	1080p@24F 1080p@24F	
1080i	1080i	1080i	480i
720p	720p 720p 720p		480i
480p	480р	480p	480i
480i	-	-	480i

#### DVD playback

Output	HDMI / connected	HDMI / not connected	
Setup	HDMI Mode	VIDEO Mode	
BD Wise	480i	-	
Auto	Max. Resolution of TV input	-	
1080p@60F	1080p@60F	-	
1080i	1080i	480i	
720p	720p	480i	
480p	480p	480i	
480i	-	480i	

### ⊗ NOTE

- . If the TV you connected to the player does not support Movie Frame or the resolution you selected, the message "If no pictures are shown after the selection, please wait for 15 seconds. And then, the resolution will be reverted to the previous value automatically. Would you like to make a selection?"
  - If you select Yes, the TV's screen will go blank for 15 seconds, and then the resolution will revert to the previous resolution automatically.
- If the screen stays blank after you have changed the resolution, remove all discs, and then press and hold the STOP ( ) button on the front of the player for more than 5 seconds. All settings are restored to the factory default. Follow the steps on the previous page to access each mode and select the Display Setup that your TV will support.
- When the factory default settings are restored, all stored user BD data is deleted.
- . The Blu-ray Disc must have the 24 frame feature for the player to use the Movie Frame (24Fs) mode.

### **HDMI Color Format**

Lets you set the color space format for HDMI output to match the capabilities of the connected device (TV, monitor, etc).

- Auto: Automatically sets the player to the optimum format supported by your device.
- YCbCr (4:4:4): If your TV supports the YCbCr color space via HDMI, select this to output the normal YCbCr color gamut.
- RGB (Standard): Select to output the normal RGB color gamut.
- RGB (Enhanced) : If you have connected the player to a DVI display device such as a monitor. select this to output the enhanced RGB color gamut.

### Movie Frame (24Fs)

Setting the Movie Frame (24Fs) feature to **Auto** allows you to adjust the player's HDMI output to 24 frames per second for improved picture quality. You can enjoy the Movie Frame (24Fs) feature only on a TV supporting this frame rate. You can select Movie Frame only when the player is in the HDMI 1080i or 1080p output resolution modes.

- Auto: Movie Frame (24Fs) functions work.
- Off: Movie Frame (24Fs) functions are off.

### **HDMI Deep Color**

Lets you output video from the HDMI OUT jack with Deep Color, Deep Color provides more accurate color reproduction with greater color depth.

- Auto: The player outputs video with Deep Color to a connected TV which supports HDMI Deep
- Off: The picture is output without Deep Color.

### Still Mode

Lets you set the type of picture the player displays when you pause DVD playback.

- Auto: Automatically shows the best still picture depending on the content.
- Frame: Select when pausing a scene with a little action.
- Field: Select when pausing a scene with a lot of action.

### **Progressive Mode**

Lets you improve picture quality when viewing DVDs.

- Auto : Select to have the player automatically select the best picture quality for the DVD you're watching.
- Video: Select for the best picture quality from concert or TV show DVDs.

#### Audio

### **Digital Output**

You set the Digital Output to match the capabilities of the AV receiver you've connected to the player:

- PCM : Choose if you have connected an HDMI supported AV receiver.
- Bitstream (Unprocessed) : Select if you have connected an HDMI supported AV receiver with Dolby TrueHD and DTS-HD Master Audio decoding capabilities.
- Bitstream (Re-encoded DTS): Choose if you have connected an AV receiver using a Digital Optical input that can decode DTS.
- Bitstream (Re-encoded Dolby D): Select if you don't have an HDMI supported AV receiver, but have a AV receiver with Dolby Digital decoding capabilities.

For more details, please refer to the digital output selection table. (See page 30)

# Setup

### **Digital Output Selection**

Setup		PCI	PCM Bitstream (Unprocessed)			Bitstream (Re-encoded DTS)	Bitstream (Re-encoded Dolby D)
Connection		HDMI supported AV receiver	Optical	HDMI supported AV receiver	Optical	HDMI supported AV receiver or Optical	HDMI supported AV receiver or Optical
	PCM	Up to 7.1ch	PCM 2ch	PCM	PCM 2ch	DTS re-encoded	Re-encoded Dolby Digital *
	Dolby Digital	PCM 2ch	PCM 2ch	Dolby Digital	Dolby Digital	DTS re-encoded	Re-encoded Dolby Digital *

Audio Stream on Blu-ray Disc	Dolby TrueHD	PCM 2ch	PCM 2ch	Dolby TrueHD	Dolby Digital	DTS re-encoded	Re-encoded Dolby Digital *
Dioc	DTS	PCM 2ch	PCM 2ch	DTS	DTS	DTS re-encoded	Re-encoded Dolby Digital *
	DTS-HD HRA	PCM 2ch	PCM 2ch	DTS-HD HRA	DTS	DTS re-encoded	Re-encoded Dolby Digital *
	DTS-HD MA	PCM 2ch	PCM 2ch	DTS-HD MA	DTS	DTS re-encoded	Re-encoded Dolby Digital *
A. alia Obsession	PCM	PCM 2ch	PCM 2ch	PCM 2ch	PCM 2ch	PCM 2ch	PCM 2ch
Audio Stream on DVD	Dolby Digital	PCM 2ch	PCM 2ch	Dolby Digital	Dolby Digital	Dolby Digital	Dolby Digital
011 5 4 5	DTS	PCM 2ch	PCM 2ch	DTS	DTS	DTS	DTS
Definition for Blu-ray Disc	Any	audio and Bo audio strear into PCM aud	audio and BONUSVIEW audio stream together audio PCM audio and adds avigation Sound Effects.		Outputs only the main feature audio stream so that your AV receiver can decode the audio bitstream. You will not hear BONUSVIEW audio or Navigation Sound Effects.		Decodes the main feature audio and BONUSVIEW audio stream together into PCM audio and adds Navigation Sound Effects, then re-encodes the PCM audio into Dolby digital bitstream or PCM.

<sup>\*</sup> If the Source Stream is 2ch, "Re-encoded Dolby D" Setting are not applied. Output will be LPCM 2ch.

Blu-ray Discs may include three audio streams:

- Main Feature Audio: The audio soundtrack of the main feature.
- BONUSVIEW audio: An additional soundtrack such as the director or actor's commentary.
- Navigation Sound Effects : When you choose some menu navigation, Navigation Sound Effects may sound. Navigation Sound Effects are different on each Blu-ray Disc.

#### NOTE

- Be sure to select the correct Digital Output or you will hear no sound or just loud noise.
- If the HDMI device (AV receiver, TV) is not compatible with compressed formats (Dolby digital, DTS), the audio signal outputs as PCM.
- Regular DVDs do not have BONUSVIEW audio and Navigation Sound Effects.
- Some Blu-ray Discs do not have BONUSVIEW audio and Navigation Sound Effects.
- This Digital Output setup does not effect the analog (L/R) audio or HDMI audio output to your TV. It effects the optical and HDMI audio output when your player is connected to a AV receiver.
- If you play MPEG audio soundtracks, the audio signal outputs as PCM regardless of your Digital Output selections (PCM or Bitstream).

### PCM Downsampling

Lets you set 48kHz and 96kHz PCM downsampling on or off.

- Off: Select when the AV receiver connected to the player is 96kHz compatible.
- On: Select when the AV receiver connected to the player is not 96kHz compatible. 96kHz signals will be down converted to 48kHz.

 Even when PCM Downsampling is set to Off, some discs will only output downsampled audio through the optical digital outputs.

### **HDMI**

- If your TV is not compatible with compressed multi-channel formats (Dolby Digital, DTS), the player may output PCM 2ch downmixed audio even though you selected Bitstream (either Reencoded or Unprocessed) in the setup menu.
- If your TV is not compatible with PCM sampling rates over 48kHz, the player may output 48kHz downsampled PCM audio even though you set PCM Downsampling to Off.

### **Dynamic Range Control**

You can listen at low volumes, but still hear dialog clearly.

This is only active if your player detects a Dolby Digital signal.

- Auto: The Dynamic Range Control will be set automatically based on the information provided by the Dolby TrueHD Soundtrack.
- Off: You can enjoy the movie with the standard Dvnamic Range.
- On: When Movie soundtracks are played at low volume or through smaller speakers, the system can apply appropriate compression to make low-level content more intelligible and prevent dramatic passages from getting too loud.

### **Downmixing Mode**

Lets you select how the player will downmix multichannel audio into fewer channels.

- Normal Stereo: Downmixes the multi-channel audio into two channel stereo. Choose when connected to equipment that does not support virtual surround functions such as Dolby Pro Logic.
- Surround Compatible : Downmixes multichannel audio into surround compatible stereo. Choose when connected to equipment that supports virtual surround functions such as Dolby Pro Logic.

# Setup

#### **Network**

Before you begin, contact your ISP to find out if your IP address is static or dynamic. If it is dynamic, and you are using a wired or wireless connection, we recommend using the Auto procedures. If you are using a wireless connection and your router has the capability, you can use WPS(PBC) or One Foot Connection.

If your IP address is static, you must use the manual set up procedure for both wired and wireless connections

### **Network Settings**

To begin setting up the network connection for your player, follow these steps:

- 1. In the Home menu, press the ◀▶ buttons to select the Settings, and then press the **ENTER** button.
- 2. Press the ▲▼ buttons to select Network, and then press the ENTER button.
- 3. Press the ▲▼ buttons to select Network **Settings**, and then press the **ENTER** button.
- 4. Press the ▲▼ buttons to select Wired. Wireless (general), WPS(PBC) or One Foot Connection, and then press the ENTER button.
- 5. If you have a wired network, go to Wired Network below. If you have a wireless network, go to Wireless Network on pages 33~35.

#### Wired Network

### Setting Up a Wired Connection - Auto

Press the ▲▼ buttons to select Wired.

2 Press the **FNTFR** button The Network Status screen appears. The player connects to the network after the network connection is verified.

#### Setting Up a Wired Connection - Manual

If you have a static IP address or the Auto Setting does not work, you'll need to set the Network Settings values manually.

To view your Network Settings values on most Windows computers, follow these steps:

- Right click the Network icon on the bottom right of the Windows desktop.
- 2. In the pop-up menu, click Status.
- 3. On the dialog that appears, click the Support
- **4.** On the Support tab, click the Details button. The Network settings are displayed.

To enter the Network settings into your player. follow these steps:

- 1. Press the ▲▼ buttons to select Wired, and then press the ENTER button.
- Press the ◀▶ buttons to select IP Settings. and then press the ENTER button.

- 3. Press the ENTER button to select IP Mode.
- 4. Press the ▲▼ buttons to select Manual, and then press the ENTER button.
- 5. Press the ▼ button to go to the first entry field (IP Address).
- 6. Use the number buttons on your remote to enter numbers.
- 7. When done with each field, press the button to move successively to the next field. You can also use the other arrow buttons to move up, down, and back.

- 8. Enter the IP Address, Subnet Mask, and Gateway values.
- 9. Press the ▼ button to go to DNS Mode.
- 10. Press the ▼ button to go to the first DNS entry field. Enter the numbers as above.
- 11. Press the ENTER button to select OK. The Network Status screen appears. The player connects to the network after the network connection is verified

#### Wireless Network

You can setup a wireless network three ways:

- Wireless (General)
- Using WPS(PBC).
- One Foot Connection

Wireless (General) includes both Automatic and Manual setup procedures.

### **Setting Up the Wireless Network Connection** - Auto

Most wireless networks have an optional security system that requires devices that access the network to transmit an encrypted security code called an Access or Security Key. The Security Key is based on a Pass Phrase, typically a word or a series of letters and numbers of a specified length you were asked to enter when you set up security for your wireless network. If you use this method of setting up the network connection, and have a Security Key for your wireless network, you will have to enter the Pass Phrase during the Auto setup process.

1. Press the ▲▼ buttons to select Wireless (general).

Press the ENTER button. When done, it displays a list of the available networks.

- Press the ▲▼ buttons to select the desired. network, and then press the ENTER button. The Security screen appears.
- On the Security screen, enter your network's Pass Phrase. Enter numbers directly using your remote control.

To select a letter, press the ▲▼◀▶ buttons to move the cursor, then press the **ENTER** button.

### NOTE

- You should be able to find the Pass Phrase on one of the set up screens you used to set up your router or modem.
- 5. When done, press the ▲▼◀▶ buttons to move the cursor to **Done**, and then press the **ENTER** button.

The Network Status screen appears. The player connects to the network after the network connection is verified

### Setting Up the Wireless Network Connection - Manual

If the Auto Setting does not work, you need to enter the Network setting values manually.

To view the Network Settings values on most Windows computers, follow these steps:

- 1. Right click the Network icon on the bottom right of the screen.
- 2. In the pop-up menu, click Status.
- 3. On the dialog that appears, click the Support tab.
- 4. On the Support tab, click the Details button. The Network settings are displayed.

# Setup

To enter the Network settings into your player, follow these steps:

- 1. Follow Steps 1 through 5 in the 'Setting Up the Wireless Network Connection - Auto' procedure.
- 2. When done, press the ▲▼◀▶ buttons to move the cursor to Done, and then press the **ENTER** button. The Network Status screen appears.

- 3. On the Network Status screen, select Cancel. and then press Enter.
- 4. Press the ◀▶ buttons to select IP Settings, and then press the ENTER button.
- 5. Press the ENTER button to select IP Mode.
- 6. Press the ▲▼ buttons to select Manual, and then press the ENTER button.
- 7. Press the ▼ button to go to the first entry field (IP Address).
- 8. Use the number buttons to enter numbers.
- 9. When done with each field, press the ▶ button to move successively to the next field. You can also use the other arrow buttons to move up. down, and back.
- 10. Enter the IP Address, Subnet Mask, and Gateway values.
- 11. Press the ▼ to go to DNS Mode.
- 12. Press the ▼ button to go to the first DNS entry field. Enter the numbers as above.
- 13. The Network Status screen appears. The player connects to the network after the network connection is verified.

### WPS(PBC)

The easiest way to set up the wireless network connection is using the WPS(PBC) function or the One Foot Connection function.

If your wireless router has a WPS(PBC) button. follow these steps:

Press the ▲▼ buttons to select WPS(PBC).

- 2. Press the ENTER button.
- 3. Press the WPS(PBC) button on your router within two minutes. Your player displays the Network Selection Screen, and automatically acquires all the network settings values it needs and connects to your network. When it is done, it displays an **OK** button. Press the **ENTER** button on your remote.

#### One Foot Connection

You can set up the wireless connection automatically if you have a Samsung Wireless Router which supports One Foot Connection. To connect using the One Foot Connection function, follow these steps:

 Press the ▲▼ buttons to select One Foot. Connection.

- 2 Press the **FNTFR** button
- 3. Place the Samsung Wireless Router within 25 cm (10 inches) of your player to connect.
- 4. Wait until the connection is automatically established.

### **Network Status**

Check whether a connection to the network and the Internet have been established

### **BD-LIVE Internet Connection**

Set to allow or prohibit an Internet connection when you use the BD-LIVE service.

- Allow (All): The Internet connection is allowed for all BD-LIVE contents.
- Allow (Valid Only): The Internet connection is allowed only for BD-LIVE contents containing a valid certificate.
- Prohibit: No Internet connection is allowed for any BD-LIVE content.

What is a valid certificate?

When the player uses BD-LIVE to send the disc data and a request to the server to certify the disc, the server uses the transmitted data to check if the disc is valid and sends the certificate back to the player.

 The Internet connection may be restricted while you are using BD-LIVE contents.

### **System**

### **Initial Settings**

By using the Initial Settings function, you can set the language, Network Settings, etc. For more information about the Initial Settings function, refer to the Initial Settings section of this user manual.

(See pages 25~39)

### Anynet+(HDMI-CEC)

Anynet+ is a convenient function that offers linked operations with other Samsung players that have the Anynet+ feature.

To operate this function, connect this player to a Samsung TV with an HDMI cable.

With Anynet+ on, you can operate this player using a Samsung TV remote control and start disc playback simply by pressing the PLAY ( ) button on the TV's remote control.

For more information, please see the TV user

- Off: Anynet+ functions will not work.
- On: Anvnet+ functions will work.

### NOTE

- This function is not available if the HDMI cable does not support CEC.
- If your Samsung TV has an Anynet+ logo, then it supports the Anynet+ function.
- Depending on your TV, certain HDMI output resolutions may not work. Please refer to the user manual of your TV.

### **BD Data Management**

Enables you to manage the downloaded contents you accessed through a Blu-ray disc that supports the BD-LIVE service and stored on a flash drive.

You can check the device's information including the storage size, delete the BD data, or change the Flash memory device.

# Setup

### **BD Data Management Screen Information:**

- Total Size: Total memory size of the device.
- Available Size : Available memory in the device.

### NOTE

- In the external memory mode, disc playback may be stopped if you disconnect the USB device in the middle of playback.
- Only those USB devices formatted in FAT file system (DOS 8.3 volume label) are supported. We recommend you use USB devices that support USB 2.0 protocol with 4 MB/sec or faster read/write
- The Resume Play function may not work after you format the storage device.
- · The total memory available to BD Data Management may differ, depending on the conditions.

### Time Zone

You can specify the time zone that is applicable to your area.

### DivX® Video On Demand

View DivX® VOD Registration Codes to purchase and play DivX® VOD contents.

#### Reset

All settings will revert to the default except for the network and Smart Hub settings.

### Language

You can select the language you prefer for the Home menu, disc menu, etc.

- On-Screen Menu: Select the language for the on-screen displays.
- Disc Menu: Select the language for the disc menu displays.
- Audio: Select the language for disc audio.
- Subtitle: Select the language for disc subtitles.

 The selected language will only appear if it is supported on the disc.

### Security

This function works in conjunction with Blu-ray and DVD discs that have been assigned an age rating or numeric rating that indicates the maturity level of the content. These numbers help you control the types of Blu-ray and/DVD discs that your family can watch.

When you access this function for the first time, the password setup screen appears. Enter a desired 4-digit password using the number buttons. (The default password is 0000.)

After you have set your password, select an age rating you want to set for the BD Parental Rating and a rating level you want to set for the DVD Parental Rating. The player will only play Blu-ray discs rated at or below the age rating and DVD discs rated below the numeric rating unless the password is entered.

Larger numbers indicate more mature content.

### **BD** Parental Rating

Restrict playback of Blu-ray discs with specific age ratings unless a password is entered.

### DVD Parental Rating

Restrict playback of DVD discs with specific ratings unless a password is entered.

# Change Password

Change the 4-digit password used to access security functions.

#### If you forgot your password

- 1. Remove the disc.
- 2. Press and hold the STOP ( ) button on the front panel for 5 seconds or more. All settings will revert to the factory settings.

 When the factory default settings are restored, all the user stored BD data will be deleted.

#### General

# Front Display

Change the brightness of the front panel.

- Auto : Dim during playback. • Dim: Dim the display window.
- Bright: Brighten the display window.

#### Network Remote Control

The Network Remote Control function lets you control your Blu-ray Disc player from a remote device such as a smart phone through a wireless connection to your local area network.

To use the Network Remote Control function, follow these steps:

- 1. Select On in the Network Remote Control menu.
- 2. Install the Samsung network remote control application to control your player on your compatible portable device.
- 3. Make sure your portable device and your player are connected to the same wireless
- 4. Start the application on your portable device. The application should find your player and display it on a list.

- 5. Select the player.
- 6. If this is the first time you are using the function, it will ask you to allow or deny remote control of the player. Select Allow.
- Follow the instructions that came with the application to control the player.

## Support

# Software Upgrade

The Software Upgrade menu allows you to upgrade the player's software for performance improvements or additional services. You can upgrade in four ways:

- By Internet
- By USB
- Bv Disc
- By Downloaded (File)

The four methods are explained below.

#### **Bv Internet**

To upgrade by Internet, follow these steps:

- 1. Select By Internet, and then press the **ENTER** button. The Connecting to Server message appears.
- 2. If there is a download available, the Download pop-up appears with a progress bar and the download starts.
- 3. When the download is complete, the Upgrade Query window appears with three choices: Upgrade Now, Upgrade Later, or Don't Upgrade.
- 4. If you select Upgrade Now, the player upgrades the software, turns off, and then turns on automatically.
- 5. If you do not make a selection in one minute or select Upgrade Later, the player stores the new upgrade software. You can upgrade the software later using the By Downloaded function.
- 6. If you select Don't Upgrade, the player cancels the upgrade.

# Setup

#### NOTE

- Your player must be connected to the Internet to use the By Internet function.
- The upgrade is complete when the player turns off. and then turns on again by itself.
- Never turn the player off or back on manually during the update process.
- Samsung Electronics shall take no legal responsibility for player malfunction caused by an unstable Internet connection or consumer negligence during a software upgrade.
- If you want to cancel the upgrade while the upgrade software is downloading, press the **ENTER** button.

#### By USB

To upgrade by USB, follow these steps:

- 1. Visit www.samsung.com/bluraysupport
- 2. Download the latest USB software upgrade zip archive to your computer.
- 3. Unzip the zip archive to your computer. You should have a single folder with the same name as the zip file.
- 4. Copy the folder to a USB flash drive.
- 5. Make sure the disc tray is empty, and then insert the USB flash drive into the USB port of the player.
- 6. In the player's menu, go to Settings > Support > Software Upgrade.
- 7. Select By USB.

#### NOTE

- The disc tray must be empty when you upgrade the software using the USB Host jack.
- When the software upgrade is done, check the software details in the software Upgrade menu.
- Do not turn off the player during the software upgrade. It may cause the player to malfunction.
- · Software upgrades using the USB Host jack must be performed with a USB memory flash stick only.

#### By Disc

To upgrade by Disc, follow these steps:

- 1. Visit www.samsung.com/bluravsupport.
- 2. Download the latest disc software upgrade zip archive to your computer.
- 3. Unzip the zip archive to your computer. You should have a single folder with the same name as the zip file.
- 4. Write the folder onto a disc. We recommend a CD-R or DVD-R
- 5. Finalize the disc before you remove it from vour computer.
- 6. Insert the disc into player.
- 7. In the player's menu, go to Settings > Support > Software upgrade.
- 8. Select By Disc.

#### NOTE

- When the system upgrade is done, check the software details in the software Upgrade menu.
- Do not turn off the player during the Software Upgrade. It may cause the player to malfunction.

#### By Downloaded

The By Downloaded option lets you upgrade using a file the player downloaded earlier but you decided not to install immediately or a file downloaded by the player in Standby Mode (See Download in Standby Mode below).

To upgrade By Downloaded, follow these steps:

- 1. If upgrade software has been downloaded, you will see the software version number to the right of By Downloaded.
- 2. Select By Downloaded, and then press the **ENTER** button.
- 3. The player displays a message asking if you want to upgrade. Select Yes. The player begins the upgrade.
- 4. When the update is complete, the player turns off automatically, and then turns on.

#### NOTE

- When the system upgrade is done, check the software details in the software Upgrade menu.
- Do not turn off the player during the software Upgrade. It may cause the player to malfunction.
- To use the By Downloaded function, your player must be connected to the Internet.

#### Download in Standby Mode

You can set the Download in Standby Mode function so that the player downloads new upgrade software when it is in Standby mode. In Standby mode, the player is off, but its Internet connection is active. This allows the player to download upgrade software automatically, when you are not using it.

To set Download in Standby Mode, follow these steps:

- 1. Press the ▲▼ buttons to select Download in Standby Mode, and then press the ENTER hutton
- 2. Select On or Off.
  - Off: If you select Off, the player will notify you with a pop up message when new upgrade software is available.
  - On: If you select On, the player will automatically download new upgrade software when it is in Standby mode with the power off. If it downloads new upgrade software, the player will ask you if you want to install it when you turn the player on.

#### NOTE

 To use the Downloaded in Standby Mode function. your player must be connected to the Internet.

# Contact Samsung

Provides contact information for assistance with your player.

# **Basic Functions**

### Playing a Video

# **Playback**

- 1. Press the OPEN/CLOSE ( ) button to open the disc trav.
- 2. Place a disc gently into the tray with the disc's label facing up.

#### NOTE

 If you want Smart Hub to enter your password automatically, select REMEMBER PASSWORD after you have entered your password, and then press the ENTER button. A check appears. Smart Hub will now enter your password automatically when you select or enter your ID.

# The Settings Menu - BLUE (D)

The Settings Menu Screen gives you access to account management, account reset, and account properties functions.

To access the Settings Menu, and then select a menu item, follow these steps:

- 1. Press the **BLUE** (**D**) button on your remote.
- 2. Press the ▲ ▼ to select a menu item, and then press the ENTER button.

The functions on the Settings Menu screen are described below.

#### NOTE

 The Service Manager item listed in the Settings Menu is not available for Blu-ray Disc players.

#### Account Management

The Account Management Menu contains functions that let you register your service provider accounts, change your Smart Hub password, and delete or deactivate your Smart TV Account.

#### **Register Service Account**

If you have existing accounts with any of the providers listed by the Register Service Account function, you can associate the provider account and the provider account password with your Smart TV Account. If you associate the account, you will be able to log onto the account through Smart Hub easily, without entering your account name or password.

To use the Account Management function, follow these steps:

- 1. In the Account Management menu, select Register Service Account, and then press the **ENTER** button. The Register Service Account Window appears.
- Press the ▲▼ arrow buttons to select a. Service Provider you want to associate with your Smart TV Account, and then press the **ENTER** button.

#### NOTE

- If you have a Samsung account and you want to use the Samsung Apps function in Smart Hub, you must register your Samsung Apps account here. See page 56 for more information.
- 3. Using your remote and the on-screen Keypad. enter your site ID and password. When done, press the ENTER button.

#### NOTE

- This is the ID and password you normally use to access your account on this site.
- 4. If you have entered the ID and password correctly, the Registered Successfully message appears, asking you if you want to add another service provider. If you do, press the ENTER button. If not, press the RETURN button and return to the Settings Menu.
- 5. If you pressed ENTER, repeat Steps 2 through 4 to associate another Service Provider
- 6. When you are done, press the RETURN button.

#### Change Password

The Change Password function lets you change your Smart Hub password. To change the password, follow these steps:

- 1. Select Change Password, and then press the **ENTER** button.
- 2. Enter your current password. The next screen appears.
- 3. On the next screen, enter a new password on the first line. Enter it again on the second line
- 4. The Changing Password Complete message screen appears. Press the **ENTER** button or wait for the screen to close - about 5 seconds.

#### Remove Service Accounts

The Remove Service Accounts function cancels all your current registered Service Accounts that you registered on the Register Service Account screen.

#### **Deactivate Account**

The Deactivate Account function deactivates your Smart TV Account and deletes it and all your account settings entirely from Smart Hub.

#### Reset

The Reset function initializes all downloaded widgets, erases all user accounts and settings from the player, and resets all Smart Hub settings to the factory default settings. It then restarts Smart Hub as if it were starting for the first time. Your account, however, remains on the Smart Hub server. To log into your account, enter your ID and password on the Login screen.

To use the Reset function, follow these steps:

- 1. In the Account Management menu, select Reset, and then press the ENTER button. The Reset screen appears.
- 2. Enter the your Security password. This is the password you entered if you set up a BD or DVD Parental rating (See page 36). If you did not, enter 0000.

# Network Services

- 3. After a few moments, Smart Hub automatically resets. The screen may go black, then Smart Hub re-appears. In a few moments, it starts the re-initialization procedure.
- 4. To complete the re-initialization, go to Step 4 in Starting Smart Hub for the First Time. (See page 49)

 If you forgot your password, press the STOP ( ) button on the front panel of the player for more than 5 seconds with no disc inserted.

#### **Properties**

The Properties menu item lists three functions that display information about Smart Hub:

#### Detail

Lists information about Smart Hub including version number, the number of services installed, memory usage, and the unique product ID.

#### Check the speed of your internet connection

Runs a test which shows how fast your Internet connection to the Samsung's server is in Mbps (Megabits per second).

Speeds lower than 1.5 Mbps can limit your enjoyment of Smart Hub.

#### **Terms of Service Agreement**

Displays the Terms of Service Agreement.

# The Edit Mode Menu - YELLOW (C)

The functions in the Edit Mode menu let you manipulate the widgets in the My Applications section of the Smart Hub screen. Using these functions, you can lock and unlock access to some widgets, create folders and move widgets to them, rename folders, delete widgets, and change the position of widgets on the screen.

To access the Edit Mode Menu, and then select a menu item, follow these steps:

1. Press the YELLOW (C) button on your remote. The Edit Mode menu bar appears on the bottom of the screen.

2. Press the ▲▼◀▶ to select a menu item, and then press the ENTER button.

The functions in the Edit Mode Menu bar are described below.

#### NOTE

- Some menu items may not appear on the screen. To see these items, press the ◀► to move to the screen edge, and then press one more time to reveal the items.
- You can close the bar by highlighting the X on the bottom right side, and then pressing the ENTER button.

#### Move

The Move function lets you change the screen position of a widget. To use the Move function. follow these steps:

- 1. Press the YELLOW (C) button on your remote.
- 2. Select a widget, and then press the ENTER button. A check appears above the widget.
- 3. Press the ▲▼◀▶ to select Change Position, and then press the ENTER button. A position change icon appears above the widget.
- 4. Press the ▲▼◀▶ to move the icon. Press the ENTER button when the icon is in the position of your choice. The widget moves to its new location.

#### **New Folder**

The New Folder function lets you create and name new folders. Once you have created a folder, you can move widgets into it. To use the New Folder function, follow these steps:

- 1. Press the YELLOW (C) button on your remote.
- 2. Press the ▲▼◀▶ to move the cursor to New Folder, and then press the **ENTER** button. The Create Folder window and a keypad appear.
- 3. Use the keypad to enter the name of the folder.

4. Select **OK**, and then press the **ENTER** button. The New Folder screen closes and the New Folder appears on the Smart Hub screen.

#### Move to Folder

The Move to Folder function lets you move a widget to a folder. To use the Move to Folder function, follow these steps:

- 1. Press the YELLOW (C) button on your remote.
- 2. Select a widget, and then press the ENTER hutton
- 3. Press the ▲▼◀▶ to select Move to Folder. and then press the ENTER button. The Move to Folder window opens.
- Press the ▲▼◀▶ to select a folder, and then press the **ENTER** button. The Moved to Folder message appears, and then closes. The widget has been moved to the folder.

#### To Access Widgets in a Folder

- 1. Close the Edit Mode menu.
- 2. In My Applications, press the ▲▼◀▶ to select a folder, and then press the ENTER button. The folder opens.
- 3. Select a widget, and then press the ENTER button. The widget's application or service starts.

#### To Edit Items in a Folder

Select a folder, and then press the **ENTER** button. The folder opens.

Press the YELLOW (C) button on your remote. The Edit buttons appear at the bottom of the screen

These buttons work the same as the Edit Mode menu buttons on the main screen. For example. to move a widget back to the My Applications main screen:

- 1. Select the widget.
- 2. Select Move to Folder, and then press the **ENTER** button. The Move to Folder window appears.

3. Select My Applications, and then press the **ENTER** button. The Move to Folder window closes and the widget returns to the main My Applications screen.

#### Rename Folder

The Rename Folder function lets you rename folders. To use the Rename Folder function, follow these steps:

- 1. Press the YELLOW (C) button on your remote.
- 2. Press the ▲▼◀▶ to select a folder, and then press the **ENTER** button.
- Press the ▲▼◀▶ to select Rename a Folder. and then press the ENTER button. The Folder Rename window and a keypad appears.
- 4. Use the keypad to enter a new name.
- 5. Select **OK**, and then press the **ENTER** button twice. The Rename window closes and the new name appears below the folder.

#### Lock

The Lock function lets you lock some widgets in My Applications so they can not be opened without entering the Parental Security Code.

To use the Lock function, follow these steps:

- 1. Press the YELLOW (C) button on your remote.
- 2. Press the ▲▼◀▶ to select a widget, and then press the ENTER button. If the widget can be locked, the Lock menu item darkens.
- 3. Press the ▲▼◀▶ to select Lock, and then press the **ENTER** button. The Security window appears.
- 4. Enter your Parental Security Code (See page 36). If you have not created a Parental Security Code, enter 0000.
- 5. Press the ENTER button. The Lock Service window appears confirming the lock, and then closes. A lock symbol appears next to the widget.

# Network Services

#### Unlock

- 1. Press the YELLOW (C) button on your remote.
- 2. Press the ▲▼◀▶ to select a locked widget. and then press the ENTER button.
- 3. Press the ▲▼◀▶ to select Unlock, and then press the **ENTER** button. The Security window appears.
- 4. Enter the Parental Security Code (See page 36). If you have not created a Parental Security Code, enter 0000.
- 5. Press the ENTER button. The Lock Service Released window appears confirming the lock has been release, and then closes.

#### Delete

The Delete function lets you delete widgets from My Applications. To use the Delete function, follow these steps:

- 1. Press the YELLOW (C) button on your
- 2. Press the ▲▼◀▶ to select a widget, and then press the ENTER button.
- 3. Press the ▲▼◀▶ to select Delete, and then press the ENTER button. The message, "Do you want to delete selected?" appears.
- 4. Select Yes, and then press the ENTER button. The widget is deleted.

# The Sort Menu - GREEN (B)

The functions in the Sort Menu let you sort the widgets in My Applications by Name, Date, Frequency (of use), and Category, If you manually change the position of a widget, the Sort Menu automatically highlights User Defined when you

To sort the widgets in My Applications, follow these steps:

- 1. Press the **GREEN (B)** button on your remote.
- 2. Press the ▲▼◀▶ to select a sorting method. and then press the ENTER button. Smart Hub sorts the widgets by the method you have chosen.

#### Samsung Apps

Samsung Apps lets you download for pay or freeof-charge applications and services to your Bluray Disc player and view or use them on your TV. These applications and services include videos, music, photos, games, news, sports, etc. Widgets for the new apps appear in My Applications. Additional applications and services are added regularly.

## For Pay Apps

To download for pay apps, you need to create a Samsung Account and add a credit card to the account.

To create a Samsung account, follow these steps:

- 1. Use your computer's browser to access www.samsung.com.
- 2. At the top of the page, click Apps, After the Apps page appears, click Login at the top of the page.
- 3. Fill out Register Now if you are not registered.
  - If you are already registered, enter your e-mail address and password under Login, then go to Step 5.
- 4. Fill out Preferences on the next page.
- 5. On the My Account page, click "view your apps" next to Your Products.
- 6. Accept the Terms and Conditions.
- 7. Fill in the credit card information form, and then click Submit.

#### NOTE

If service may not provided in some countries.

## Accessing the Samsung Apps Screen

To access Samsung Apps, press the ▲▼◀▶ buttons to navigate to the Samsung Apps area on the Smart Hub main screen, and then press the **ENTER** button. The Samsung Apps screen appears.

#### NOTE

• If this is the first time you are accessing this screen, the terms of service window appears. Select Agree. and then press the ENTER button.

## Using the Samsung Apps Screen

To use the Samsung Apps screen, follow these steps:

- Press the ◀► buttons to move to the category list on the left.
- 2. Press the ▲▼ to highlight a category. In a few seconds, the Samsung Apps screen displays the applications in that category. The Sort tabs appear across the top.
- 3. Press the ▶ button to move to the displayed applications or services.
- 4. Press the ▲▼◀► buttons to select an application or service, and then press the **ENTER** button. The Application Details screen appears describing the service or application.
- 5. Select Download Now, and then press the **ENTER** button. If the application or service is free, it downloads and runs. If not, and there is a fee, follow the directions on the screen to complete the download.

#### NOTE

- Some apps are free to download, but require registration with the provider or a paid account with the provider to use.
- Widgets for applications and services you have downloaded from Samsung Apps appear in My Applications.

#### Sort By Tabs

You can access the Sort By tabs on the top of the screen using the ▲▼◀▶ buttons. Each tab displays the services or applications in the category you chose, sorted by the criteria on the tab (Recommended, Most Downloaded, Most Recent, Name).

You can also use the BLUE (D) button on your remote to access the Sort By tabs. Each time you press the BLUE (D) button, you change the display from one sort tab to the next.

#### Samsung Apps by category

The following categories are available:

- What's New? : Displays newly registered applications.
- Video : Displays various video media such as movies, TV shows, and short length videos.
- Game: Displays various games such as sudoku and chess.
- Sports: Displays various sports media services such as match information, images, and short lenath videos.
- Lifestyle: Includes various lifestyle media services such as music, personal photo management tools, and social networking such as Facebook and Twitter.
- Information : Includes various information. services such as news, stocks, and weather.
- Other: Includes other miscellaneous services.

# My Account

My Account gives you access to your Samsung Apps order and download history, and to the My Apps Cash screen. You must have a Samsung account to access this information.

# Network Services

## Help

If you have questions about Samsung Apps, check Help first. If none of the tips apply, please visit the www. samsung.com.

To use the Help function, follow these steps:

- 1. Press the ▲▼◀▶ buttons to select Help. and then press the ENTER button.
- 2. Press the ◀▶ to enter Help after it appears.
- 3. Press the ▲▼ to scroll the Help text.

# Using the colored buttons on your remote with Samsung Apps

- RED (A) (Login): To log into your Smart TV Account.
- GREEN (B) (Thumbnail/List View): To toggle applications between Thumbnail and List view.
- BLUE (D) (Sort By): To sort the applications in a category by Recommended, Most Downloaded, Most Recent, or Name.
- Return: To return to the previous menu.

#### NOTE

. The Internet contents services may be added or deleted by providers without notice.

For instruction to use Your Video or Search Function, please visit www.samsung.com.

#### BD-LIVE™

Once the player is connected to the network, you can enjoy various movie-related service contents using a BD-LIVE compliant disc.

- 1. Attach a USB memory stick to the USB jack on the side of the player, and then check its remaining memory. The memory device must have at least 1GB of free space to accommodate the BD-LIVE services.
- 2. Insert a Blu-ray disc that supports BD-LIVE.
- Select an item from various BD-LIVE service. contents provided by the disc manufacturer.

#### NOTE

• The way you use BD-LIVE and the provided contents may differ, depending on the disc manufacturer.

#### **Using the AllShare Function**

AllShare lets you play music, video, and photo files located in your PC or your DLNA compatible mobile phone or NAS on the player.

To use AllShare with your player, you must connect the player to your network (See pages

To use AllShare with your PC, you must install AllShare software on your PC.

If you have a DLNA compatible mobile phone or NAS, you can use AllShare without any additional

You can download the PC software and get detailed instructions for using AllShare from the Samsung.com web site.

# Appendix

# **Troubleshooting**

Before requesting service, please check the following.

PROBLEM	SOLUTION	
No operation can be performed with the remote control.	Check the batteries in the remote control. They may need replacing.     Operate the remote control at a distance of no more than 20 feet.     Remove batteries and hold down one or more buttons for several minutes to drain the microprocessor inside the remote control to reset it. Reinstall batteries and try to operate the remote control again.	
Disc does not play.	Ensure that the disc is installed with the label side facing up.     Check the region number of the Blu-ray Disc/DVD.	
Disc Menu does not appear.	Ensure that the disc has disc menus.	
The prohibition message appears on the screen.	This message appears when an invalid button is pressed.  The Blu-ray Disc/DVD's software doesn't support the feature (e.g., angles).  You've requested a title or chapter number or search time that is out of range.	
Play mode differs from the Setup Menu selection.	Some of the functions selected in the Setup Menu may not work properly if the disc is not encoded with the corresponding function.	
The screen ratio cannot be changed.	The Screen Ratio is fixed on your Blu-ray Disc/DVD. This is not a problem with the player.	
No audio.	Make sure you have selected the correct Digital Output in the Audio Options Menu.	
The screen is blocked	If the HDMI output is set to a resolution your TV cannot support (for example, 1080p), you may not see a picture on your TV.  Press the STOP ( ) button (on front panel) for more than 5 seconds with no disc inside. All settings will revert to the factory settings.  When the factory default settings are restored, all stored user BD data is deleted.	

# Appendix

PROBLEM	SOLUTION	
Forgot password	Press the STOP ( ) button (on front panel) for more than 5 seconds with no disc inside. All settings including the password will revert to the factory settings.  Don't use this unless absolutely necessary.  When the factory default settings are restored, all stored user BD data is deleted.	
If you experience other problems.	Go to the contents and find the section of the user manual that contains the explanations regarding the current problem, and follow the procedure once again. If the problem still cannot be solved, please contact your nearest Samsung authorized service center.	
The picture is noisy or distorted	Make sure that the disc is not dirty or scratched.     Clean the disc.	
No HDMI output.	Check the connection between the TV and the HDMI jack of the player.     Check if your TV supports 480p, 720p, 1080i, 1080p HDMI input resolution.	
Abnormal HDMI output screen.	If random noise appears on the screen, it means that TV does not support HDCP (High-bandwidth Digital Content Protection).	
AllShare function		
I can see folders shared through AllShare, but I cannot see the files.	AllShares shows only files corresponding to the Image, Music, and Movie categories. Files that do not correspond to these categories may not be displayed.	
Video is played intermittently.	Check if the network is stable. Check if the network cable is properly connected and if the network is not overloaded. The wireless connection between the server and the player is unstable. Check the connection.	
AllShare connection between TV and PC is unstable.	The IP address under the same subnetwork should be unique. If they are not, IP interference can cause this phenomenon. Check if you have a firewall enabled. If so, disable the firewall function.	

PROBLEM	SOLUTION	
BD-LIVE		
I cannot connect to the BD-LIVE server.	Check whether the network connection is successful or not by using the Network Status menu. (See page 35) Check whether the USB memory device is connected to the player. The memory device must have at least 1GB of free space to accommodate the BD-LIVE service. You can check the available size in BD Data Management. (See page 35~36) Check whether the BD-LIVE Internet Connection menu is set to Allow(All). If all above fails, contact the contents provider or update the player to the latest firmware.	
When using the BD-LIVE service, an error occurs.	The memory device must have at least 1GB of free space to accommodate the BD-LIVE service.     You can check the available size in BD Data Management. (See page 35~36)	

• When the factory default settings are restored, all stored user BD data is deleted.

# Repairs

If you contact us to repair your player, an administration fee may be charged if either:

- 1. An engineer is called out to your home at your request and there is no defect in the product.
- 2. You bring the unit to a repair center and there is no defect in the product.

We will provide you with the amount of the administration fee before we make a home visit or begin any work on your player.

We recommend you read this manually thoroughly, search for a solution on line at www.samsung.com, or contact Samsung Customer Care at 1-800-SAMSUNG (726-7864) before seeking to repair your player.

# **Appendix**

#### Compliance and Compatibility Notice

NOT ALL discs are compatible

- Subject to the restrictions described below and those noted throughout this Manual, including the Disc Type and Characteristics section of this user manual, disc types that can be played are: pre-recorded commercial BD-ROM, DVD-VIDEO, and Audio CD (CD-DA) discs; BD-RE/-R, DVD-RW/-R discs; and CD-RW/-R discs.
- Discs other than the above cannot and/or is not intended to be played by this player. And some of the above discs may not play due to one or more reasons provided below.
- Samsung cannot assure that this player will play every disc bearing the BD-ROM, BD-RE/-R, DVD-VIDEO, DVD-RW/-R, DVD+RW/+R and CD-RW/-R logos, and this player may not respond to all operating commands or operate all features of every disc. These and other disc compatibility and player operation issues with new and existing format discs are possible because:
  - Blu-ray is a new and evolving format and this player may not operate all features of Blu-ray Discs because some features may be optional, additional features may have been added to the Blu-ray Disc format after the production of this player, and certain available features may be subject to delayed availability;
  - not all new and existing disc format versions are supported by this player;
  - new and existing disc formats may be revised, changed, updated, improved and/or supplemented;
  - some discs are produced in a manner that allows specific or limited operation and feature during playback;
  - some features may be optional, additional features may have been added after the production of this player or certain available features may be subject to delayed availability;
  - some discs bearing the BD-ROM, BD-RE/-R, DVD-VIDEO, DVD-RW/-R, DVD+RW/+R and CD-RW/-R logos may still be non-standardized discs;
  - some discs may not be played depending on their physical state or recording conditions;
  - problems and errors can occur during the creation of Blu-ray Disc, DVD software and/or the manufacture of discs;
  - this player operates differently than a standard DVD player or other AV equipment; and/or
  - for reasons noted throughout this user manual and for other reason(s) discovered and posted by SAMSUNG customer care center.
- If you encounter disc compatibility or player operation problems, please contact SAMSUNG customer care center.
  - You may also contact SAMSUNG customer care center for possible updates on this player.
- For additional information on playback restrictions and disc compatibility, refer to the Precautions, Before Reading the user manual, Disc Types and Characteristics, and Before Playing sections of this user manual.

#### **Copy Protection**

• Because AACS (Advanced Access Content System) is approved as content protection system for Blu-ray Disc format, similar to use of CSS (Content Scramble System) for DVD format, certain restrictions are imposed on playback, analog signal output, etc., of AACS protected contents. The operation of this product and restrictions on this product may vary depending on your time of purchase as those restrictions may be adopted and/or changed by AACS after the production of this product. Furthermore, BD-ROM Mark and BD+ are additionally used as content protection system for Blu-ray Disc format, which imposes certain restrictions including playback restrictions for BD-ROM Mark and/or BD+ protected contents. To obtain additional information on AACS, BD-ROM Mark, BD+, or this product, please contact SAMSUNG customer care center.

- Many Blu-ray Disc/DVD discs are encoded with copy protection. Because of this, you should only
  connect your Player directly to your TV, not to a VCR. Connecting to a VCR results in a distorted
  picture from copy-protected Blu-ray Disc/DVD discs.
- This item incorporates copy protection technology that is protected by U.S. patents and other intellectual property rights of Rovi Corporation. Reverse engineering and disassembly are prohibited.
- Under the U.S. Copyright laws and Copyright laws of other countries, unauthorized recording, use, display, distribution, or revision of television programs, videotapes, Blu-ray Discs, DVDs, and other materials may subject you to civil and/or criminal liability.
- For Blu-ray Disc Player progressive scan output: CONSUMERS SHOULD NOTE THAT NOT ALL HIGH DEFINITION TELEVISION SETS ARE FULLY COMPATIBLE WITH THIS PRODUCT AND MAY CAUSE ARTIFACTS TO BE DISPLAYED IN THE PICTURE. IN CASE OF PROGRESSIVE SCAN PICTURE PROBLEMS, IT IS RECOMMENDED THAT THE USER SWITCH THE CONNECTION TO THE 'STANDARD DEFINITION' OUTPUT. IF THERE ARE QUESTIONS REGARDING OUR TV SET COMPATIBILITY WITH THIS PRODUCT, PLEASE CONTACT OUR CUSTOMER SERVICE CENTER.

- This item incorporates copy protection technology that is protected by U.S. patents and other intellectual property rights of Rovi Corporation. Reverse engineering and disassembly are prohibited.

# LIMITED WARRANTY TO ORIGINAL PURCHASER

This SAMSUNG brand product, as supplied and distributed by SAMSUNG and delivered new, in the original carton to the original consumer purchaser, is warranted by SAMSUNG against manufacturing defects in materials and workmanship for a limited warranty period of:

# One (1) Year Parts and Labor\* (\*90 Days Parts and Labor for Commercial Use)

This limited warranty begins on the original date of purchase, and is valid only on products purchased and used in the United States. To receive warranty service, the purchaser must contact SAMSUNG for problem determination and service procedures. Warranty service can only be performed by a SAMSUNG authorized service center. The original dated bill of sale must be presented upon request as proof of purchase to SAMSUNG or SAMSUNG's authorized service center. Transportation of the product to and from the service center is the responsibility of the purchaser.

SAMSUNG will repair or replace this product, at our option and at no charge as stipulated herein, with new or reconditioned parts or products if found to be defective during the limited warranty period specified above. All replaced parts and products become the property of SAMSUNG and must be returned to SAMSUNG. Replacement parts and products assume the remaining original warranty, or ninety (90) days, whichever is longer.

SAMSUNG's obligations with respect to software products distributed by SAMSUNG under the SAMSUNG brand name are set forth in the applicable end user license agreement. Non-SAMSUNG hardware and software products, if provided, are on an "AS IS" basis.

Non-SAMSUNG manufacturers, suppliers, publishers, and service providers may provide their own warranties.

This limited warranty covers manufacturing defects in materials and workmanship encountered in normal, and except to the extent otherwise expressly provided for in this statement, noncommercial use of this product, and shall not apply to the following, including, but not limited to: damage which occurs in shipment; delivery and installation; and uses for which this product was not intended; altered product or serial numbers; cosmetic damage or exterior finish; accidents, abuse, neglect, fire, water, lightning or other acts of nature; use of products, equipment, systems, utilities, services, parts, supplies, accessories, applications, installations, repairs, external wiring or connectors not supplied and authorized by SAMSUNG, or which damage this product or result in service problems; incorrect electrical line voltage, fluctuations and surges; customer adjustments and failure to follow operating instructions, cleaning, maintenance and environmental instructions that are covered and prescribed in the instruction book; product removal or reinstallation; reception problems and distortion related to noise, echo, interference or other signal transmission and delivery problems. SAMSUNG does not warrant uninterrupted or error-free operation of the product.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE LISTED AND DESCRIBED ABOVE, AND NO WARRANTIES WHETHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY AFTER THE EXPRESS WARRANTY PERIODS STATED ABOVE, AND NO OTHER EXPRESS WARRANTY OR GUARANTY GIVEN BY ANY PERSON, FIRM OR CORPORATION WITH RESPECT TO THIS PRODUCT SHALL BE BINDING ON SAMSUNG. SAMSUNG SHALL NOT BE LIABLE FOR LOSS OF REVENUE OR PROFITS, FAILURE TO REALIZE SAVINGS OR OTHER BENEFITS, OR ANY OTHER SPECIAL, INCIDENTIAL OR CONSEQUENTIAL DAMAGES CAUSED BY THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT, REGARDLESS OF THE LEGAL THEORY ON WHICH THE CLAIM IS BASED, AND EVEN IF SAMSUNG HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. NOR SHALL RECOVERY OF ANY KIND AGAINST SAMSUNG BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT SOLD BY SAMSUNG AND CAUSING THE ALLEGED DAMAGE. WITHOUT LIMITING THE FOREGOING, PURCHASER ASSUMES ALL RISK AND LIABILITY FOR LOSS, DAMAGE OR INJURY TO PURCHASER AND PURCHASER'S PROPERTY AND TO OTHERS AND THEIR PROPERTY ARISING OUT OF THE USE, MISUSE OR INABILITY TO USE THIS PRODUCT SOLD BY SAMSUNG NOT CAUSED DIRECTLY BY THE NEGLIGENCE OF SAMSUNG. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT, IS NONTRANSFERABLE AND STATES YOUR EXCLUSIVE REMEDY.

Some states do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

To obtain warranty service, please contact SAMSUNG customer care center.
