(Sample screenshot of TNS Mobile trading program)

The screenshot shows the TNS Mobile trading program interface. The main display area is titled "Watchlist" and features a search bar for instruments. Below the search bar, there is a list of stocks, including AAPL:xnas (Apple Inc.) and VOD:xlon (Vodafone Group Plc). The selected stock, AAPL:xnas, is shown with its current price of 595.10 and a previous price of 595.25, indicating a decrease of 0.15 (-0.03%). A line graph displays the price movement over time, with a red dashed line indicating the current price. To the right of the graph, there is a "TRADE" button and a list of market statistics, including Day High, Day Low, Last Traded, Net Change, Percent Change, Last Updated, and Exchange. At the bottom of the screen, there is a navigation bar with several icons, including a home icon, a settings icon, and a notification icon. The bottom status bar displays account information such as Balance, Account value, P/L, Margin available, and Margin Utilization.
