Personal Cloud. Enhanced Data Protection. Extensive Content Sharing. What More Could You Want?

Introducing the Iomega® StorCenter™ ix2-200 Network Storage, Cloud Edition. Iomega Personal Cloud is a new technology that creates your own Internet connected "cloud" network of StorCenter storage devices, personal computers and handheld mobile devices, which allows you to connect, share, copy and protect your files within your network. The files shared in your Personal Cloud are completely owned and managed by you, so the content and accessibility is always under your control.

Compact and Secure Network Storage for Small Business or Advanced Home Networks

Powerful Media Server with Anywhere Access

- **Easy to use** and manage, set up in just three steps!
- Robust data management powered by enterprise-class EMC® LifeLine™ software
- Iomega **Personal Cloud** is the most economical way to protect and share your valuable data
- Personal Cloud support is **included with the purchase of the latest** Iomega StorCenter products
- Supports PC, Mac® & Linux® clients and is VMware® and XenServer™ certified
- **Remote access** from anywhere in the world to your photos, videos and other files via personal web address
- Built-in **torrent** support for peer-to-peer file sharing
- **Iomega QuikTransfer** feature moves data from a USB drive or replicates your data without the need of a PC
- No usage or subscription fees

Enhanced Data Protection

- **EMC® LifeLine™ software** allows users to store and manage all of their valuable data on one centralized, secure, affordable storage appliance.
- **Iomega's full suite of data protection software** is available for download: Trend Micro™ Internet Security, Iomega QuikProtect, and MozyHome™ Online Backup service.
- **Prevent against data loss** in case of disk drive failure with RAID 1 mirroring.
- **Proven RSA® encryption technology** protects your data from hackers during installs and upgrades.
- **One-touch copying** via the QuikTransfer button.
- **VMware & XenServer** certified for NFS & iSCSI.
- **Axis IP Camera Security support** supports up to 5 cameras.

Extensive Content Sharing

- **Print** server and **media** server support

- **Built-in media server** turns your StorCenter ix2-200 into a multimedia hub: listen, view and access your videos, files, photos and music from any compatible devices on your network.

Multi-Media, Multi-Platform, Multi-Location

- **Share files among** Windows®, Macintosh®, or Linux® based personal computers.
- **Torrent technology** facilitates download management, making it easier and faster to download large media files.
- **Apple File Protocol** (AFP) native file system to facilitate copying files and automate networking from your Mac.
- Easily **share files** from your StorCenter ix2-200 to **other media devices**, including DMAs (digital media adapters), UPnP® and DLNA® AV compatible devices (i.e. stereo receivers, game consoles, picture frames).
- Easily **transfer pictures from your camera** with built-in support for Picture Transfer Protocol.
