

PR600-II

Commercial Capability For Your Home

If you dream of starting an embroidery business or expanding the possibilities of your home embroidery, then the **PR600II** embroidery machine is for you. Only Brother manufactures embroidery machines for both the industrial and home products markets, so our machines are engineered to deliver professional results in a compact, easy-to-use package. Embroider a wide variety of items such as shirts, jackets, jeans, totes or towels with business logos, school names, monograms, decorative motifs and more.

FEATURE SPOTLIGHT

Easy Embroidering with 6 Needles & Automatic Needle Threading

- ✿ Embroider multi-color designs quickly and easily
- ✿ Automatic color change feature allows you to pre-program the correct thread color sequence for the entire design
- ✿ Upper and lower automatic thread trimmers mean no time consuming trimming after the embroidery is complete
- ✿ Embroider faster and increase production capability
- ✿ Upper thread passes through the needle with a touch of a button

Embroider In No Time

Minimize project time when you embroidery at a maximum speed of **1,000 stitches per minute**.

For projects, sewing tips and more, visit the Home Sewing pages at www.brother.com

Start Your Business Now With the LCD Screen

- Manage all functions with a simple touch of the easy-to-read LCD Display
- Intuitive commands for ease of use and easy training
- Built-in Quick-reference Guide

Add Versatility To Your Embroidery With the USB

The PR600II has a two-way USB port and an embroidery card slot to access thousands of additional optional Brother embroidery designs excluding Disney and Nickelodeon.

Easier Embroidery For Hard To Reach Places

The **cylinder arm** makes it easier than ever to embroider items such as tote bags, sleeves, trouser legs, shirt pockets and socks.

Use the USB port to update your machine's software or connect to your PC. Add optional media storage devices to access optional stock embroidery designs, custom logos from digitizing companies or original designs from customers.

Embroider On Caps

Now you can embroider one of the most popular logo garments in the industry quickly and easily with the **optional cap frame attachment**. The cap frame embroidery area is approximately 5" wide x 2" tall to accommodate a variety of popular cap styles.

Get Personal With Lettering

The **built-in touch screen lettering** allows you to customize company logos or any embroidery design with names, dates or locations. Personalize one piece or dozens – just type the information right on the color LCD touch screen and start stitching.

Customize Designs On-Screen

- Arrange text
- Pattern rotation in one-degree increments
- Change design size (increase 20%, decrease 10%)
- Combine designs
- Add lettering to your designs
