Moreover, we also offer battery solution of other reputed brands of batteries like Exide, Rocket and Quanta.

Our Services

Our company holds expertise in offering world-class and reliable installation and maintenance services for **APC UPS, Inverters and its peripherals**. We have an ACP trained team of experts, which enables us to offer effective and efficient services. Our services include Swap Replacement of its units and battery on-site for all varieties of online, LI UPS and Inverters. The maximum service resolution supports time is two business days for local and four business days for remote or upcountry warranty products of APC.

We also offer a range of **Smart Services** to our clients that include **AMC Solution** and **Repair Solution**.

Business Associates

We are proud to have ‘**APC**’ as our business associate, which is renowned and popular brand engaged in manufacturing a wide range of appliances. It not only provides world-class products to our company, but also trains our professionals to provide highly reliable installation and maintenance services for these appliances. To have APC as our business associate is our main USP as its products offer the following features:

- 93 to 100 % of UPS efficiency at full load and highest power factor
- Unity for some models, compact and miniature designs
- The maximum models are available with internal battery modules and smart Battery chargers that enhance battery life
- Hot swappable UPS and battery system enables customer to certain basic fault finding of his own without waiting engineers to visit.

- Digital display with fault code facility, transferring UPS on Battery mode in during high voltage, high frequency and spikes to safe guard the valuable systems.
- Maintain steady output and voltage under abnormal input voltage, sags, spikes and brown outs.
- The UPS are equipped with power chute software, which give customer hand on information about ups functioning and also provides log of all events.
- The UPS can be remotely managed through its network and management card globally.
- Very quick service response with four hours of call booked
- Immediately swapping ups system in case of failure, hence enabling customer assured
- Best service and 2 years on-site warranty policy of company keeps customer tension free in case of failure of UPS system

Warehousing and Packaging

Our company is proud to own a capacious and advanced warehousing facility that is equipped with all the requisite machinery and tools. It enables us in the storage of our procured products with utmost safety. Divided into a number of divisions, it helps us in arranging and managing our wide product range according to their respective categories. This sophisticated division makes the retrieval process easy and time saving at the time of delivery.

We are empowered by a dedicated team of expert and specialized packers, which ensures safe & secure delivery of UPS and its associated peripherals. This packaging also safeguards the products against transportation hazards.

Our Team

We have built our success on the towering efforts of our team, which is a panel of sincere, self motivated and experienced professionals. All of our team members possess key skills and rich knowledge to undertake their respective responsibilities effectively and efficiently. They are well updated with the dynamic trends of the market, which help them to understand the client's specific needs. It has also helped them in rendering their services and serve clients in best possible manner. Our engineers are trained by our business associate 'APC', which equip them with complete product knowledge, hence empowering them with unmatched skills and expertise.

Our team has the following personnel:

- Procuring agents
- Engineers
- Technicians
- Packaging experts
- Quality analysts
- Sales and marketing personnel

- Administrative staff

Quality Assurance

Realizing the role of the quality in the growth and success of an organization, we have always paid utmost attention towards the quality factor. We have set up a dedicated and qualified team of quality analysts in order to maintain paramount quality standards. This team is responsible for taking care of transportation damages and defects while getting the consignment of products from APC. Moreover, we these products are further checked for any in-transit or transportation damage before being dispatched to the clients. It strengthens us in making a flawless delivery of APC Appliances to our customers.

Clientele

Our unmatched quality delivery of the products, ethical business practices and world-class services have helped garner a wide client-base in the domestic market. We get our products sourced and engineers trained from the house of our reputed business associate called “APC”. It makes us to deliver paramount standards throughout our services and products.

Product Page

Our company has heaved huge reputation for trading a wide range of APC Appliances that are sourced from highly renowned brand 'APC'. We are proud to announce ourselves as the authorized service & business partner of 'APC', which is known for its product quality. The entire range of products that we offer is extensively demanded in market for its high performance, efficiency and longer functional life.

We offer:

Back UPS

Being an authorized dealer and service provider of APC Back UPS in India, we are committed to offer high quality products to our clients. This complete array of Back UPS is widely demanded for its features such as protection, convenience and Manageability. Customers can avail these products from us at cost-effective prices.

Back UPS-BR600CI-IN

We offer our customers a highly efficient range of Back UPS-BR600CI-IN, which is developed using authentic parts. Precisely engineered, this array of UPS gives sound power back up and has longer functional life. These are provided in varied specifications as detailed by the clients.

Specifications:

- ☐ Output power capacity: 360 Watts / 600 VA
- ☐ Nominal Output Voltage: 230V
- ☐ Output Frequency (sync to mains): 50 Hz
- ☐ Waveform Type Stepped approximation to a sine-wave
- ☐ Output Connections (3) India 3-pin 6A (Battery Backup)
- ☐ Input Nominal Input Voltage 230V
- ☐ Input Frequency 50 Hz
- ☐ Input Connections India 3-pin 6A
- ☐ Cord Length 1.22 meters

Back UPS-BR600CI-IN

Our company is engaged in the trading of Back UPS-BR600CI-IN, which is procured from APC. Available in a cord length of 1.83 meters, these are used in households and other industries to providing power back up. We offer these products at cost-effective prices.

Specifications:

- ☐ Output Output Power Capacity: 390 Watts / 650 VA
- ☐ Max Configurable Power: 390 Watts / 650 VA
- ☐ Nominal Output Voltage: 230V
- ☐ Output Frequency (sync to mains): 47 - 63 Hz
- ☐ Waveform Type Stepped approximation to a sine wave
- ☐ Output Connections
- ☐ India 2/3-pin 6A (Surge Protection)
- ☐ India 2/3-pin 6A (Battery Backup)
- ☐ Input Nominal Input Voltage 230V
- ☐ Input Frequency 50/60 Hz +/- 3 Hz (auto sensing)
- ☐ Input Connections India 3-pin 6A

Back UPS-BR1000-IN

We have in our stores a quality series of Back UPS-BR1000-IN. These products are highly acclaimed for their efficiency and performance. This range of UPS is available in different specifications as provided by the customers.

Specifications:

- ☐ Output Power Capacity: 600 Watts / 1000 VA
- ☐ Max Configurable Power 600 Watts / 1000 VA
- ☐ Nominal Output Voltage 230V
- ☐ Output Connections India 2/3-pin 6A (Surge Protection)
- ☐ India 2/3-pin 6A (Battery Backup)
- ☐ Input Nominal Input Voltage 230V Input Frequency 47 - 63 Hz Input Connections Indian/South African BS 546A
- ☐ Cord Length 1.98 meters
- ☐ Input voltage range for main operations 175 - 295V
- ☐ Input voltage adjustable range for mains operation 160 – 286V

Back UPS-BR1100CI-N

Customers can avail from us premium grade Back UPS-BR1100CI-N, which is developed using high components. These hi-tech products are widely demanded in different industries for their utility. This range of products is designed in strict compliance with international quality standards.

Specifications:

Back -UPS BI (Home UPS)

It gives us immense pleasure to offer our clients a wide range of Home UPS. This UPS provide power back up in the absence of electricity. It is a very effective and convenient way to keep fans, lights and sensitive electronics running during power cuts. We are available with various models of these products.

Back -UPS -BI850SINE

We offer our clients premium quality Back -UPS -BI850SINE, which is designed considering the various requirements of the clients. These products are easy to handle are provided with audible alarms that provides notification of changing UPS conditions and utility power. This array of UPS can provide temporary battery power at the time of power failure.

Features:

- ☐ Wide input voltage window
- ☐ Saves battery power during power cuts
- ☐ UPS-Inverter switch allow home UPS to power computer systems, lights, fans and televisions.
- ☐ Battery input fuse is installed for providing protection against reversed polarity of battery cables at the time of connecting Home UPS and battery.
- ☐ Charger output selector allows to match the Home UPS's battery charger output to a specific battery size
- ☐ It ensures the longest possible battery life by avoiding under and over-charging.

Specifications:

- ☐ APC Back-UPS BI, 500 Watts / 850 VA, Input 230V / Output 230V

Back UPS-BI1000I

Our company brings forth a highly advanced assortment of Back UPS-BI1000I. These are installed with LED status indicators that quickly understand unit and power status using visual

indicators. The audible alarms provide notification of UPS conditions and changing utility power.

Features

- ☐ Ease of operation
- ☐ Cold-start capable
- ☐ Provides temporary battery power at the time of power failure

Specifications:

- ☐ APC Back-UPS BI, 660 Watts / 1000 VA, Input 230V / Output 230V

Smart UPS

We are amongst the leading traders of high frequency Smart UPS, which has the ability to provide power back up to a number of appliances. This array of UPS is equipped with both audible and indication alarm function to convenient operations. Moreover, these are noiseless and have low maintenance cost.

Smart-UPS 750VA USB & Serial 230V (Item Code: SUA750I)

This range of Smart UPS is widely appreciated in market for its high efficiency and performance. It is available in a complete of CD with software, smart UPS signaling, RS-232 cable, USB cable and user manual. This range of UPS allows quick and easy better replacement.

Features:

- USB connectivity
- Provides management of the UPS via a USB port (not available on all models)
- Battery replacement without tools
- Allows quick, easy battery replacement
- Front-access servicing simplifies installation and maintenance
- Minimizes space requirements

Specifications:

- APC Smart-UPS, 500 Watts / 750 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot USB

Output:

- Output power capacity: 500 Watts / 750 VA

- Maximum configurable power: 500 Watts / 750 VA
- Nominal output voltage: 230V
- Output voltage note: Configurable for 220:230 or 240 nominal output voltage
- Output Voltage Distortion: Less than 5% at full load
- Output Frequency (sync to mains): 47 - 53 Hz for 50 Hz nominal, 57 - 63 Hz for 60 Hz nominal
- Waveform Type: Sine wave
- Output Connections: (6) IEC 320 C13 , (2) IEC Jumpers

Smart-UPS 1000VA USB & Serial 230V (Item Code: SUA1000I)

This Model of Smart UPS has front access servicing that simplifies installation & maintenance and also minimizes space requirements. These are developed using cutting-edge technology to ensure maximum functional life. It is available in different models as per the requirements of the clients. Provided with USB connectivity, it manages UPS through a USB port (not available on all models).

Specifications:

- APC Smart-UPS, 670 Watts / 1000 VA,
- Input 230V / Output 230V,
- Interface Port DB-9 RS-232, SmartSlot, USB
- Available with CD software, Smart UPS signaling, RS-232 cable, USB cable and User Manual

Smart-UPS XL 1000VA USB & Serial 230V (Item Code: SUA1000UXI)

Procured from APC, our range of Smart UPS is widely appreciated for its optimum functionality. Having a slot for USB connectivity, it enables the management of UPS through a USB port. This range of Smart UPS is available at cost-effective prices.

Specifications:

- APC Smart-UPS, 800 Watts / 1000 VA
- Input 230V / Output 230V,
- Interface Port DB-9 RS-232
- Smart slot USB
- Provided with software CD, Smart UPS signalling RS-232 cable and User Manual

Smart-UPS 2200VA USB & Serial 230V (Item Code: SUA200I)

We are amongst the prominent traders of Smart UPS, which is offered at industry leading prices. It has slot for USB connectivity that enables the management of UPS through a USB port. Customers can avail these UPS in different specifications as per their details.

Specifications:

- APC Smart-UPS, 1980 Watts / 2200 VA
- Input 230V / Output 230V,
- Interface Port DB-9 RS-232
- Smart slot USB
- Provided with software CD, Smart UPS signalling RS-232 cable and User Manual

Smart-UPS XL 2200VA 230V (Item Code: SUA2200UXI)

Contact us for a high frequency assortment of Smart UPS, which is manufactured using authentic components. It is made available with a complete CD software, user manual, smart UPS signaling RS-232 cable and USB cable. It is an extended runtime model to give optimum efficiency.

Specifications:

- APC Smart-UPS, 1980 Watts / 2200 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232,
- Smart slot USB, Extended runtime model

Smart-UPS 3000VA USB & Serial 230V (Item Code: SUA3000I)

This upgraded version of APC Smart-UPS gives an output of 2700 Watts / 3000 VA. It has also got USB connectivity through a USB port. We provide this system with a complete set of software CD, USB cable, user manual and Smart UPS signaling RS-232 cable.

Specifications:

- APC Smart-UPS, 2700 Watts / 3000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot, USB

Smart-UPS XL 3000VA 230V (Item Code: SUA3000UXI)

We have in our stores a utility range of Smart UPS, which is used to provide power back up at the time of power failure. These are available in various specifications as detailed by the customers. Our range of Smart UPS is admired for great performance and efficiency.

Specifications:

- APC Smart-UPS, 2700 Watts / 3000 VA

- Input 230V / Output 230V, Interface Port DB-9 RS-232
- Smart slot USB
- Extended runtime model
- Includes: CD software, Smart UPS signaling RS-232 cable, USB cable and User Manual

Smart-UPS XL 5000VA 230V (Item Code: SU5000UXINET)

We are engaged in trading a vital range of Smart UPS, which is available in different models to suit requirements of the clients. This series of UPS is used in households and industries for running electrical appliance at the time of power failure. Sourced from the popular brand 'APC', these products score high on reliability and utility.

Specifications:

- APC Smart-UPS, 3750 Watts / 5000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- RJ-45 10 Base-T ethernet for web/ SNMP/ Telnet management
- Extended runtime model
- Includes: Smart UPS signaling RS-232 cable, User Manual

Numeric UPS

Customers can contact us for a wide range of Numeric UPS, which is class apart in its quality and utility. Sourced from reputed and certified vendors, these products are known for their efficiency and longer service life. It is available in various models and designs to meet customer needs.

Line Interactive

Numeric's Line Interactive UPS systems are designed and developed with precision to cater to the requirements of the single user and distributed networks protection. This Digital Series UPS System is widely demanded across the SME and the SOHO segment for its efficiency and reliability. The new array of Numeric Line Interactive series has sophisticated Plug and Play with highly advance communication possibility.

Features:

- Microprocessor based design
- Built-in AVR
- Extended battery Run time over 2 hours*
- Full time EMI / RFI suppression
- Cold start capability
- LCD display
- Telephone/Modem/Fax/Ethernet line surge protection

- Printer surge protection
- PC interface for all major O/S including advanced SNMP/USB

Double Conversion Online UPS

Customers can avail from us wide range of Numeric built Microprocessor / DSP controlled Numeric Digital Series UPS systems. Owing to technological advancements, the current business operations highly depend on sophisticated hardware and technology solutions. Therefore, we offer this reliable and accurate power protection that has proven its significance in high business availability.

Features:

- Microprocessor / DSP controlled Design
- PWM technology with IGBTs
- Wide input Voltage range
- Active power factor correction
- High efficiency
- Cold start capability
- Galvanic isolation option
- Compact design, small footprint
- Rack and floor mount models
- Easy installation and simple operation
- Versatile communication options
- SNMP interface combined with excellent monitoring options
- Web enabled monitoring

3 Phase UPS

Our series of 3 Phase UPS is sourced from a world renowned brand Numeric. Designed in conformation to latest industry specifications, these hi-tech systems offer total power continuity. It is precisely designed with user centric features to mitigate the adverse effect arises due to power quality problem on the critical equipments.

Applications:

- Telecom / Internet Exchanges
- Process automation
- IT / ITES / BPO
- Manufacturing
- Data centers
- Health care

Smart-UPS On-Line

We offer our clients a premium range of Smart UPS, which is sourced from most reliable vendors. Designed in compliance with the customer requirements, these systems give high performance. Our range of UPS is used to run electrical appliances in absence of electricity.

Smart-UPS RC 1000VA 230V (Item Code: SRC1000UXI)

Our company brings forth APC Smart-UPS On-Line, which is developed using latest technology. These are widely popular in market for their high performance and efficiency. This range of UPS is available in different models as specified by the clients.

Specifications:

- 700 Watts / 1000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot
- Extended runtime model, Rack Height 4 U
- Available with CD software, Rack Mounting brackets, Smart UPS signaling RS-232 cable and user manual

Smart-UPS RC 2000VA 230V (Item Code: SRC2000UXI)

It gives us immense pleasure to offer our clients a utility array of APC Smart-UPS On-Line. It is an extended run time model, which is provided with a complete set of with software CD, rack mounting brackets, smart ups signaling RS-232 cable and user manual. We offer these UPS systems at cost-effective prices.

Specifications:

- 1400 Watts / 2000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot
- Extended runtime model, Rack Height 4 U

Smart-UPS RC 2000VA 230V

This Smart-UPS On-Line range is available in different models to meet the specific requirements of the clients. Precisely engineered, these products are known for their high efficiency and longer service life. This highly advanced array of products is widely demanded across different industries.

Specifications:

- 1400 Watts / 2000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232

- Smart slot
- Extended runtime model
- Rack Height 4 U
- Includes: CD with software, Rack Mounting brackets, Smart UPS signaling RS-232 cable, User Manual

Smart-UPS RC 3000VA 230V

Customers can contact us for a comprehensive collection of Smart-UPS On-Line, which is available in various specifications detailed by the clients. This entire range of UPS is developed using latest technology and high grade components. These are highly appreciated for their longer functional life.

Specifications:

- 2100 Watts / 3000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot
- Extended runtime model
- Rack Height 4 U
- Includes: CD with software, Rack Mounting brackets, Smart UPS signaling RS-232 cable and user manual.

Smart-UPS RC 5000VA 230V (Item Code: SRC5000UXI)

Contact us for an extensive series of Smart-UPS On-Line (Item Code: SRC5000UXI). These systems are very effective in running various electrical appliances at the time of power failure. Customers can avail these systems from us at cost-effective prices.

Specifications:

- 3500 Watts / 5000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot
- Extended runtime model
- Rack Height 2 U
- Includes: CD with software, Rack Mounting brackets, Smart UPS signaling RS-232 cable and user manual

Smart-UPS RC 6000VA 230V

This Smart-UPS range is available in various models to meet the specific requirements of the clients. This highly advanced array of products is widely demanded across different industries. Precisely engineered, these products are known for their high efficiency and longer service life. Specifications:

- APC Smart-UPS On-Line
- 4800 Watts / 6000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Smart slot
- Extended runtime model
- Rack Height 2 U
- Includes: CD with software, Rack Mounting brackets, Smart UPS signalling RS-232 cable, User Manual

Smart-UPS RC 8000VA 230V (Item Code: SRC8000UXI)

This Model of Smart UPS is easy to install and maintain and also minimizes space requirements. Provided with smart slot, it manages UPS through a USB port. These are developed using cutting-edge technology to ensure maximum functional life. It is available in different models as per the requirements of the clients.

Specifications:

- Includes: CD with software, Rack Mounting brackets, Smart UPS signaling RS-232 cable and user manual
- APC Smart-UPS On-Line
- 6400 Watts / 8000 VA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- Extended runtime model
- Rack Height 3 U

Smart-UPS RT 10000VA 230V (Item Code: SURT10000UXI)

Procured from reliable vendors, our array of Smart UPS is widely appreciated for its utmost functionality. This range of Smart UPS is available at cost-effective prices. Having a smart slot for USB connectivity, it enables the management of UPS through a USB port. It is an extended runtime model ensuring maximized performance.

Specifications:

- APC Smart-UPS On-Line

- 8000 Watts / 10 kVA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- RJ-45 10/100 Base-T
- Smart-Slot and rack height 6 U
- CD with software, service manual, smart UPS signaling RS-232 cable, user manual, web/SNMP management card.

Smart-UPS RT 20kVA 230V (Item Code: SURT20KUXI)

Contact us for a high frequency assortment of Smart UPS, which is made available with complete CD software, user manual, smart UPS signaling RS-232 cable and USB cable. Manufactured using authentic components, it is installed with a web/SNMP management Card. It is made available with a complete set of CD software, user manual, smart UPS signaling RS-232 cable and USB cable. It is an extended runtime model to give optimum efficiency.

Specifications:

- APC Smart-UPS On-Line 16 kW / 20 kVA
- Input 230V / Output 230V
- Interface Port DB-9 RS-232
- RJ-45 10/100 Base-T, Smart-Slot
- Rack Height 6 U

Symmetra

Being a certified dealer of APC products, we are committed to offer high quality products to our clients. Our complete array of Symmetra is widely demanded for its features such as protection, convenience and manageability. Customers can get these products from us at reasonable prices.

Symmetra SYA12K16RMI

We offer our customers a highly efficient range of Symmetra SYA12K16RMI, which is developed using authentic parts. These are provided in varied specifications as detailed by the clients. Precisely engineered, this array of products gives sound power back up and has longer functional life.

Specifications:

- APC Symmetra LX 12kVA scalable to 16kVA N+1
- Rack-mount, 220/230/240V or 380/400/415V:
- 8400 Watts / 12 kVA
- Input 230V, 400V 3PH / Output 230V

- Interface Smart-Slot Port DB-9 RS-232
- Extended runtime model
- Rack Height 19 U
- Includes: CD with software, Documentation CD, Web/SNMP Management Card Installation guide and User Manual

Symmetra PX

Our company is engaged in the trading of Symmetra PX, which is procured from APC. We offer these precisely engineered products at cost-effective prices. Available in different models, these are used in households and other industries to providing power back up. Our range of products is appreciated for its efficiency, durability and performance.

We have in our stores a quality series of Back UPS-BR1000-IN. This range of UPS is available in different specifications as provided by the customers. These products are highly acclaimed for their efficiency and performance.

Symmetra PX SY300K500DR-PD

It gives us immense pleasure to offer our clients a wide range of Symmetra PX SY300K500DR-PD. This product provides power back up in the absence of electricity. Available with various models, these are very effective and convenient way to run fans, lights and sensitive electronics during power cuts.

Features:

- 300kW scalable to 500kW with right mounted maintenance bypass and distribution
- A high-performance, 3-phase, modular, scalable, power protection solution
- Industry-leading performance, efficiency and capacity for medium to large data centers and mission critical environments.
- Includes: assembly service, installation guide, network management card, start-up service and user manual

Symmetra MW

We offer our clients premium quality Symmetra MW, which is designed considering the various requirements of the clients. This array of UPS can provide temporary battery power at the time of power failure. These products are easy to handle are provided with audible alarms that provides notification of changing UPS conditions and utility power.

Symmetra MW SYMF400KH

Our company brings forth a highly advanced assortment of Symmetra MW SYMF400KH, which is developed using authentic parts. These are provided in varied specifications as detailed by the

clients. Precisely engineered, this array of UPS gives sound power back up and has longer functional life.

Features:

- Symmetra MW 400kW Frame, 400V
- APC Symmetra MW, 400 kW / 400 kVA
- Input 400V 3PH / Output 400V 3PH
- Interface Port DB-9 RS-232
- RJ-45 10/100 Base-T, RS-485, SYMWSUCBL
- Extended runtime model
- Includes: Installation guide, User Manual

Smart UPS VT

We are amongst the leading traders of highly efficient Smart UPS VT, which possesses the ability to provide power back up to different appliances. This array of UPS is equipped with different hi-tech systems to ensure convenient operations. Moreover, these are noiseless and require low maintenance.

Smart-UPS VT SUVTP30KHS

This range of Smart-UPS VT SUVTP30KHS is widely appreciated in market for its efficiency and performance. Precisely engineered, this range of UPS allows quick and easy better replacement. It is available in a complete set of bolt down brackets, CD with software, Installation guide, Power modules ship installed, network management card, Start-Up Service and user manual.

Specifications:

- It has start-up 5X8, internal maintenance bypass and parallel capability.
- APC Smart-UPS VT, 24 kW / 30 kVA
- Input 400V 3PH / Output 230V, 400V 3PH
- Interface Port DB-9 RS-232
- Smart Slot
- Includes: User Manual

Smart-UPS VT SUVTP20KHS (Item Code: Smart-UPS-VT)

This Model of Smart-UPS VT SUVTP20KHS has internal maintenance bypass and parallel capability that simplifies installation & maintenance and also minimizes space requirements. These are developed using cutting-edge technology to ensure maximum functional life. It is available in different models as per the requirements of the clients.

Specifications:

- APC Smart-UPS VT 20kVA 400V, w/Start-Up 5X8

- APC Smart-UPS VT, 16 kW / 20 kVA
 - Input 400V 3PH / Output 230V, 400V 3PH
 - Interface Port DB-9 RS-232
 - Smart-Slot
- Includes: CD with software, installation guide, power modules ship installed, user manual and network management card

Smart-UPS VT SUVTP40KHS

Procured from APC, our range of Smart-UPS VT SUVTP40KHS is widely appreciated for its optimum functionality. This range of Smart UPS is available at cost-effective prices. Having installed with power modules ship, it enables smooth operation and high efficiency.

Specifications:

- APC Smart-UPS VT 40kVA 400V, w/Start-Up 5X8
- Internal maintenance bypass and parallel capability:
- APC Smart-UPS VT, 32 kW / 40 kVA
- Input 400V 3PH / Output 230V, 400V 3PH
- Interface Port DB-9 RS-232
- Smart-Slot
- Extended runtime model
- Includes: CD with software, installation guide, network management card, installed, start up included and user manual

Emerson UPS

Our wide range of Emerson UPS is highly efficient in keeping computer rooms, network closets and data center infrastructure up and running. This range of UPS is highly acclaimed for their efficiency and performance. We are available with various models of these products, which are widely demanded in the market.

Desktop and Workstation UPS

It gives us immense pleasure to offer our clients a wide range of Desktop and Workstation UPS, Off-line, power strips ideal for PCs, sensitive electronic equipment and line-interactive uninterruptible power supply (UPS) systems. These systems offer a very effective way to keep fans, lights and sensitive electronics running during power cut. This array of UPS can provide temporary battery power at the time of power failure.

Rackmount UPS

Contact us for a high frequency assortment of **Smart UPS**, which is manufactured using authentic components. These systems provide uninterruptible power supply (UPS) at power

failure. Our range of UPS is known for features like reliability & flexibility and is required by networks and electronics in rack environments.

Network UPS

Our range of Network UPS delivers complete and centralized power protection for various mission-critical systems. These are specifically designed to meet the high availability power requirements of a wide variety of IT applications. This UPS also score on its advanced operating features, compact size and low cost of ownership.

Large Facility UPS

The Large Facility UPS that we supply provides a scalable solution to optimize data center power design. This range of UPS is true on-line, three-phase, double conversion systems having installed with Softscale™ technology. Customers can avail this UPS in different specifications as per their details.

MGE Galaxy 3500

We have in our stores a utility range of MGE Galaxy 3500, which is used to provide power back up at the time of power failure. These are available in various models that are designed as per the specifications detailed by the customers. Our range of Smart UPS is admired for great performance and efficiency.

MGE Galaxy 3500 15kVA 400V, Start-Up 5X8 MGE Galaxy 3500 15kVA 400V, Start-Up 5X8

We have in our stores MGE Galaxy 3500 UPS, which is supplied without batteries. These systems are with either with internal long life modular batteries (SYBTH4) or external third party battery system. It includes a complete set of accessories like bolt down brackets, CD with software, installation guide, network management card, power modules ship installed, Smart UPS signaling RS-232 cable, Start-Up Service and user manual.

MGE Galaxy 3500 20kVA 400V, Start-Up 5X8 (Item Code: G35T20KHS)

APC MGE Galaxy 3500 UPS - supplied without batteries. To be used with either external third party battery system, or with internal long life modular batteries (SYBTH4). Includes: Bolt down brackets, CD with software, Installation guide, Network Management Card, Power modules ship installed, Smart UPS signalling RS-232 cable, Start-Up Service, User Manual *Repeated information so ignored*

We offer our clients premium quality MGE Galaxy 3500 series of UPS, which is designed considering the various requirements of the clients. This array of UPS can provide temporary battery power at the time of power failure. These products are easy to handle are provided with audible alarms that provides notification of changing UPS conditions and utility power.

MGE Galaxy 3500 40kVA 400V, Start-Up 5X8

Customers can contact us for high quality APC MGE Galaxy 3500 UPS, which is either used with third party battery system or with internal long life modular batteries (SYBTH4). These are offered with accessories such as Smart UPS signaling RS-232 cable, Start-Up Service, user manual, bolt down brackets, CD with software, installation guide, network management card and power modules ship installed.

MGE Galaxy 5000

It gives us immense pleasure to bring forth a wide range of MGE Galaxy 5000. This UPS provides power back up in the absence of electricity supply and is very effective and convenient way to keep fans, lights and sensitive electronics running in absence of power supply. This range of UPS is available in various models to meet client's requirements.

MGE Galaxy 5000 120 kVA (Item Code: G5TUPS120)

We offer our clients a highly efficient range of MGE Galaxy 5000 UPS, which is a versatile 3-phase UPS. It finds its usage in industrial and data center applications. These can be configured system with a wide range of accessories to suit the application demands. It is provided with installation guide and User Manual.

MGE Galaxy PW

Our company is amongst the leading traders of MGE Galaxy PW UPS, which has the ability to provide efficient power back up to a number of appliances. These are appreciated for noiseless operation low maintenance cost. This array of UPS is equipped with both audible and indication alarm function for the ease of operations.

MGE Galaxy PW 160kVA

Performance 3 phase power protection designed for flexibility in order to meet a wide range of requirements: from data centers to industrial and facilities applications.

Includes: Installation guide, User Manua: *Repeated info*

We have in our stores a utility range of MGE Galaxy PW 160kVA, which is used to provide continuous power supply at the time of power failure. It makes the different appliance to run for a longer time in the absence of electricity. These are made available in various models to meet specific customer requirements.

MGE Galaxy 7000

MGE Galaxy 7000 is an upgraded version of APC UPS that gives high efficiency and performance. This range of UPS is easy to install, handle and maintain. It makes the different appliance to run for a longer time at the time of power failure. We offer MGE Galaxy series at industry leading prices.

MGE Galaxy 7000 300 kVA
