# NN-Bamboo

## External Battery

The charger supports smartphone,MP3,MP4 and most of the DC 5V USB input digital electronic product.

Thank you for your selecting NEWNOW products.  
Before operating,please read this manual carefully  
and follow the instructions to operate properly.

## Product operation

---

### How to charge NN-Bamboo (Chart 1 \ Chart 2)

1. Use your original USB data cable or our standard cable to connect USB cable and device connector;
2. Put the USB charge cable into mobile power USB input port to connect the device and mobile power;
3. The LED indicators flicker orderly;
4. All Led indicators flicker simultaneously when full charging.

Please remove the power source after full charging.

### Use NN-Bamboo to charge smart phone or digital electronic products (Chart 3)

1. Check whether charging voltage of digital electronic products is matched with output voltage(DC 5V) of NN-Bamboo;
2. Connect one end of the original USB cable with consumer electronics, and the other end of cable with NN-Bamboo. Press the button and start to charge.

## Remaining power indication

Pressing the key, if 3 indicator lights are ON, the power of Bamboo goes between 100%-67%; if 2 indicator lights are ON, the power of Bamboo goes between 66%-34%; if 1 indicator light is ON, the power goes between 33%-1%; if there are no indicator lights ON, the Bamboo requires charging. Displaying the state of charging, the Bamboo enters power saving mode after approximately 5 minutes.

LED Light ( ● ON ○ OFF )	Power level
○ ○ ○	0%
● ○ ○	1%~33%
● ● ○	34%~66%
● ● ●	67%~100%

After pressing the key, LED indicator light is ON for 30S, and then it is OFF. It enters into power saving mode after approximately 5 minutes. If sense is required to charge digital product, press the key to activate power saving mode.
