

# Xda™ II

The Xda II – the ultimate handheld device for work and play.

A PDA and mobile handset stylishly combined to give you the best of both worlds when you connect to O<sub>2</sub>.

## Surf

Fast and reliable full colour Internet access whilst mobile – with no wires.

## Stay in touch

Use the Xda II as a mobile to make and receive calls and text messages at home and abroad.

## Work smarter

Manage your time and resource more effectively when you're away from your PC.

## Take the office with you

Make time out of the office work for you. Prepare for meetings while you are on the way. Review documents, listen to messages, check your appointments.

## Sort out your personal life

Shop online, book holidays, monitor your bank account. The possibilities are endless.

## Have some fun

With the time you have saved you can take a break and have fun. Chat in your favourite online chat room, keep up-to-date on sports results, play games on the go. It's got an integrated camera so you can create, send and receive pictures and video clips using media messaging.

# Xda II

The revolutionary all-in-one handheld exclusively from O<sub>2</sub>. The Xda II is an internet-ready Pocket PC and a state-of-the-art mobile phone stylishly combined to give you the best of both worlds.

With the Xda II you can...

## Email

Send and receive internet based email from wherever you are, subject to network coverage.

Use your favourite internet based email – Hotmail®, Yahoo!® and others...

Include attachments.

No need to change your email address.

Pick up your work (POP3 and IMAP4) email and keep control of your inbox.

## Make a call

Use it just like a normal mobile to make and receive calls – even when you're surfing.

Use wherever we have GSM/GPRS coverage at home and abroad including USA and Canada.

Use it to send text messages.

Use it to pick up your voicemail.

Copy your SIM card contacts list straight into your Xda II contacts.

Comes with a stereo quality headset for ease of use.

## Access the internet

From wherever you are, subject to network coverage.

Access any web site you like in full colour.

All-in-one solution – everything you need to access the internet is already under the bonnet. No messy wires or add-on kit.

Simple to use – subscribe to our Mobile Web service then put in your O<sub>2</sub> SIM card, click and surf away.

## Have fun

Send and receive media messages.

Take video clips and photos using the built-in camera and enhanced colour screen.

Listen to your favourite music.

Watch your favourite video clips.

Play games.

Give your Xda II a personal touch by downloading new wallpaper "skins".

Use MSN Instant Messaging to chat to your online friends.

Read electronic books.

Send text messages too.

And you can also...

## Take the office with you

**When one plus one is more than two...**

The Xda II combines a handheld PC/PDA with a mobile phone to give you a host of useful functionality. You will wonder how you managed without it.

Make a call or send an email straight from within your contacts list.

Create a document in MS Word or MS Excel and email it out straight away.

Check and revise documents on the go.

Access your company's internet site for the latest stock info and pricing.

Check for news on your client on your way to that important meeting with them.

Keep on top of your appointments – view your current appointments, and make new ones. When you get back to the office, sync them all with your work PC, so you're always up-to-date.

Plug the Xda II straight into a projector for presentations.

## Sort out your personal life

Keep an eye on your share portfolio.

Pay your bills, view your account balance, transfer funds.

Organise your next holiday/weekend break.

Check out the weather.

Send a quick email to friends to catch up or chat in your favourite online chat room.

Use instant messaging to tell when your friends are online at the same time as you and have a chat.

## Xda II friendly home page

<http://pda.o2.co.uk>

O<sub>2</sub>'s PDA portal offers access to hundreds of PDA friendly web sites, applications, downloads, games and the number is growing fast.

A range of PDA sites like news, sports, weather, travel, showbiz and music news.

A range of applications you can put to work for you straight away e.g. get driving directions from Multimap.

Downloads galore\*\* e.g. Budget tools, a powerful PowerPoint presentation viewer, an electronic shopping list, and a map of the tube.

And we've got games e.g. tennis and golf or build your own city from the ground up.

**It's also an Xda II friendly site for business people providing...**

The latest business news from ITN in one location.

A single mailbox for voice, email and fax messages.

Time saving information at your fingertips, enabling you to:

Log in to the DTI web site for your latest industry information.

Track your important parcel on the DHL courier site.

Access flight status information on the British Airways PDA site.

All available whilst you are on the move.

\*\* additional charges for each download apply.

Hotmail is either a registered trademark or trademark of Microsoft Corporation in the United States and/or other countries. Yahoo! is a trademark of Yahoo! Inc.

# Xda II

The Xda II is a PDA and mobile handset all-in-one.  
It's an enhanced version of the highly successful Xda.

## Performance

- Intel® 400 MHz CPU for faster performance
- 64MB Flash ROM and 128MB RAM giving you more application space.

## Features

- The latest Microsoft® Pocket PC software
- 64k colour LCD display means the picture quality is great for viewing Microsoft® PowerPoint® slides
- Built-in camera and an enhanced colour screen so you can create and send messages using pictures, sound and video
- Presentations are simple to give when you plug it straight into a projector
- Removable battery lets you swap batteries to extend using it when you're out and about.

## Functionality

- Tri-band – it'll work in the USA and Canada as well as other countries
- Wireless connectivity to other devices using Bluetooth™ 1.1 and a Wireless LAN card.

The Xda II uses our Mobile Web service too so you can access the internet and internet-based email.

Intel is a trademark or registered trademark of Intel Corporation or its subsidiaries in the United States and other countries.

Microsoft and PowerPoint are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries.

Bluetooth is a trademark owned by the Bluetooth SIG, Inc.

You can use the Xda II anywhere we've got GPRS coverage – that's 99% of the UK and over 30 countries around the world.

## Who can have it?

To get your hands on an Xda II, all you need to do is connect to one of our pay monthly calling plans and/or data tariffs.

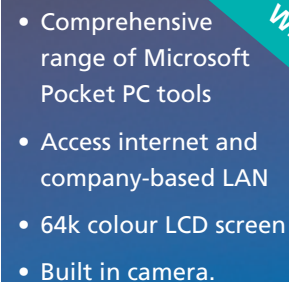

## What's new with the Xda II?

- Bluetooth 1.1 giving wireless connectivity to other devices
- MMC/SD card slot supports SDIO – wireless LAN card via SD slot
- Integrated camera for MMS and video
- Integrated antenna making the Xda II look even more attractive
- Removable battery so that you can keep a spare charged up.

## For your business

Providing an Xda II for your sales people means you can contact them instantly by email, MMS or phone. You can be more responsive and save time by emailing customer requests and contracts into the office while you're still with them.

If you use our GPRS data services, such as Mobile Web VPN and Extended Office, you can access your corporate email and LAN.

- 
- Comprehensive range of Microsoft Pocket PC tools
  - Access internet and company-based LAN
  - 64k colour LCD screen
  - Built in camera.
