Use Guidelines & Care: Equipment components are shock-resistant, water-resistant and dustproof for use in the most hazardous environments, however it is of the utmost importance to use extreme care when handling the equipment. Please follow these guidelines when using the video equipment:

- Store your equipment in a cool, dry place.
- Clean and dry the equipment after every use.
- The equipment may be submerged in one meter of water for up to 30 minutes at a time. If the unit will be used in a wet environment make sure that all ports and connections are completely sealed. In addition, if you plan on submerging the unit you must use the waterproof case. Finally, it is important to rinse the device with freshwater after use in a saltwater or chlorinated environment.
- A philips head screw driver will be needed to make adjustments to camera mounts. In addition, zip ties and Velcro strips may be helpful, but are not included.
- Please delete all data from units before returning them.

In addition to these simple guidelines, the student agrees to read the P.O.V.1.5 User Manual before each use and follow all instructions and warnings: [http://www.vio-pov.com/manuals/POV15\\_User\\_Manual.pdf](http://www.vio-pov.com/manuals/POV15_User_Manual.pdf)
