Setting up the Digital Photo Frame

1. Plug the appropriate end of the AC adapter into a power outlet and the other end into the Digital Photo Frame.
2. After you've stored content on a flash media card (not included), insert the card into the proper slot (see page 2).

Connecting a USB Device to the Digital Photo Frame

1. The Digital Picture Frame has a built-in mini-USB port. If you would like to connect the USB device (such as a USB flash drive) to the Digital Picture Frame with a full-size port, please use the USB Connection Cable" included with the digital picture frame. This included cable has a male mini-size USB port and a female full-size USB port.
2. It is recommended that you turn off your USB device and the Digital Picture Frame before connecting the USB device.
3. This Digital Picture Frame cannot be connected to a computer.

NOTE: DO NOT TAKE THE MEMORY CARD OUT OF THE SLOT WHILE THE PICTURES ARE STILL PLAYING OR WHEN THE POWER IS STILL ON. THIS COULD DAMAGE THE FRAME OR THE MEMORY CARD. ALWAYS TURN THE POWER OFF BEFORE REMOVING THE MEMORY CARD.

Navigating in the Digital Photo Frame

Slide show Screen

Turning the digital photo frame on will initiate a photo slide show, provided the inserted memory card has photo files.
