K-2369

Important! Please quote the above model number(s) when ordering spares

IMPORTANT

INSTALLER: THIS MANUAL IS THE PROPERTY OF THE CUSTOMER AND MUST BE RETAINED WITH THE PRODUCT FOR MAINTENANCE AND OPERATIONAL PURPOSES.

DIMENSIONS

INSTALLATION

General

1. Make sure that the basin is installed by a competent installer.
2. Before installation carefully inspect the product for any signs of damage.

Install the Basin

Caution! Risk of product damage. Do not overtighten connections.
Position the white foam pad on the countertop at the installation location.

Important! The white foam pad provided may be placed on the countertop to enhance the colour of the basin. If you are planning to install your basin with the foam pad, use care to not damage or mark-up the pad when locating the drain hole location.

1. Trace the drain hole onto the countertop.
2. Remove the foam pad and set aside.
3. Drill a 41 mm (1-5/8") hole, at the marked location
4. Optional: Place the white foam pad on the countertop and line up the hole in the white foam pad with the drain hole.
5. Discard the gasket supplied with the drain.
6. Slide the foam gasket onto the drain body.
7. Insert the drain body into the basin drain hole.
8. Roll the O-ring onto the drain body. Roll the O-ring up the drain body until it is seated in the underside of the basin.

9. Align the basin and drain body assembly with the drain hole in the countertop. Lower the drain body through the countertop drain hole until the basin rests on the countertop.
10. Slide the washer onto the drain body.
11. Thread the nut onto the drain body.
12. Tighten the nut until secure, making sure the drain is properly centered in the basin. Do not overtighten.

Complete the Installation

Important! When installing the tap, the water should contact the basin in the area shown in the diagram for best performance.

1. Apply a thin bead of clear silicone sealant where the basin meets the countertop.
2. Install the tap in accordance with the tap manufacturer's instructions.

USER MAINTENANCE

Cleaning

Many household cleaners contain abrasive and chemical substances, and should not be used for cleaning plated or plastic fittings.

These finishes should be cleaned with a mild washing up detergent or soap solution, and then wiped dry using a soft cloth.
