

OEM-1300 Universal Data Converter

Installation User Manual

Thank You!

Congratulations on the purchase of your OEM-1300 device(s). RF IDeas hopes you enjoy using the readers as much as we enjoyed creating and developing them. Configuration is easy, so you will be able to quickly take advantage of a more secure environment in your business, school, or organization.

Please call our Sales department if you have any questions or are interested in our OEM and Independent Developer's programs.

We look forward to your comments and suggestions for our product line! Please go to www.RFIDeas.com and follow the **Support** ⇒ **Learning Center** link for more details about our product line.

We are always discovering new applications for our product line(s). There are several software developer's licensing our technology so the solution you are looking for may already be developed.

Thank you,
The RF IDeas Staff

Product Description

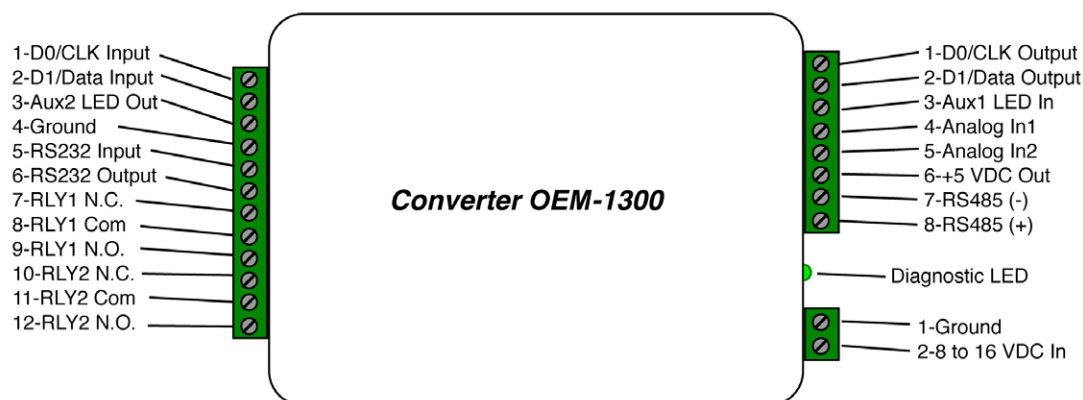

The RF IDEas OEM-1300 is based on the OEM-1200 series converter. For most legacy converter functions, the DIP switch settings will be set the same as with the OEM-1200.

This document provides a quick reference to the OEM-1300 converter connections and switch settings. Refer to the OEM-1300 operating manual for detailed information on specific conversion functions.

A Diagnostic LED is provided for operational status of the converter:

- Diagnostic LED OFF - No power
- Diagnostic LED Blinking Green - Unit is operating
- Diagnostic LED Red - Undefined DIP Switch Setting

External Connections

Note: Terminals shown for reference. Connections may or may not be utilized based on converter function.

Mechanical Specifications

Physical	Aluminum Enclosure	Size: 3.5" x 2.75" x .75"
Temp	Storage: -55°C to +150°C	Operating: -40°C to +85°C
Humidity	95% non-condensing	
Power	Input: Unreg Input 8 to 24vDC @ 100ma Max +5vDC @ 100ma Max (10% ripple) Output: (with 8 to 24v Unreg IN): +5vDC @ 250 ma	
Data I/O	Interface: Reader - Wiegand, Strobed (Clock & Data), F/2F LED - 0 to 30v	

Initial Setup

The OEM-1300 will support many different input and output formats.

The OEM-1300 replaces the OEM-1200.

A DIP switch determines which conversion process will be used.

A “Legacy” cross reference chart is provided to quickly determine which settings to use for standard converter numbers. In most cases several baud rate options are available to expand the capabilities of existing converters. The Legacy cross reference chart will list the converter CVT number and the OEM numbers and the DIP switch setting that will apply. Use the converter numbers to find the DIP switch settings on the OEM-1300 application charts.

Setting Up The Converter

Setting up the OEM-1300 converter:

1. First determine which converter (conversion process) is required for the application. This may be one of the standard converters or one of the new converters that are now part of the OEM-1300 library. All of the different conversion processes are described in detail in this manual. Each process will have a wiring diagram and specification sheet to describe the wiring connections and operation.
2. Set the DIP switch to the setting called out in the OEM application chart.
3. Refer to the wiring diagram for the particular converter that is being used. The wiring diagrams are different depending upon the type of conversion being performed.
4. Connect power to the OEM-1300 board.
5. If the diagnostic indicator LED flashes Green slowly, a valid converter number has been selected. If the diagnostic indicator is illuminated a solid Red color, an invalid DIP switch setting has been made.
6. Connect peripheral devices (Readers, Panel, Switches etc.) according to the appropriate wiring diagram.

Legacy Converter

Legacy Converter Example: You need a CVT-2232 that operates at 2400 Baud.

The Legacy Compatibility chart calls out numbers 1, 2, and 3.

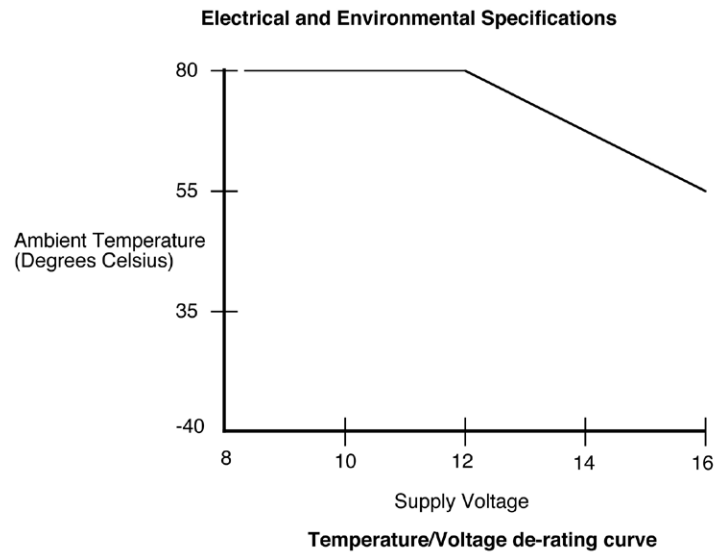

Looking at the application charts for #1, #2, and #3 lists 3 baud rates.

Selecting the 2400 Baud rate for OEM converter #2 would yield a DIP switch setting of:

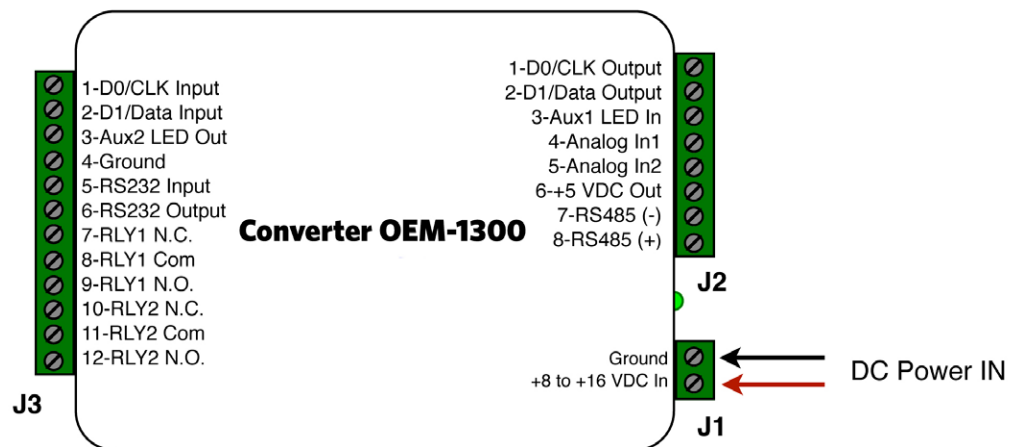

- 1 OFF
- 2 ON
- 3 OFF
- 4 OFF
- 5 OFF
- 6 OFF
- 7 OFF
- 8 OFF

The wiring diagram would reference the Wiegand to Serial connections.

NOTE: The OEM-1300 does not use an onboard DB type connector for RS-232 serial signals. Serial connections can be made directly to the 12 position connector. An optional patch cord is available with a Female DB-9 connector and flying leads. The wiring diagrams indicate the equivalent DB-9 connections to the OEM-1300 J3 connector.

The OEM-1300 units should be operated with a filtered 12 Volt nominal DC supply. Any voltage between 8 and 16 volts can be utilized by following the temperature/voltage de-rating curve. Voltage should not exceed 16 VDC under normal operating conditions.

OEM-1300 Serial data and RS-485

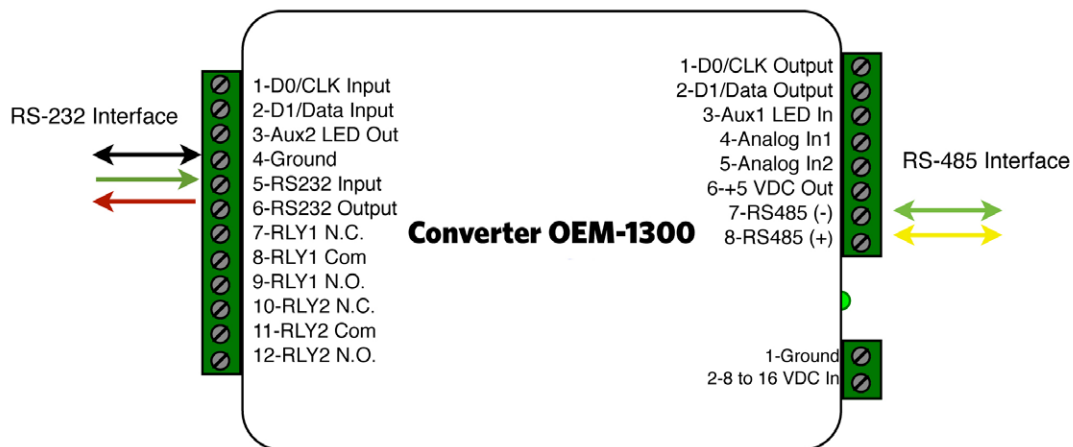

The OEM-1300 can support both RS-232 and RS-485 signals for transmitting and receiving serial data. For most converters utilizing serial data, both interfaces are always active and may be used by making the appropriate connections to the converter. Either the RS-232 or RS-485 interface may be used, but a loss of data will occur if both interfaces have active data at the same time.

Examples:

The CVT-2232 function will provide a serial input and convert to a Wiegand output. Serial data can be read from either the RS-232 or RS-485 interface. The baud rate will be determined by the DIP switch setting.

The CVT-9110 function will provide a Wiegand input and a serial output. Serial data will be output on the RS-232 and RS-485 interface.

NOTE: Some of the OEM-1300 converters may not support both RS-232 and RS-485 interfaces. Converters that do not support both interfaces will be noted in the specific converter specification.

OEM-1300 Legacy Compatible Formats

Converter	Input	Output	Settings(#)
CVT2232	Wiegand 24 to 40	Serial 13 Digits with <CR>	1 , 2 , 3
CVT-2111	Wiegand 1 to 40	Serial Dec/Hex Digits	7, 8, 9
CVT-2110	Wiegand 1 to 48	SerialHex Digits	10 , 11, 12

Must be installed as shown.
Resistor values between 1k and 10k
should work. Both resistors should be the
same value

Before You Call Technical Support

Please make sure you've identified your reader model and credential type being used. Have this information ready so that your call will be routed to the correct specialist.

For Assistance:

Ph: 847.870.1723

E: TechSupport@RFIDeas.com

Talking To The Technician

Provide the reader model being used to the Technical Support Specialist.

Explain your problem to the specialist.

Be prepared to provide the following information:

- Error/problem explanation
- What you were doing when the problem occurred
- What steps you have taken to resolve the problem, including results from each steps

Listen and follow the steps provided by the specialist. Let the specialist know what happens when you perform the steps.

END-USER LICENSE AGREEMENT

LICENSE AGREEMENT

End-User License Agreement for RF IDEas™ SOFTWARE and HARDWARE - RF IDEas' pcProx®, Proximity Activated Readers, Software Developer's Kit, and Proximity Reader DLLs, and Protocol(s).

IMPORTANT-READ CAREFULLY: This End-User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and the manufacturer RF IDEas ("Manufacturer") with which you acquired the RF IDEas software and hardware product(s) identified above ("PRODUCT"). The PRODUCT includes the RF IDEas reader, computer software, the associated media, any printed materials, and any "on line" or electronic documentation. By installing, copying or otherwise using the PRODUCT, you agree to be bound by the terms of this EULA. The SOFTWARE PORTION OF THE PRODUCT includes the computer software, the associated media, any printed materials, and any "on line" or electronic documentation. By installing, copying or otherwise using the PRODUCT, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, RF IDEas is unwilling to license the PRODUCT to you. In such event, you may not use or copy the SOFTWARE PORTION OF THE PRODUCT, and you should promptly contact the vendor you obtained this PRODUCT from for instructions on return of the unused product(s) for a refund.

The products described in this publication are intended for consumer applications. RF IDEas assumes no liability for the performance of product. RF IDEas products are not suitable for use in life-support applications, biological hazard applications, nuclear control applications, or radioactive areas. None of these products or components, software or hardware, are intended for applications that provide life support or any critical function necessary for the support of protection of life, property or business interests. The user assumes responsibility for the use of any of these products in any such application. RF IDEas shall not be liable for losses due to failure of any of these products, or components of these products, beyond the RF IDEas commercial warranty, limited to the original purchase price.

SOFTWARE PRODUCT LICENSE The PRODUCT is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The SOFTWARE PORTION OF THE PRODUCT is licensed, not sold.

1. GRANT OF LICENSE. This EULA grants you the following rights: *Software. You may install and use one copy of the SOFTWARE PORTION OF THE PRODUCT on the COMPUTER. *Network Services. If the SOFTWARE PORTION OF THE PRODUCT includes functionality that enables the COMPUTER to act as a network server, any number of computers or workstations may access or otherwise utilize the basic network services of that server. The basic network services are more fully described in the printed materials accompanying the SOFTWARE PORTION OF THE PRODUCT. *Storage/Network Use. You may also store or install a copy of the computer SOFTWARE PORTION OF THE PRODUCT on the COMPUTER to allow your other computers to use the SOFTWARE PORTION OF THE PRODUCT over an internal network, and distribute the SOFTWARE PORTION OF THE PRODUCT to your other computers over an internal network.

1.1 General License Grant RF IDEas grants to an individual, a personal, nonexclusive license to make and use copies of the SOFTWARE PRODUCT for the sole purposes of designing, developing, and testing your software product(s) that are designed to operate in conjunction with any RF IDEas designed proximity reader product. You may install copies of the SOFTWARE PRODUCT on an unlimited number of computers provided that you are the only individual using the SOFTWARE PRODUCT. If you are an entity, RF IDEas grants the right to designate one individual within your organization to have the sole right to use the SOFTWARE PRODUCT in the manner provided above.

1.2 Documentation. This EULA grants an individual, a personal, nonexclusive license to make and use an unlimited number of copies of any documentation, provided that such copies shall be used only for personal purposes and are not to be republished or distributed (either in hard copy or electronic form) beyond the user's premises and with the following exception: you may use documentation identified in the SOFTWARE PRODUCT as the file format specification for RF IDEas' proximity readers solely in connection with your development of software product(s) or an integrated work or product suite whose components include one or more general purpose software products.

1.3 Storage/Network Use. You may also store or install a copy of the SOFTWARE PRODUCT on a storage device, such as a network server, used only to install or run the SOFTWARE PRODUCT on computers used by a licensed end user in accordance with Section 1.1. A single license for the SOFTWARE PRODUCT may not be shared or used concurrently by other end users.

1.4 Sample Code. RF IDEas grants you the right to use and modify the source code version of those portions of the SOFTWARE PRODUCT identified as "Samples in the SOFTWARE PRODUCT ("Sample Code") for the sole purposes to design, develop, and test your software product(s), and to reproduce and distribute the Sample Code, along with any modifications thereof, only in object code form.

2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.

*Limitations on Reverse Engineering, Decompilation and Disassembly. You may not reverse engineer, decompile, or disassemble the PRODUCT, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation

*You may not reproduce or otherwise emulate, in whole or in part, any form the protocol(s) defined within this PRODUCT for use without a RF IDEas PRODUCT Redistributable Code. If you are authorized and choose to redistribute Sample Code ("Redistributables") as described in Section 1.4, you agree to: (a) distribute the Redistributables in object code only in conjunction with and as a part of a software application product developed by you using the PRODUCT accompanying this EULA that adds significant and primary functionality to the SOFTWARE PRODUCT ("Licensed Product"); (b) not use RF IDEas' name, logo, or trademarks to market the Licensed Product; (c) include a valid copyright notice on the Licensed Product; (d) indemnify, hold harmless, and defend RF IDEas from and against any claims or lawsuits, including attorney's fees, that arise or result from the use or distribution of the Licensed Product; (e) otherwise comply with the terms of this EULA; and (g) agree that RF IDEas reserves all rights not expressly granted. You also agree not to permit further distribution of the Redistributables by your end users except: (1) you may permit further redistribution of the Redistributables by your distributors to your end-user customers if your distributors only distribute the Redistributables in conjunction with, and as part of, the Licensed Product and you and your distributors comply with all other terms of this EULA; and (2) in the manner described in Section 1.4.

*Separation of Components. The PRODUCT is licensed as a single product. Its component parts may not be separated for use on more than one computer.

*Single COMPUTER. The PRODUCT is licensed with the COMPUTER as a single integrated product. The PRODUCT may only be used with the COMPUTER.

*Rental. You may not rent or lease the PRODUCT without permission from RF IDEas

*Software Transfer. You may permanently transfer all of your rights under this EULA only as part of a sale or transfer of the COMPUTER, provided you retain no copies, you transfer all of the PRODUCT (including all component parts, the media and printed materials, any upgrades, this EULA and, if applicable, the Certificate(s) of Authenticity), AND the recipient agrees to the terms of this EULA. If the PRODUCT is an upgrade, any transfer must include all prior versions of the PRODUCT.

*Termination. Without prejudice to any other rights, RF IDEas may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the SOFTWARE PORTION OF THE PRODUCT and all of its component parts..

3. UPGRADES. If the SOFTWARE PORTION OF THE PRODUCT is an upgrade from another product, whether from RF IDEas or another supplier, you may use or transfer the PRODUCT only in conjunction with that upgraded product, unless you destroy the upgraded product. If the SOFTWARE PORTION OF THE PRODUCT is an upgrade of a RF IDEas product, you now may use that upgraded product only in

accordance with this EULA. If the SOFTWARE PORTION OF THE PRODUCT is an upgrade of a component of a package of software programs which you licensed as a single product, the SOFTWARE PORTION OF THE PRODUCT may be used and transferred only as part of that single product package and may not be separated for use on more than one computer.

4. OEM COPYRIGHT. All title and copyrights in and to the PRODUCT (including but not limited to images, photographs, animations, video, audio, music, text and "applets," incorporated into the PRODUCT), the accompanying printed materials, and any copies of the SOFTWARE PORTION OF THE PRODUCT, are owned by RF IDEas or its suppliers. The PRODUCT and SOFTWARE PORTION OF THE PRODUCT is protected by copyright laws and international treaty provisions. You may not copy the printed materials accompanying the PRODUCT.

5. DUAL-MEDIA SOFTWARE. You may receive the SOFTWARE PORTION OF THE PRODUCT in more than one medium. Regardless of the type or size of medium you receive, you may use only one medium that is appropriate for your single computer. You may not use or install the other medium on another computer. You may not loan, rent, lease, or otherwise transfer the other medium to another user, except as part of the permanent transfer (as provided above) of the SOFTWARE PORTION OF THE PRODUCT.

6. OEM PRODUCT SUPPORT. Product support for the product is not provided by RF IDEas or its subsidiaries. For product support, please refer to the OEM supplies support number provided in the documentation. Should you have any questions concerning the EULA, or if you desire to contact OEM for any other reason, please refer to the address provided in the documentation provided.

FOR THE LIMITED WARRANTIES AND SPECIAL PROVISIONS PERTAINING TO YOUR PARTICULAR JURISDICTION, PLEASE REFER TO YOUR WARRANTY BOOKLET INCLUDED WITH THIS PACKAGE OR PROVIDED WITH THE SOFTWARE PRODUCT PRINTED MATERIALS.

Limited Warranty: RF IDEas warrants to the original buyer of this product, that the hardware and related disk(s) are free of defects in material and workmanship for a period of one year from date of purchase from RF IDEas or from an authorized RF IDEas dealer. Should the RF IDEas products fail to be in good working order at any time during the one-year period, RF IDEas will, at its option, repair or replace the product at no additional charge, provided that the product has not been abused, misused, repaired or modified. This warranty shall be limited to repair or replacement and in no event shall RF IDEas be liable for any loss of profit or any commercial or other damages, including but not limited to special, incidental, consequential or other similar claims.

No dealer, distributor, company, or person has been authorized to change or add to the terms of this agreement, and RF IDEas will not be bound by any representation to the contrary. RF IDEas SPECIFICALLY DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS OF PURPOSE. Since some states do not allow such exclusion of limitation of incidental or consequential damages for consumer products, check the statute of the state in which your business resides. This warranty gives you the specific legal rights in addition to any rights that you have under the laws of the state in which your business resides or operates.

Returns: RF IDEas products which require Limited Warranty service during the warranty period shall be delivered to the nearest authorized dealer or sent directly to RF IDEas at the address below with proof of purchase and a Return Materials Authorization (RMA) Number provided by RF IDEas Technical Support Dept. Replacement parts or complete boards become the property of RF IDEas. If the returned board or unit is sent by mail, the purchaser agrees to pre-pay the shipping charges and insure the board or unit or assume the risk of loss or damage which may occur in transit. The purchaser is expected to employ a container equivalent to the original packaging.

Copyright: Copyright by RF IDEas. All rights reserved. Reproduction or distribution of this document in whole or in part or in any form is prohibited without express written permission from RF IDEas.

Trademarks: All RF IDEas products are trademarks of RF IDEas. All other product names or names are trademarks or registered trademarks of their respective holders.

Applicable Patents: RF IDEas pcProx Plus card readers supporting HID formats retain US Patent No. 5,952,935 and U.S. Patent No. 7,439,862.

Disclaimer: This Reference Guide is printed in the U.S.A. Any resemblance mentioned in the Reference Guide to persons living or dead, or to actual corporations or products is purely coincidental. RF IDEas believes that the information contained in this manual is correct.

However, RF IDEas does not assume any responsibility for the accuracy of the content of this User Manual, nor for any patent infringements or other rights of third parties. RF IDEas reserves the right to make any modifications in either product or the manual without giving prior written notification.

"Pursuant to FCC 15.21 of the FCC rules, changes not expressly approved by RF IDEas might cause harmful interference and void the FCC authorization to operate this product.

Changes to this product not expressly approved by RF IDEas will void the user's authority to operate the equipment.

Note: This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This product complies with FCC OET Bulletin 65 radiation exposure limits set forth for an uncontrolled environment.

The reader may not recognize value cards in the presence of high RF fields. If the current reading is erratic, the user shall take the following step: Move the equipment from any known transmitters nearby. For more information contact Tech Support at 866.439.4884.
