1. Brief introduction

Safety Instruction:

Use the following safety guidelines to help to protect yourself and your Tablet PC.

- Do not attempt to service the Tablet yourself. Always follow installation instructions closely.
- Be sure that nothing reset on the AC adapter's power cable and that the cables are not located where it can be tripped over or stepped on.
- Do not cover the AC adapter with paper or other items that will reduce cooling. Also do not use the AC adapter while it is inside a carrying case.
- Use only the AC adapter, power cord, and batteries that are approved for use with this Tablet PC. Use of another type of battery or AC adapter may cause risk of fire or explosion
- If you use an extension cable with the AC adapter, ensure that the total ampere rating of the products plugged into the extension cable does not exceed the ampere rating of the extension cable
- When you move the Tablet PC between environments with very different temperatures and/or humidity ranges, condensation may form on or within the Tablet PC. To avoid damaging the Tablet PC, allow sufficient time for the moisture to evaporate before using the Tablet PC
- When you disconnect a cable, pull on its connector or on its strain relief loop, not on the cable itself. As you pull out the connector, keep it evenly aligned to avoid bending any connector pins. Also, before you connect a cable make sure both connectors are correctly oriented and aligned.

2. Package contents

After opening the package, carefully inspect the contents. If any of the items is missing or appear damaged, contact your dealer. The shipping carton should contain the following:

- a Tablet PC
- an AC adapter with power cord
- user's guide

5. Device Settings

If you start the Tablet PC the first time or you enter the Setup at a later time the device settings screen appears.

5.1. Network

5.1.1 Wifi

For running the Tablet PC you have to connect to the internet. Therefore choose network in the device settings. The Tablet automatically searches for available WI-FI hotspots. If the Tablet PC does not find a WIFI, click on Refresh to search again. If a hotspot is available and a Network Key is required, you have to enter the key. After entering the key, click "save" and "connect". The system now connects to the internet automatically.

Network	+
WIFI	
11er .dl QS 14er (AT-Lower Caso) .dl	Selected Network: SSID - Authoritication - Encyrption - Network Key Save and Connect
Refresh	Current Network SSID QS 14er (AT-Lower Case) Status Connected MAC 48/SDR0-14-BA-93 IP 10 160.14.187

5.1.2 UMTS

If your Tablet PC has the UMTS module installed, choose UMTS and insert the required settings.

After entering the settings, click "save" and "connect". The system now connects to the internet automatically.

5.3 Pin Code

You can set a PIN Code for your Tablet PC to protect your Device Settings. If you enter the Setup, you have to enter this PIN Code first. The PIN Code has to be a number with at least four and a maximum of eight digits. After entering a PIN Code, activate the PIN Code and go back to the Device Settings

PIN Code Security				8
	1	2	3	
	4	5	6	j
	7	8	9	j
	0	<	ОК]

If you do not remember your PIN Code, please write an e-mail to support@funworld.com.

5.4 Language

The default language of your Tablet PC is English. You can change it to any language available by choosing a language and confirm it with Change language. Depending on the software you are using on the Tablet PC, it could happen that this language is not available. Then the software will be running in English

Language		•
