Half-a-million people each year use our HelpKidzLearn.com website. They use it often: about 1.5 million times each month! It's super fun for the youngest youngsters. Find out more on [pages 4-7](#).

The same sort of activities are available on the iPad. The first batch can help with exploring, targeting, talking, counting and choosing. Many more Apps will be available throughout 2012. Take a look at [pages 4-7](#). Sign up for the HelpKidzLearn newsletter and we will keep you posted.

Keeping your iPad safe and accessible is a challenge. Big Grips on [page 8](#) meets that challenge colourfully, comfortably and at little cost. If you need more volume or to use your iPad to communicate check out the iAdapter too.

Large interactive LCD and plasma screens are really coming down in price. They are great for groups of children and many now tilt like tables for individual work. We have been expert on touch screens longer than any other education supplier and I'm sure we can give you just what you want at a price you can afford. It's always worth giving us a call when you are considering large interactive screen or touch tables. See [pages 14-21](#).

With over 5,000 views, our SwitchIt! Video is the most popular we have on YouTube. The very latest SwitchIt! is *SwitchIt! Technology* with TVs, cashpoints, photo booths, car washes, vending machines, lifts, mobile phones and more see [page 33](#).

Finally, in 2012, I should mention *Switch Skills Champions*. You get to play Olympic sports and games and, like *SwitchIt! Bob the Builder*, the entire proceeds go to charity. See [page 33](#).

Do tell me what you think of this catalogue. I'm at martin@inclusive.co.uk. You can also join me on Twitter [@MartinLittler](#) if you are into that sort of thing!

Terms and Conditions

Payment Methods

We accept purchase orders from educational establishments. Invoices for orders placed using a purchase order will be sent out with the delivery, or posted separately to the invoice address if a different delivery address is specified. Fax your purchase order to **01457 819799** or email inclusive@inclusive.co.uk

Payment for orders from private customers and all non-UK customers is required upfront via a credit/debit card or by cheque. If paying by credit or debit card the card must be registered at your billing address.

VAT Charges

All prices shown in this catalogue and on our website are exclusive of VAT. Orders received from UK customers will be subject to VAT at a rate of 20%.

VAT Relief

Certain products that we sell can be purchased at a price exempt from VAT. Please see our website for full details.

Returns Policy

Goods in resalable condition, in all the original packaging, can be returned to us within 100 days of purchase, if in your opinion they are unsuitable and providing that you have honoured our 42 day credit terms (see below).

Some products are exempt from this policy and this is noted on the product page on our website.

Your rights to return goods are also protected under the EU Distance Selling Directive, which can be found at www.hms.gov.uk.

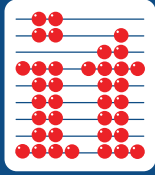

Credit Terms

Payment on orders placed with a purchase order should be made within 42 days of the invoice date. Details of how to make payments will be provided on the invoice.

FREE delivery on UK orders over £100 until 31st December 2012.

Place your order online at www.inclusive.co.uk or via telephone, fax or email.

Page 4: About HelpKidzLearn

Page 5: Games, Activities & Resources

Page 6: HelpKidzLearn Apps

Page 7: HKL Apps Coming Soon

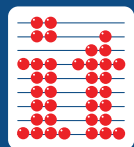

HelpKidzLearn is a fun website for young children and those with learning difficulties to play accessible educational resources online and download new Apps for tablet devices including the iPad.

HelpKidzLearn is already enjoyed by over half a million learners! Now with considerably more activities, games and resources updated regularly to provide a first class service at a modest subscription (launching in Spring 2012). Register for a FREE HelpKidzLearn account today.

- New website coming Spring 2012.
- Regularly updated content.
- 100's of accessible games and activities online.
- Make learning enjoyable and entertaining!

HelpKidzLearn

Games, activities and resources!

Helpkidzlearn is divided into categories to help you choose the right activities for your students. Each category contains dozens of colourful activities that make learning engaging, fun and motivating.

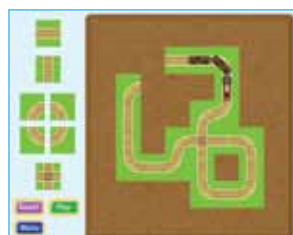

Early Years - A great selection of early learning activities, including beautifully animated early cause and effect programs designed for both touch screen and early switch users.

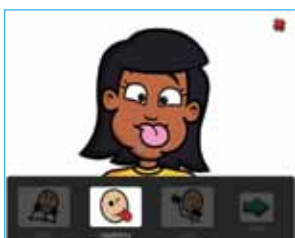

Games - The games section is by far the most popular section of HelpKidzLearn. Learners can expect endless hours of fun and enjoyment from games, such as the traditional Snakes and Ladders game to the cool DJ Master.

Stories - Stories and Songs contain activities that will engage your learners and make it fun. Activities such as *Counting Songs* encourage learners to count from 1 to 5 with a catchy song and a pond full of sharks. This section has a great selection of switch accessible stories from *Inclusive SwitchIt!* Series.

Creative - Train Tracker is the most popular activity on Helpkidzlearn.com - make your own track and watch the train go round and round. Other activities allow you to simply colour a picture or create a monster from different animal parts, the possibilities are endless!

Find Out - Explore Sunny Street and find out about the characters and the sounds they make, or use your switch to explore Mandy's house.

Here is what some of you have told us about HelpKidzLearn activities.

"What a fabulous, interactive song for counting. Great visuals! My littlies love it!"

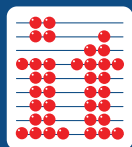

"This has helped my student with an IEP goal for numbers learning his 1-5. All year he has been confused. Within days he has learnt it using this program."

"A great way to involve children – five stars!"

"Oh my gosh, this is awesome!"

"Wonderful program which allows for huge differentiation and extension opportunities."

Enjoy HelpKidzLearn today and have full access to games, resources, future updates and more. www.HelpKidzLearn.com

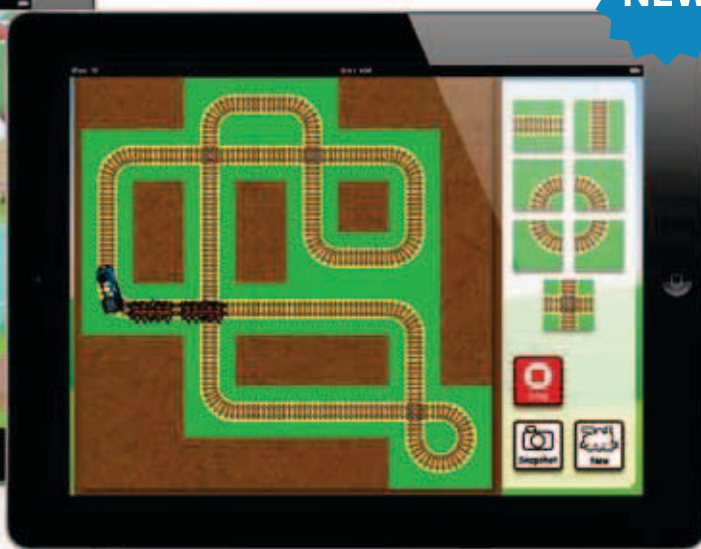

Aimed at early years and children with special needs, these motivational Apps designed by Inclusive Technology have been carefully selected to meet a range of needs.

NEW

5 Sharks Swimming

Train Tracker

Available on
Android Market

Creating - Train Tracker

Drag track pieces on to the play area. Drag them around and join them up to make a railway. Click play to start the train on it's journey.

Gaming - New Age Kurling

An exciting game for two players. Each player has 4 kurls to slide at the numbered target. Who can get the most points?

Exploring - Hidden Grid

Drag your finger around the screen to reveal coloured shapes and patterns with different sound effects that change pitch.

Counting - Five Sharks Swimming

Learn about numbers one to five. The song will stop at the end of the verse and a simple touch of the screen will continue the counting song.

Targeting - Peeping Musicians

Watch for the musician as he or she 'peeps' from the top or side of the screen. Simply touch them to make them play a piece of music.

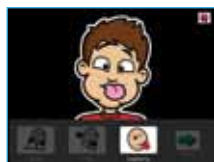

Choosing - Aunty Maggie's Recipe

Brew your own potion with Aunty Maggie's cauldron. Choose a character, choose the ingredients then try drinking it for a spooky surprise.

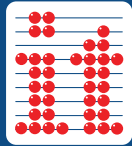

Talking - Smarty Pants

Explore different expressions, gestures and emotions. Pick a character then choose an expression for him or her to act out.

Please note: although we can't guarantee the safety of your iPad or iPad2, we do provide a one year warranty on Big Grip Frames and Stands.

Available in four great colours!

Choose from green, grey, pink and blue.

n/a	Big Grips Frame iPad/iPad2	£24
n/a	Big Grips Stand iPad/iPad2	£15
n/a	Big Grips Frame and Stand iPad/iPad2	£35

Please specify colour and if the frame is for the iPad or iPad2 when ordering. iPad not included.

Inclusive Sync/Charge Station

High level security for the storage, charging and syncing of iPads!

NEW

The Inclusive Sync/Charge Station for the iPad is designed to securely store up to 32 iPads as well as providing the useful option to charge and sync them simultaneously.

Security - securely store up to 32 iPads in a lockable, safe, portable, compact, steel cabinet. The optional docking station offers you peace of mind at the end of a school day, not only will your iPad investment be safe but also ready to use the next day. The Station is also portable so can be easily moved around the school from one classroom to another.

Charging - provides you one easy place to charge as few or as many iPads as you need to, up to 32 at any one time! The intelligent charging system tells you when the iPads are fully charged and ready to use:

Glowing red light – standby mode – press to charge.

Flashing red light – charging – lock and leave.

Flashing blue light – fully charged – ready to use.

Syncing - managing up to 32 iPads with the Inclusive Sync/Charge is as simple as managing a single iPad. With the original iPad cables supplied with the iPads, connect to the Inclusive Sync/Charge Station using built in USB cable management. Connect a USB A to B cable (not supplied) from the Inclusive Sync/Charge Station to a host computer where the devices are registered on iTunes. Through iTunes, configure your preferences. The USB cable management eliminates clutter. See website for further details.

Two size options:

For 32 iPads (2 drawers) 1045mm height x 660mm width x 700mm depth.

For 16 iPads (1 drawer) 735mm height x 660mm width x 700mm depth.

5954	Inclusive Charge Station for iPad (16)	£1240
5953	Inclusive Sync/Charge Station for iPad (16)	£2240
5956	Inclusive Charge Station for iPad (32)	£1700
5955	Inclusive Sync/Charge Station for iPad (32)	£3200
5957	Docking for all Stations	£109

Sorry iPads not included.

Introducing the NEW iAdapter

Protect your iPad with the iAdapter! This innovative housing is complete with rubberised corners and a handle to help protect your iPad from damage.

NEW

Handy carry handle

Dual amplified speakers with high/low volume switch

Fully rubberised housing protects on impact

Protected slide cover to hide the home button when needed

A small slide cover on the front of the housing hides the home button from roaming fingers that may close running applications. The iAdapter is also an amplifier, with dual speakers that deliver clean, crisp sound that can be heard in the noisiest setting. It comes with a rechargeable lithium polymer battery, shoulder strap for portability and a plastic stand for tabletop use.

- Threaded inserts on the back for a wheelchair mounting plate.
- Shoulder strap for portability.
- USB charging port.
- Rechargeable lithium polymer battery (for the amplifier only) – 10 hours run time.
- USB charger and cable (for the iAdapter internal battery only).
- Stereo headset jack.
- Plastic tabletop stand.

Sorry, iPad not included.

5174	iAdapter for iPad	£148
5194	iAdapter 2 for iPad2	£198

Inclusive iPad Mounts

Introducing a comprehensive range of mounting solutions to make the iPad easily accessible. We have put together four mounting solutions kits suitable for both the iPad and iPad 2.

NEW

The flexible systems with a wide range of adjustment make it easy to position an iPad for optimum touch access. With the holder used in all these systems, the iPad simply clips in and can be easily removed in a moment if required.

Table Mount

The special ball joints allow a wide range of easy adjustment of angle and choice of landscape or portrait mode. The base has screw fixing holes to allow it to be firmly mounted if needed.

5712 Table Mount for iPad/iPad2

£79

Holder with Clamp

A wide range of adjustment, the mounting clamp can be fastened on to a round bar or table edge.

5713 Holder with Clamp for iPad/iPad2

£79

Gooseneck

Flexible gooseneck arm for easy positioning with clamp that can fit round bars or a table edge.

5714 Gooseneck for iPad/iPad2

£120

Holder with Variable Friction Arm

The most flexible solution using the VFA arm which gives a wide range of adjustment and reach – even upside down. Can be clamped to round bars or table edges.

5715 Holder with VFA for iPad/iPad2

£159

Inclusive Slate Tablet PC

The Inclusive Slate is a Tablet PC that runs Windows 7, it gives you access to all of your usual Windows software on an ultra portable device at an affordable price, ideal for your classroom.

MyZone software shown is not included as standard.

With the Inclusive Slate you can run all of your standard Windows applications, such as Microsoft Office and Firefox, and all of your special needs programs, as well as your other educational software. Two standard USB ports mean you can plug in all of your existing peripherals, from standard keyboards and mice as well as other access devices. Windows 7 allows you to access websites using Flash, such as our HelpKidzLearn, and online resources using Java, such as Crick's WriteOnline. The built-in SD card slot and USB ports makes file transfer to and from the device easy with no file synchronisation to another computer and the Wifi allows you to connect to your school network.

- OS: Microsoft Windows 7 Home Premium.
- Connections: Bluetooth 2.1, integrated 802.11b/g/n WiFi.
- Processor: Intel Pineview-M N450 + ICH8M, 1.66 GHz.
- Memory: 2GB 800MHz DDR2.
- Mass storage memory: SSD 32GB.
- Battery life: over 3 hours.
- Screen: TFT LCD 11.6" HD GLARE (1366px X 768px).
- Camera : 1.3M pixel (fix focus) webcam.
- Touch panel: capacity multi-touch panel with display orientation.
- Audio: 2 built-in speakers (1.5W), 1 microphone.
- One year return to base warranty.

MyZone configurable desktop helps children and adults with learning difficulties to find things on the computer. It features large buttons and simple navigation.

Learner login screen.

Software assigned to a pupil.

Includes a selection of games.

With *MyZone* you can launch programs, pictures, music, videos, documents and even websites. You can create boxes (folders) to organise your programs and other content. Create a workbox for each student in your class. Add programs and other content into each student's workbox. You can even add your students' pictures or photos to help them find the programs you have set up for them.

- Pupils can enter their zone using touch, a mouse or switches.
- Create pupil icons with their photo or a favourite picture.
- From 1 to 12 icons on the screen.
- Simple navigation arrows to move between screens.
- Ready to use icons for many programs and activities are included, and are updatable online.
- Allows access to websites and pages.
- Easy to use configuration tool allows you to access any of your programs using *MyZone*.
- *MyZone* comes with twelve simple and fun touch games including Colouring In, Making Music, Tops, Middles and Bottoms, and Make a Pizza.

MyZone is FREE with the Inclusive One Touch (see page 23) but can be purchased separately.

MyZone is also available on a USB memory stick for installation on devices without a CD-Rom drive.

4277	Windows CD-Rom	£69
4278	5 user copy	£138
4279	Site licence	£207

4897	Windows USB version	£79
4899	5 user USB version	£148
4900	Site licence USB version	£217

For further information, videos and reviews visit
www.inclusive.co.uk/myzone or speak to us on **01457 819790**

Introducing the Inclusive LearnPad™

The Inclusive LearnPad™ is a touch sensitive computer Tablet that provides a safe and simple way to access a vast range of eLearning content including Android Apps, websites, and Flash based activities. It comes complete with a range of pre-installed content as well as providing a way of centrally managing and configuring multiple LearnPads™ through a simple intuitive interface.

NEW

Front Facing Camera

8 Hour Battery Life

Built in Stereo Speakers

10.1" LCD Touch Screen

Runs Android

LearnPad™ is a 10.1" interactive eLearning computer Tablet, designed specifically for use in schools. It's small enough to be portable yet large enough to give a great user experience. It can be used as a stand-alone device with dedicated eLearning content or can connect to your network to access traditional online and Flash based educational websites and online resources.

Key Features

- Connections: MicroSD slot, Mini USB, Standard USB, 3.5m audio output, docking port.
- Secure and controlled user interface and child safe web browser to allow access to approved online content only.
- Works with existing eLearning content, from well-known companies such as ourselves.
- Compact, light weight and portable, with an 8 hour active battery life.
- Highly reliable and very low maintenance.

5931 Inclusive LearnPad™ Tablet

£295

Inclusive LearnPad™ Case

The LearnPad™ Case provides dual functions: a protective cover and also a stand to position it at the ideal angle for children to use without needing to hold it. The case has small magnetic clips on the edge to hold it closed and protect the screen from damage.

5932

Inclusive LearnPad™ Tablet Case

£25

Inclusive LearnPad™ Mount

Our Perspex Tablet Mount can be fixed to a desk, a wall or even a wheelchair for SEN students. The LearnPad™ can be slid in and out of the mount easily and a secure locking catch at the end will hold it in place when needed.

5933

Inclusive LearnPad™ Tablet Mount

£20

Central Management

The Inclusive LearnPad™ has been designed with schools in mind and as such has a unique web based central management system that allows teachers and administrators to manage and control multiple LearnPads in a school, group Learnpads together for classes or school years then control which applications and content are made available. You can even create your own user interface for LearnPad™ and define your own categories, backgrounds and icons!

Content Delivery

As well as central management, LearnPad™ has a custom designed content delivery system, allowing administrators to upload, store and automatically deliver new content directly to individual or grouped LearnPads, all from one central location. Send your own documents, videos, Flash content or even applications directly to LearnPad™ safely and securely from a central portal.

Content Suite

The Inclusive LearnPad™ comes complete with a range of pre-installed content designed to meet specific areas of the teaching curriculum. It also supports existing eLearning content and, unlike the iPad, can run Flash based activities and websites such as www.helpkidzlearn.com.

Flash Content

As well as the Content Suite pre-installed applications, LearnPad™ supports existing flash based eLearning content from industry suppliers including Inclusive Technology, Education City, 2Simple, Sherston, eChalk, Yellow Door and websites such as My Maths, TES iBoard and BBC School.

Full Specifications

- 10.1" LCD Capacitive Multitouch 1024x600 Screen.
- Nvidia Tegra 250 1Ghz (Dual).

- Inclusive LearnPad™ Tablet.
- UK DC Power Adaptor.
- USB Cable.
- User Manual.

Inclusive Interactive Solutions

Inclusive are pleased to offer a new range of Plasma and LCD interactive touch screen solutions, ideal for all classrooms and budgets.

Our interactive solutions are affordable, adaptable and accessible, enabling you to create a truly inclusive classroom!

Three excellent reasons to buy:

- Delivery and set up worth £100 per screen is included free of charge!
- 3 years comprehensive on-site warranty.
- Prices starting from just £2,550!

Prices
starting
from just
£2,550!

Affordable!

Buying the best equipment for your school within budget has never been so important and we understand that this is both a short term and long term issue.

As well as being affordable our touch screens are robust, durable and professional.

Whilst projector interactive solutions may have lower initial costs, the need to replace lamps and clean projector filters will, in the long term, make them a more expensive and time consuming solution. The flexibility of our trolley based screens means that there will be no cost incurred in rearranging classroom layouts, making it easier to make effective use of such an excellent resource.

Adaptable!

Our mobile stands give you maximum adaptability to allow for shared use or to help you to create a really flexible learning environment that is not constrained by the positioning of a display.

The built-in PC option in some of our models makes for ease of mobility around the school, giving the opportunity for shared use and ease of storage – our mobile stands fit through a standard doorway!

Wall mounted installations are ideal where space is at a premium and leave you with a clear floor space.

Our wide choice of screen sizes enables you to choose the right screen to suit your users accessibility needs and room size.

Accessible!

Our plasma and LCD touch screen solutions are fully accessible, not only offering improvement in physical access because of their portability and height and tilt adjustment options, but also providing a higher quality steady and evenly backlit image, giving a better experience for you and your students especially those with visual and perceptual difficulties.

A wide range of powered height adjustment can be easily achieved by simply pressing a button. Our tilting options give a choice of angle from vertical to horizontal for improved accessibility – enabling you to use the screen as a traditional display or as an interactive table!

For a no obligation, full demonstration and/or quotation for any of our interactive touch screen solutions, please telephone

01457 819790 or email inclusive@inclusive.co.uk

All of our solutions form an ideal focus for individual learning, group teaching and training, whilst meeting DDA requirements.

Key Features

- An excellent viewing angle, up to 178 degrees, for the whole classroom.
- No overlay which is known to degrade the image on a screen.
- By not having a projector, any risk posed by having a bright light source is avoided.
- No projector means that there is no shadow in any position and/or at any height.
- There is no obstruction near the screen, such as a projector arm.
- Superior performance and flexibility of plasma and LCD screens gives better viewing results in ambient light – a well lit classroom is better for all students and teachers.

Free software included when you buy any Plasma or LCD!

All Inclusive LCD's and Plasma's come with software to allow you to start using your screen straight away.

All Inclusive LCD screens come with Lynx Software.

- Lynx includes curriculum specific clip art and information resources for a wide range of subjects and key stages.
- Plus an annotation toolkit including pen, paintbrush, highlighting and area fill tools.
- An easy to use virtual keyboard and calculator.
- A variety of subject specific screen backdrops are available to enhance lessons including lined, graph, isometric, squared, hexagonal and music manuscript paper.
- A wide variety of high definition maps, both simple and labelled, are also provided – ready to use for lesson preparation.
- Use the curtain, spotlight and magnify facility.
- Use the keyboard to write, align, rotate and transform text.

All Inclusive Plasma screens come with MyBoard Software.

- MyBoard includes lots of easy-to-use tools and resources for making motivating activities, such as a sorting game for teaching shapes, spelling, number bonds - anything!
- Make your own sorting and sequencing activities, literacy games, numeracy tasks, 3D construction sets, colouring books, dot-to-dots, board games, design and technology activities, maps, circuit diagrams and all sorts of scenes to promote creative play.
- MyBoard includes over a 120 sample activities to get you started, plus 2,000 pictures you can use. MyBoard also has a choice of simple sets of tools that are ideal for less able learners. The sizing and positioning tools are really easy to use – great for touch screens and clumsy fingers!

Inclusive Tilt and Touch Plasma

The ultimate in flexibility and accessibility. The Inclusive Tilt and Touch Plasma adjusts for height and adjusts for angle. It combines all the benefits of a height adjustable interactive plasma with a fully featured touch table.

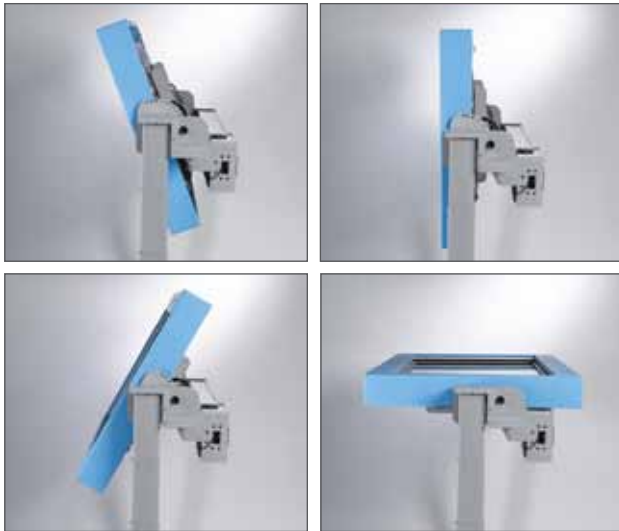

Features

- Currently available with 42" and 50" Panasonic Interactive Plasma Screens.
- Remote controlled, powered height adjustment.
- Simple manual locking angle adjustment with smooth movement.
- Supports multi-touch software.
- Easy to change the position when in use.
- No distracting shadows.
- Suits toddlers, wheelchair users and tall teachers.
- Bright, clear image - no need to darken the room.

- Very rarely needs calibration.
- Wide viewing angle and no hotspot - good for visually impaired users.
- No projector - no risk from staring into a high powered lamp.
- Quiet - no cooling fan to distract the hearing impaired.
- Low lifetime cost - no consumable items like projector lamps.
- Uses less power than a digital projector.
- Low maintenance - no filters to clean.
- Three year on-site warranty.

The Locking Multi-Tilt System

The Tilt and Touch provides a choice of screen angles

The electronically operated height adjustment and easy tilt mechanism makes it easy to accommodate all users. The unique open base means there is room to sit comfortably when using it as a touch table, and there is space for wheelchair users to get close.

The locking multi-tilt system gives a wide choice of screen angles - it tilts up to 30 degrees forwards for easier reach, or in steps right back until it becomes a flat touch table.

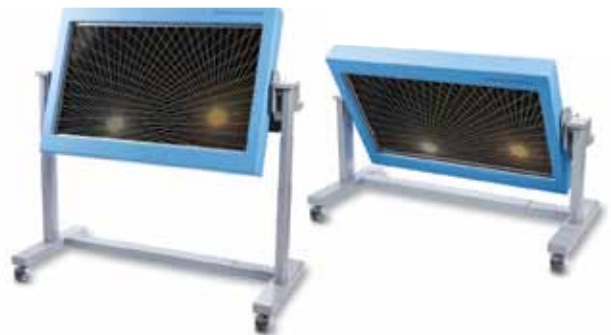

Removable Laptop Shelf

The Tilt and Touch Plasma also comes with a laptop shelf which maybe removed if preferred.

When the Plasma is a table top, it measures 730mm in the lowest position and 1400mm in the highest.

Pricing for the Inclusive Tilt and Touch Plasma with Height Adjustable Stand:

4493	42" HD Tilt and Touch Plasma Screen	£3,995
4494	50" HD Tilt and Touch Plasma Screen	£4,995

Truly Professional Panasonic Displays

Touch display – the front of the plasma is covered by a glass panel that provides a strong resistance to impacts. It is easy to clean - simply wipe with a smooth cloth when needed.

100,000 hour screen life – the Panasonic plasmas have a screen life of up to 100,000 hours. That's an amazing 42 years of normal viewing (6.5 hours per day) or 11.5 years of continuous use (24 hours per day)

High contrast ratio – for remarkable images in nearly any viewing environment

Smooth, crisp motion images – movement is reproduced with the high resolution needed to deliver its full impact. The Inclusive Interactive Plasma Screen has quick and easy, powered height adjustment. It can quickly be adjusted to suit tall teachers, toddlers or wheelchair users, and to support individual use or whole class teaching. You do not need to re-calibrate the screen each time.

Features

- Available in 42" & 50".
- Laptop shelf neatly folds to rear.
- Additional power socket on trolley for laptop.
- Windows plug and play.
- Apple OS compatible.
- Impact resistant front glass panel.
- 1024 x 768 HD resolution.
- PC, HDMI, DVI-D & component connections.

Height Adjustable Wall Lift

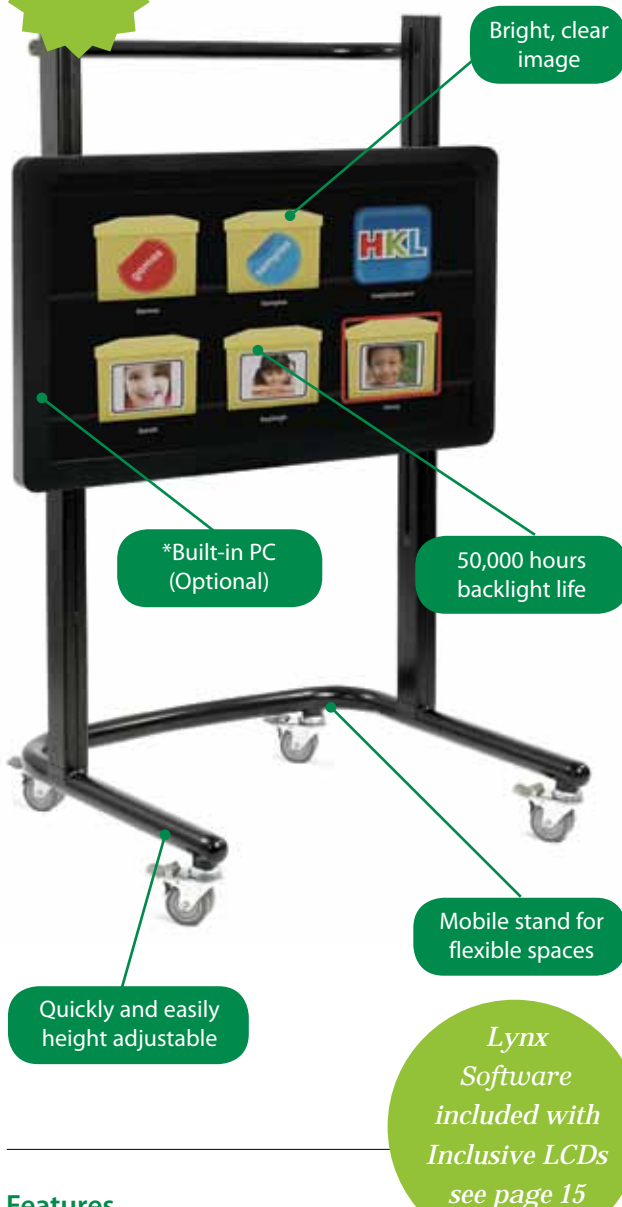

We can supply your plasma with a height adjustable wall mount. It has electronically driven height adjustment.

5709	42" Interactive Plasma Screen with Stand	£2,995
5710	50" Interactive Plasma Screen with Stand	£3,995
5747	42" Interactive Plasma Screen with Wall Lift	£2,995
5748	50" Interactive Plasma Screen with Wall Lift	£3,995

Inclusive Interactive LCD Screen

The new Inclusive Interactive LCD Screen solution offers great value and a range of screen sizes to meet the needs of your classroom as well as your budget. Screen sizes start from the common 42" screen to a huge 65" option. The solution now includes a built-in PC, as well as a height adjustable trolley, so it can be used as a shared resource across the school.

NEW

Features

- Available in 42", 55", 60" and 65".
- *Built-in PC optional (see www.inclusive.co.uk for specification).
- 50,000 hours backlight life.
- Anti-glare, anti-scratch surface.
- Rear laptop shelf (please note this is now behind the unit and no longer side mounted).
- Windows plug and play and Apple OS compatible.
- 50,000 backlight life.
- 42" and above - full HD (1920p x 1080p) resolution.
- PC in and out, HDMI and DVI-D connections.

Height Adjustable Wall Lift

We can supply your LCD with a height adjustable wall mount. It has electronically driven height adjustment and the screen can be started from floor level. It has a space saving shallow profile and clear access under the screen. Please contact us on **01457 819790** for further information. Delivery and installation (per unit, mainland UK) £100.

See pages 41-43 for more information

Inclusive Technology proudly presents

news-2-you®
the online symbol supported newspaper

NEW

Subscribe today for full online access!

N2Y is an online newspaper designed specifically for those with learning difficulties. It uses concise, symbol supported text to deliver news articles, worksheets, games and activities based on current events relevant to the classroom and it's learners!

Included every fortnight

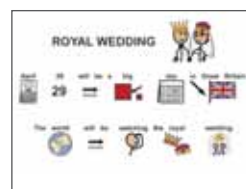

Every fortnight, students will connect with the world by reading about current events and doing pertinent activities.

- Newspapers
- World News
- Worksheets
- Current Events
- Vocabulary
- Assessments
- A Joke
- Still Worksheets
- A Recipe
- Holidays
- Sports News
- Puzzles & Games
- Matrix Maker Plus Templates
- Communication Boards

Each newspaper is published in four levels of difficulty. There is something to challenge every student, from beginning readers to fluent readers. The fortnightly newspaper is also provided in a text only format that is the same text as the regular/higher versions, and can be used for Braille conversion.

Different reading levels for all learners

1. Simplified – basic overview of the fortnightly topic; symbol supported text; a great way to introduce topic and vocabulary of the week.

2. Regular – in depth coverage of the fortnightly topic; symbol supported text; clear and concise sentence structure makes comprehension easy.

3. Higher – same text as regular edition but in paragraph form; easily differentiated.

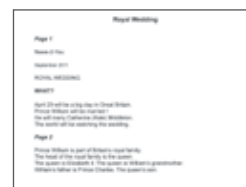

4. Advanced – expanded text in a periodical format; additional information about the weekly topic; digital pictures.

Communication Board – makes language visible and accessible. Use for numerous communication and vocabulary building activities.

Text Only – same text as regular/higher edition but in a text only format. Can be used for Braille conversion.

Speaking Editions

Students can follow along as the paper is read aloud. Each word is highlighted as it is spoken. Speaking versions are included with all levels of the newspaper.

World News

Each fortnight, articles about stories around the globe will truly connect students with the world. Each article is 1-3 pages, and 1-3 articles are published per fortnight. World News uses Google Maps to show where each story is taking place.

Worksheets

More than 20 worksheets accompany the newspaper every fortnight. The worksheets relate to stories in the newspaper, and are designed to help you meet curriculum standards for reading and writing.

TARGET & TOUCH SERIES

The Target and Touch series has been developed to help develop the hand/eye coordination skills needed for successful interaction with touch screen technology, now becoming widely used in tablet devices as well as touch screen computers and interactive boards. Touch and touch and release options allow you to tailor the response to meet individual needs, and to help the user to learn to press and release their touch to watch the result. They offer a carefully structured set of activities, ranging from cause and effect through to targeting multiple objects and are designed to support the development of the visual skills of locating, fixing and tracking. By being able to choose sizes and positions for the targets, we can help the user learn to explore the whole screen to locate objects and then give them exciting and stimulating auditory and visual rewards when they touch them. They are also a useful assessment tool to help identify and assess visual preferences, such as size and position for the targets.

These programs can also be mouse operated as they have a menu option for mouse pointer on or off. Touch screen activities can also offer a more direct cause and effect relationship than using switches for learners with severe cognitive difficulties.

Target and Touch: Patterns

A range of activities with different styles of animated patterns and music rewards - the bright colours contrasting with a black background make them ideal for users with visual difficulties, such as Cerebral visual impairment. The different styles and movements of the patterns have been carefully chosen to provide a wide range of different visual experiences to encourage users to look at the screen.

- Touch anywhere with a choice of patterns and colourful grids – great for cause and effect.
- Touch It and Find and Touch It to encourage looking and targeting.
- Peeping targets introduces a fun timing element – catch them before they disappear.
- Scattered targets need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.

3515	Win/Mac CD-Rom	£49
3516	5 user copy	£98
3517	Site licence	£147

*For information, videos and reviews visit
www.inclusive.co.uk/targetandtouch*

Target and Touch: Music

Touch screen training activities with a cast of twenty musicians, from classical to fantasy, with a great selection of music. It offers lots of opportunities for language development and listening skills. Bright characters on a dark background really stand out, making this program ideal for people with visual and perceptual difficulties. This program introduces some additional touch activities, making it a good progression from *Target and Touch: Patterns*, including an introduction to dragging.

- Touch anywhere to see who is playing this time.
- Touch It and Find It includes a wrapped up instrument - guess what it is before opening the bag to hear it play.
- Silhouette of the musicians - guess who it is and open the curtains to see if you are right.
- Peeping musicians – catch them to get a performance.
- Scattered musicians need a series of presses before giving a reward.
- Objects in a Line helps to encourage left to right tracking.
- Touch To Jump and Drag To Target – the musician will not play until they are under the spotlight.

3518	Win/Mac CD-Rom	£49
3519	5 user copy	£98
3520	Site licence	£147

Touch Cats

Use the scenes as a basis for story telling and to develop language like 'behind', 'in front of', 'underneath', 'on top of' etc. Touch/mouse users can 'walk' a cat around a scene and watch the cat play with objects of interest.

3797	Windows CD-Rom	£49
3798	5 user copy	£98
3799	Site licence	£147

Touch Balloons

Great fun on the touch monitor or Inclusive Interactive Plasma Screen. Also use a switch, mouse or alternative pointing device. Alter the speed and number of balloons; choose bold or pastel colours to develop visual skills. You can even change the background - add your own pictures.

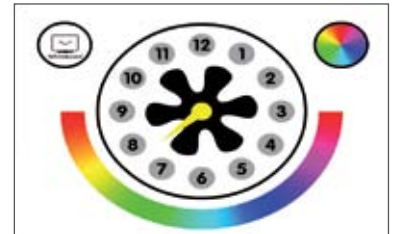

0736	Windows CD-Rom	£35
0739	Additional user licence	£12

ReactTickles 2

- Inspired by real world objects that children love to manipulate such as Slinkies, lava lamps, spinning tops and coins, *ReactTickles* provides an engaging, accessible computer environment for spontaneous imaginative play and learning. Even the most anxious autistic individuals can relax and communicate.
- ReactTickles Creativity Box* resources are structured to provide an easy to use, flexible guide to integrating the software into the curriculum in a manner that is rewarding and fun. Teacher and pupil resources can now be accessed directly from within the application.
- ReactTickles* are highly motivating and have been shown to help children develop concentration and attention skills, as well as encouraging sharing and imaginative play.

- Reactive colours encourages those with autistic spectrum differences and learning disabilities to use the computer. It helps them develop mouse, keyboard, programming and screen skills. Fully switch enabled.

- Use with an interactive whiteboard, microphone, mouse or keyboard.

3419	Win/Mac CD-Rom	£49
4067	Site licence	£199

Touch Screen Bundle

This great value software collection helps teach touch skills at all levels. Software is supplied as single user copies.

Big Bang

Provides engaging activities at a very early 'whole hand' cause and effect level. See page 28.

Target & Touch: Music

This program is ideal for people with visual and perceptual difficulties. See page 26.

Target and Touch: Patterns

Targeting activities using simple, vivid, high contrast patterns, shapes and music. See page 26.

Choose and Tell: Nursery Rhymes

Simple decision making activities that support emergent literacy skills. See page 29.

Touch Balloons

Simple, progressive targeting activities. Touch the balloons to pop them. See above.

4752	Win/Mac CD-Rom	£195
------	----------------	------

Touch Screen Bundle - when purchased with a touch monitor - single user - £170

Programs in the Big Bang series have been designed to provide early experiential and cause and effect activities ideal for those with severe and complex difficulties. Big Bang Patterns and Big Bang Pictures provide material in a choice of two colours, including back and white for maximum visual effect along with attention grabbing music. The original Big Bang has a varied selection of bright multi-coloured activities with a range of music and sound effects. These programs are an ideal tool to help develop early interaction, with switch and touch screen access.

Big Bang

With their bright colours and great music and sounds, *Big Bang's* four activities are ideal for the early stages of developing an awareness of cause and effect.

- Picture building with only three presses to get a bright noisy reward to fill the screen.
- **Movements** - this activity has been designed to offer a choice of eye tracking activities with full control over direction and speed of the reward.
- **Actions** - nineteen eye catching activities needing only a single switch press to give a great animated reward.
- **Colours** - press the switch to change the colour of a screen full of bubbles.

1331	Win/Mac CD-Rom	£49
1332	5 user copy	£98
3145	Site licence	£147

Big Bang Pictures

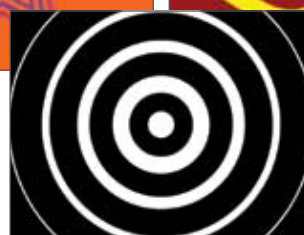

Twenty animated pictures available in three levels of complexity, with a choice of colour options, designed in consultation with teachers of the visually impaired. The picture resources supplied on the CD offer lots of opportunities to develop off computer activities to supplement the activities on-screen. Options allow for single and two switch operation to allow the user to choose images.

- Experiential, cause and effect, build, two switch play and two switch choice modes.
- Choice of images-simple line art, silhouette or complex.
- Use your own music choice.
- Two colour choices, including black and white and random combinations.

3621	Win/Mac CD-Rom	£49
3622	5 user copy	£98
3623	Site licence	£147

Big Bang Patterns

Over sixty animations in a choice of two colour combinations, including black and white to give maximum visual interest. Switch and touch screen operation and an experiential mode where the animations play automatically.

- Experiential, single press and switch build modes.
- Use built-in music or your own MP3 files for reward.
- Choice of five animation styles, from gentle to hard hitting or random.
- Printable record keeping sheets supplied on the CD-Rom.

3624	Win/Mac CD-Rom	£49
3625	5 user copy	£98
3626	Site licence	£147

Choose and Tell programs are beautifully illustrated adventures that encourage children to make choices and create their own stories. The simple framework guides them through an adventure, but the children's decisions make it all their own. They will giggle at the comic situations the nursery rhyme characters find themselves in ... and gasp when legendary heroes face fearsome monsters!

Nursery Rhymes

- Choose from Humpty Dumpty, The Grand Old Duke of York, Old Mother Hubbard, Old King Cole or Baa Baa Black Sheep.
- Take Baa Baa Black Sheep off to the beach on a space rocket, or go to the castle with Humpty Dumpty on his green boat.
- Great for getting children to use their imagination and think about creating a narrative.

More Nursery Rhymes

- Choose from Little Bo Peep, Mary Mary Quite Contrary, Little Jack Horner, Yankee Doodle or Pussy Cat.
- Decide where to go and what to do.
- Great for getting children using their imagination.
- Lots of images are available on the CD for printing in colour or for children to colour in.

Legends

- Embark on a magical adventure based on exciting legends from different cultures.
- Choose from Jason, Sir Lancelot, the Pharaoh, Hiawatha or Rama.
- Packed with fun decisions to make and challenging puzzles to solve.
- Encounter monsters and answer questions relating to the Key Stage 1 curriculum.
- Configurable difficulty level.

Fairy Tales

- Choose from Snow White, Beauty, Cinderella, Princess Aurora (also known as Sleeping Beauty) or Rapunzel.
- Travel in a pumpkin coach, on a funky moped or groovy rollerblades.
- Will you visit a fairy tale castle or go to the supermarket?
- Will your heroine find her Prince Charming?

Choose and Cook

An easy, fun, story based program about preparing food and being in the kitchen. Aimed primarily at non-readers with severe learning difficulties of all ages, and perfect for

mainstream primary classes. Pupils choose a meal to make then find the ingredients in the kitchen. They are taken through the cooking and preparation process, where they choose the correct utensils. Finally, they invite a friend and enjoy the meal together. This program can be used in tandem with real cooking lessons. The simple recipes have been chosen because they can all be easily produced in the kitchen.

SwitchIt! Extra Series

These motivating cause and effect activities are ideal for early language work. Press a switch and see flashcards appear, a picture build up or watch an animated story unfold. For keyboard, mouse, interactive touch screen or switch.

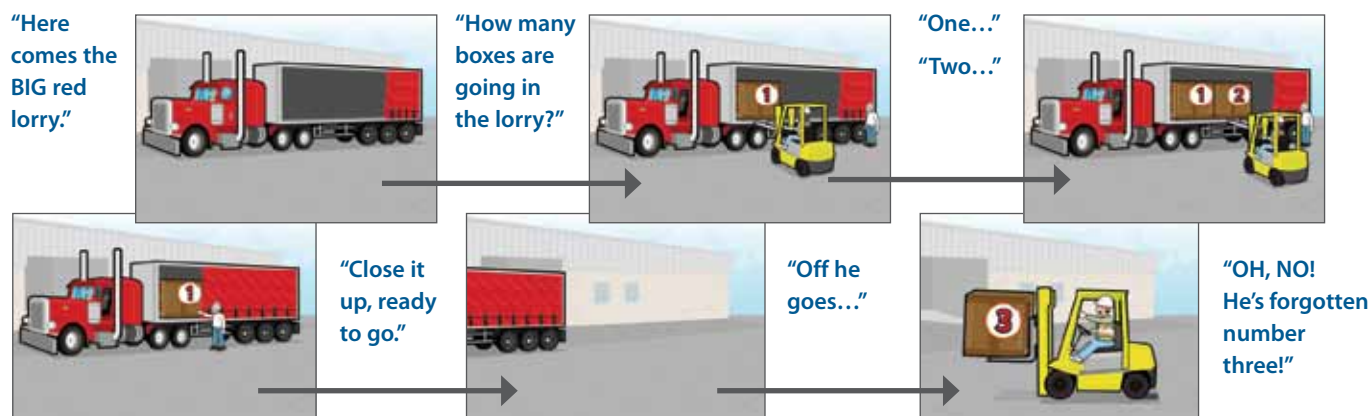

Each of these CDs has additional on-screen activities and a wide selection of worksheets, Picture Builds and Flash Cards to print out. For details see: www.switchitseries.com

SwitchIt! Extra Stories

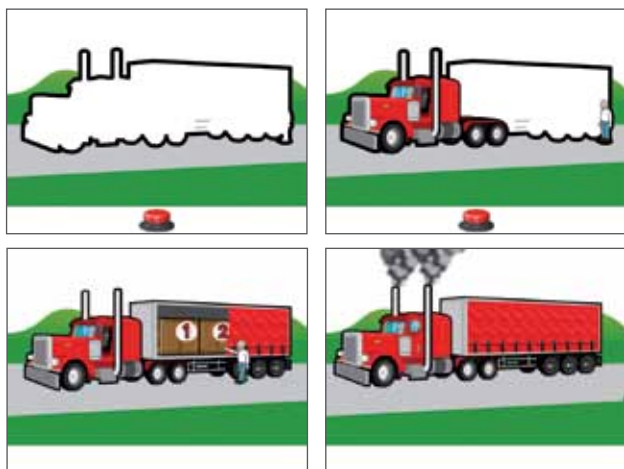

Here is an example of a story from *SwitchIt! Transport Extra*.

You can use the stories to discuss what is happening - a useful aid to speech and language development. (On the screen these pictures are animated.)

SwitchIt! Extra Picture Builds

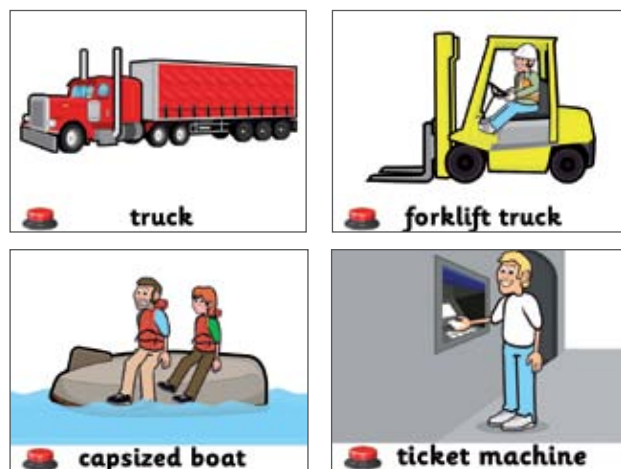

This one is from *SwitchIt! Transport Extra*.

Picture Builds teach the child to build a picture step by step before giving an animated reward. You can change the number of steps to suit the needs of the child and provide progression. This helps teach the child to complete a sequence, as well as improve their looking and listening skills.

SwitchIt! Extra Flash Cards

These are from *SwitchIt! Transport Extra*.

Introduce and explore vocabulary from the *SwitchIt!* Programs with flash cards. Each flash card has text, picture, sound and speech support.

SwitchIt! Sports Extra

This exciting new *SwitchIt!* program contains twelve animated stories demonstrating different sports, plus flash cards and animations for cause and effect work.

Watch the footballers use teamwork to score a goal. Find out why going jogging is good for you. Sprinting, rounders and other sports played in school and college are also featured. Sports played by people with disabilities are included, such as

wheelchair basketball, boccia and new age kurling. *SwitchIt! Sports Extra* may be used as part of the PSHE curriculum to promote healthy living skills.

3640	Win/Mac OS X CD-Rom	£59
3641	5 user copy	£118
3642	Site licence	£177

SwitchIt! Weather Extra

Explores the weather theme with characters designed to appeal to both young and older children. *SwitchIt! Weather Extra* covers the sun, wind and rain and their effects: keeping warm, keeping cool and meteorological phenomena like rainbows and thunderstorms. You can even go sledging or jump in a big puddle! Press the switch to see flash cards all about the weather, or learn about sun safety with an animated story. Complete with lots of extra activities and resources to support delivery of this exciting curriculum topic.

2136	Win/Mac OS X CD-Rom	£59
2137	5 user copy	£118
3228	Site licence	£177

SwitchIt! People Extra

SwitchIt! People Extra is a delightful cause and effect program that encourages students to think and talk about the people they see every day. It explores the theme of people and the jobs they do. Children learn how different people help us in everyday life. See how the nurse, lollipop lady, postman and supermarket checkout assistant carry out their work. The program also covers the emergency services and a big burly refuse collector. Includes lots of extra activities, worksheets and computer resources.

2124	Win/Mac OS X CD-Rom	£59
2125	5 user copy	£118
3227	Site licence	£177

SwitchIt! Farm Extra

SwitchIt! Farm Extra develops thinking and language skills around farm animals, their young and where they live. It looks at the jobs that are carried out on the farm.

Cow and calf, sheep and lamb, hen and chick, plus many more to motivate your learners and include them in National Curriculum requirements. Includes lots of extra computer activities, worksheets to print out and additional resources to help you deliver this whole curriculum topic.

2140	Win/Mac OS X CD-Rom	£59
2141	5 user copy	£118
3229	Site licence	£177

SwitchIt! Dinosaurs Extra

Look at the dinosaurs' behaviour, their habitat and how they hunt or forage. See the pterodactyl catch fish to eat – but what eats the pterodactyl? What happens when the cavemen encounter a sabre toothed tiger? See if anyone can roar louder than the tyrannosaurus rex, and find out if the mammoth can rescue her baby from the tar pit. This accessible program also covers a brontosaurus, triceratops, velociraptor, stegosaurus and more.

3004	Win/Mac OS X CD-Rom	£59
3005	5 user copy	£118
3233	Site licence	£177

SwitchIt! Hygiene Extra

More switching fun, this time on the theme of personal hygiene. The areas covered include hair care, showering, cleaning teeth, clean clothes, food hygiene and being well dressed. A great way of covering the PSHE curriculum. Includes lots of extra activities, worksheets and resources. Also available - the *Introduction to Hygiene Extra Signing Companion*, for those with difficulties with spoken language. It includes vocabulary to make the resources accessible and encourages discussion of the various scenes.

2663	Win/Mac OS X CD-Rom	£59
2664	5 user copy	£118
3230	Site licence	£177
3803	Signing Companion	£8.50

SwitchIt! Christmas Extra

SwitchIt! Christmas Extra has all the joys of the Christmas season in a fun packed, educational and switch accessible program. Your learners can enjoy building a snowman, visiting Santa and decorating the tree, all with the addition of entertaining sound rewards. There are 12 festive stories, 14 seasonal pictures to build and numerous computer flash cards, all on the theme of Christmas and the New Year. With lots of extra activities and resources too.

2120	Win/Mac OS X CD-Rom	£59
2121	5 user copy	£118
3226	Site licence	£177

SwitchIt! Wildlife Extra

Looks at different habitats across the world, the kind of animals that live there and their characteristics, behaviour and diet. Now switch users can explore the African savannah, see crocodiles in an Australian swamp or go diving with sharks. Many different animals are covered, including mammals, birds, insects, reptiles and fish. Look at the food chain - what does the hedgehog eat and how does he avoid being eaten? Also think about camouflage and different methods of hunting for food. Discuss issues of habitat, endangerment and animal protection. What will happen to the tiger if the bulldozer destroys its forest? What can frogs tell us about life cycles - and why does the male peacock look different from the female?

2739	Win/Mac OS X CD-Rom	£59
2740	5 user copy	£118
3231	Site licence	£177

SwitchIt! Transport Extra

See all kinds of modes of transport in this motivating new program. Join in the countdown and see the rocket launch, see the forklift unload the truck or go on holiday on the aeroplane. Raise the sail in the dinghy. Will the wind blow, or will you get beaten by the speedboat? Experience an exciting helicopter rescue at sea, complete with sharks. *SwitchIt! Transport Extra* also includes a ferry, car, cherry picker, school bus and taxi. Will everyone be in time to catch the train? See the builders and their digger - watch out for the water pipe! With lots of additional worksheets and resources.

SwitchIt! Technology

This is the latest title in the popular *SwitchIt!* software series, covering twelve everyday technologies, sometimes with unexpected results! We can sympathise with the character trying to turn on their television when faced with a selection of remote controls, and everyone has had a disaster with overloaded supermarket carrier bags! We are sure that lots of classroom discussion will be encouraged with everyone

sharing their experiences about photo booths, car washes, vending machines, lifts, mobile phones and more – great as preparation or follow up for a visit.

SwitchIt! Bob the Builder™

We have raised over £69,000 for the Appeal so far!

Have lots of fun adventures with Bob and Wendy, Scruffy and Spud, Farmer Pickles and Bird, Dizzy and Scrambler, Travis, Scoop, Benny, Lofty, Muck, Roley and Pilchard. This switch accessible program includes computer flash cards, pictures to build and animated stories, all on the Bob the Builder™ theme. You could also use a keyboard, mouse, whiteboard or IntelliKeys. Bob the Builder™ ©2006 HIT/K Chapman. This software is available for Windows 2000 and XP only and is available in the UK only due to licencing arrangements.

We are delighted to donate all proceeds from this software to the new Children's Hospital Appeal in Manchester. See www.rmchcharity.org.uk for further information.

2732	Windows CD-Rom	£49
2733	5 user copy	£98
3225	Site licence	£147

Bob the Builder™ and other characters are used with the kind permission of HIT Entertainment.

Switch Skills Champions

We have raised over £7,000 for the Appeal so far!

Every child can be a champion with these fun games that help develop switch timing skills. It features five sports that are included in the Olympics or Paralympics. For one or two players - useful for developing turn taking skills. Try basketball, volleyball, boccia, ice hockey or hurdles. You can change the difficulty level for each player. Includes a simple training activity for early learners. Just wait for a player to appear on the screen, then press your switch to win a medal. Accessible using a switch, mouse, keyboard, touch monitor or whiteboard.

4197	Win/Mac CD-Rom	£49
4198	5 user copy	£98
4199	Site licence (Windows only)	£147

All proceeds from this software are proudly donated to the Leonard Cheshire Disability charity.

All titles in our Maker Series offer a simple to use framework for making personalised teaching and leisure activities. Add your own images, text and sound to meet the needs of your students. Activities can be created in minutes using our intuitive tools, plus an inclusive range of access options make these programs suitable for many learners.

SwitchIt! Maker 2

- Make your own talking books in minutes with *SwitchIt! Maker 2*.
- Press a switch to see a picture, photo or video clip with sounds and text (also works with mouse, touch monitor or whiteboard). Press the switch again to turn the page and see more.
- Use your own digital images or import pictures and sounds from the Internet.
- Includes a library of over 1,500 pictures, sample videos and music, including a selection of *PCS* and *Rebus* symbols.

Use *SwitchIt! Maker 2* for:

Making it motivational - pop music videos, silly sounds, pictures of Thomas the Tank Engine or motorbikes - put anything in that will get you interested and interacting!

All about me - keep a meaningful diary or communication passport. Reinforcing vocabulary - put a photo/picture with the spoken word and text to help learn new words.

Sequencing tasks - make step by step instructions with photos of the situation.

Talking photo album - share a multimedia record of your holiday or trip.

Story telling - make a simple story book that can be 'read' independently.

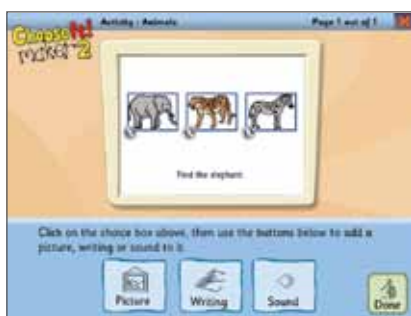

Speaking your mind - use it as a simple communication tool. Use one switch to scroll through the pages of choices and a second switch to speak out your choice. Use it in the classroom or day centre to tell others your preferences (e.g. in person centred planning).

1796	Win/Mac CD-Rom	£69
1797	5 user copy	£138
3236	Site licence	£207

Now you can easily make personalised choice making activities and quizzes.

Chooset! Maker 2

- Make your own choice making activities in minutes.
- Use your own pictures, photos, sounds or text, or pick from the library of over 1,500 files, including a selection of *PCS* symbols.
- Make the activity as simple or as complex as you like, choosing from 2 to 6 items.
- Have one or more correct answers, spoken or written instructions and your choice of reward.
- A great introduction to simple switch scanning (or use a mouse, touch monitor or whiteboard). Auditory scanning is included too.

Use *Chooset! Maker 2* for:

Assessment - use the computer to make assessment more motivating. Great for students who struggle with traditional picture tests. Use familiar photographs or appropriate pictures to help assess language skills, number concepts etc.

Quizzes - make learning fun, with everybody able to participate. Great on the whiteboard or plasma screen.

That's the one I want - have free choices for activities with no wrong answers! Vote for your favourite pop star, which story we should read or where to go today.

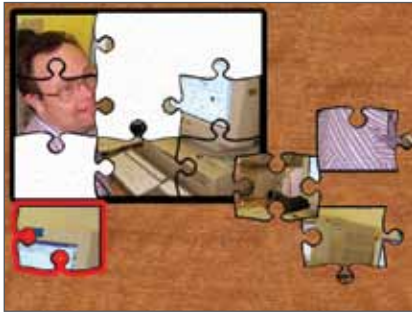

Language comprehension - match up with talking books made in *SwitchIt! Maker 2*. Can they answer the questions correctly or match the written word with the picture?

Sound lottos - matching and choice activities for people with visual impairment. Have the choices spoken out and press the switch to make your selection.

For more information see: www.choosetmaker2.com

SwitchIt! Jigsaw Maker 2

It's easy to make jigsaws of family members, pop stars, favourite characters or anything which is motivating. There

are four levels of complexity to provide skills progression. *Jigsaw Maker 2* is perfect for use with mouse, touch screen or interactive whiteboard. Jigsaws can be put together using the drag and drop method, or with single clicks of the mouse. Learners who use switches to access the computer have also been catered for. Jigsaws can be put together using one or two switches, such as the Smoothie Switch.

See www.inclusive.co.uk for more information.

1950	Win/Mac CD-Rom	£69
1951	5 user copy	£138
3235	Site licence	£207

Slideshow Maker

Makes it easy for the busy SEN or Early Years practitioner to make simple slideshows with accompanying music for early switch users. The slideshows can also be used with touch screen, plasma or mouse. Simply choose a set of pictures, add a music track and you're away. Slideshows can be started and stopped using one or two switches. This is useful for teaching two switch control or taking turns, and is invaluable for learners with PMLD or those learning to make choices using

a switch or by pointing. The slideshow can also be given a timer so it automatically stops after a certain time. For early choice making, a picture board can be set up with between 2 and 9 pictures to choose from by pointing, switch scanning or the mouse. Each picture starts a different slideshow, then the picture board is shown again. This is good for turn taking with a group, and can also be used with the IntelliKeys keyboard. More able learners who can use a mouse or touch screen will enjoy making their own slideshows with the editor. It's free of clutter and the buttons are large and have symbols. You can get pictures from a camera, the Internet, or even a webcam, then change their order in the slideshow using simple drag and drop. Full export features allow you to share slideshows with colleagues, or you can give them to learners to take home and play.

4271	Win/Mac CD-Rom	£69
4272	5 user copy	£138
4273	Site licence	£207

SwitchIt! Facemaker

SwitchIt! Facemaker is a simple program that lets you decorate faces with all sorts of features like hats, hair, glasses, funny

noses etc. You can add your own photographs for decoration, or use the samples included. The program has four levels of play to support learners from those with severe learning difficulties to those in KS2 mainstream. Full switch access and symbols for non-readers are included. Nearly 100 features give you thousands of combinations, engaging students in creative exploration and experimentation.

2144	Win/Mac CD-Rom	£69
2145	5 user copy	£138
3234	Site licence	£207

Let's Go To Town

A superb story program with nine interactive scenes. First catch the bus and we're off! Once at the town you can choose food at the market, select clothes, buy an ice cream in the square, post a letter and finally catch the bus home again at the bus station. *Let's Go To Town* encourages decision making and discussion of real life activities at a basic level. It suits students of all ages, principally with severe learning difficulties and/or little reading ability.

The large, eye catching animations are designed with the visually impaired student in mind, and fun for all of us! The limited interaction is very useful for students learning scanning using one or two switches. You can access the program using a keyboard, mouse or alternative pointing device, switch, touch monitor or IntelliKeys. Compatible with Windows '98, 2000, XP. Macintosh 8.6, 9, OSX.

1073	Win/Mac CD-Rom	£49
1074	5 user copy	£98
3163	Site licence	£147

Let's Go To The Seaside

Go paddling, choose sunglasses and a hat, try out a telescope or explore a rock pool. You can build your own sandcastle too, complete with flags, shells and tunnels. *Let's Go To The Seaside* is a delightful on-screen story book with decision making activities and animations to link the story together. It encourages the discussion of preferences and promotes life skills. Each page has a limited number of things to click on, making it easy for those learning switch scanning skills. *Let's Go To The Seaside* is also useful for developing early reading skills, recognising patterns and matching sizes and colour. It covers staying safe in the sun, picking up litter and simple sequencing in the sandwich making activity. You can access the program using a keyboard, mouse or alternative pointing device, switch, touch monitor or IntelliKeys. Compatible with Windows '98, 2000, XP. Macintosh 8.6, 9, OSX.

Counting Songs 1

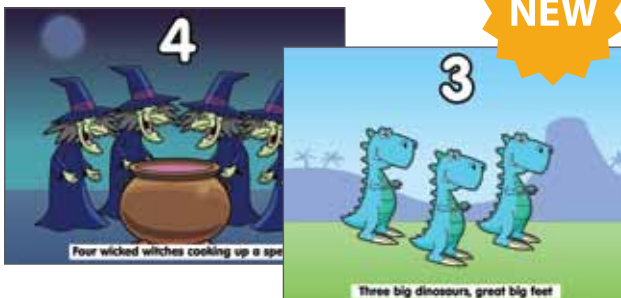

NEW

This fun and stimulating new CD-Rom is aimed at children just mastering early numbers. It features ten popular, traditional songs, seven of which have been re-written to count up from 1 to 5. Lively tunes and lovable animated characters engage the children, encouraging them to count along with the music. The songs are offered in three progressive stages: playing all the way through; counting before each verse; asking the child to count before each verse. A set of accompanying activities consolidate and expand the children's counting skills. These are also offered in three progressive stages: simple counting of one character after another; counting characters along a number line; identifying sets of objects. The program can be used with a touch screen, mouse or switches.

4911	Windows CD-Rom	£49
4912	5 user copy	£98
4913	Site licence	£147

Counting Songs 2

NEW

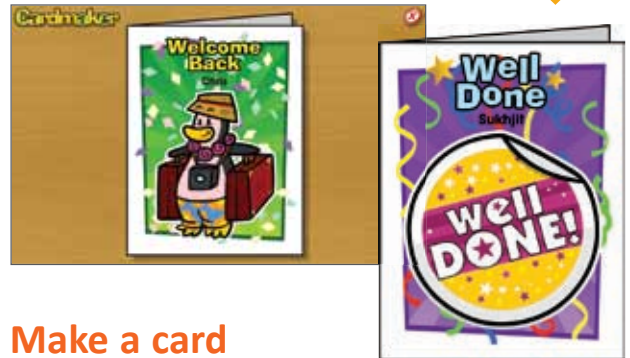

Ten original, contemporary style songs with entertaining animations, designed for KS2 children with learning difficulties. Seven of the songs count up from 1 to 5, whilst three count down. May also be suitable for some early years learners.

4914	Windows CD-Rom	£49
4915	5 user copy	£98
4916	Site licence	£147

Card Maker

Create party invitations and cards - accessible and easy to use.

NEW

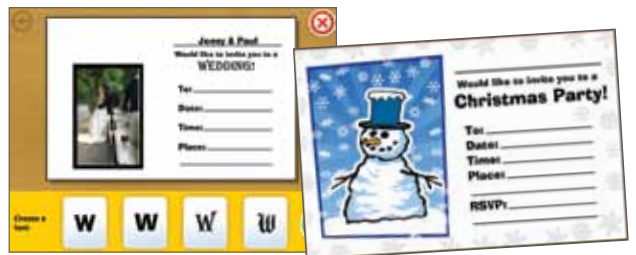

Make a card

Choose one of 28 different occasions including Christmas, birthdays, Easter, Valentine's Day, anniversaries and more. Add the recipient's name and it will appear on the front of your card (teachers may input different names for switch users to choose from). Each occasion has lots of bright, beautiful card designs to choose from.

Change the background colour and letter style and decorate your card with streamers, spangles, flowers, snowflakes or even cobwebs. You can even use a webcam to add your picture, to say who the card is from.

Then print out your card complete with folding guidelines - it's easy! Use a mouse or one or two switches. Optional audible scanning.

Make an invitation

Choose one of 18 occasions then pick a design, type style, colour and decoration. If you wish, you can choose to use outlined images for the learner to colour in.

When the invitations are printed out, the teacher or parent can fill in the date, time and venue.

Card Maker will even produce matching envelope templates which can be printed out and folded to fit your invitation.

4901	Windows CD-Rom	£69
4902	5 user copy	£138
4903	Site licence	£207

Jumbo XL Keyboard USB

With function keys and a USB connection!

New Jumbo XL is an excellent first keyboard for young children. It has chunky 25mm square keys that are colour coded and easy to find and press. They also help the user to identify vowels, consonants and punctuation marks. The keyboard has all the standard keys with the exception of the numeric keypad. It has separate function keys (F keys), a Windows key and Shift keys on both sides of the keyboard. Jumbo XL has USB connectivity as standard.

In addition, there are two extra USB ports on the right hand side. See www.inclusive.co.uk for full details.

2119	Jumbo XL lowercase	£49
2118	Jumbo XL uppercase	£49
2114	Jumbo XL uppercase, white keys	£49

2768	Jumbo XL Keyguard	£60
3714	Jumbo XL Clear Keyboard Glove	£18
n/a	Any Jumbo XL and Keyguard	£109

Clevy Keyboard USB

The Clevy Keyboard is tough, clear and child friendly, with large lowercase letters. The simple layout and colour-coding makes it easy to find the keys: blue for letters (light blue for vowels), red for numbers, orange for punctuation and green for actions. The keys are 2cm x 2cm, the letters are lowercase and are child friendly.

3151	Clevy Keyboard	£69
3180	Clevy Clear Plastic Keyguard	£49

Early Learning Keyboard USB

The Early Learning Keyboard has a really simple layout, since there are no function keys. Ideal as an introduction to keyboarding. Available in uppercase or lowercase, with either black and white or coloured keys - see website for details (please specify your choice when ordering).

3493	Early Learning Keyboard Coloured uppercase	£39
3494	Early Learning Keyboard Coloured lowercase	£39

First Keys 3

Teaching keyboard awareness!

Supplied with an array of exercises, designed to stimulate interest and develop vocabulary as well as keyboard awareness. Choose from the wide selection of exercises included with the program or create your own using the straightforward and intuitive editor. Make spelling exercises to support literacy activities, curriculum topics or personalised learning, and much more! See www.inclusive.co.uk for full details.

4375	Windows CD-Rom	£59
4376	5 user copy	£135
4377	10 user copy	£190

For further multiple user options, see www.inclusive.co.uk

IT Mouse Skills

Using a mouse requires a combination of motor, cognitive and physical skills that can be a considerable challenge. *IT Mouse Skills* provides a range of carefully graduated activities for someone who is beginning to use a mouse. *IT Mouse Skills* teaches the many applications of the mouse in an entertaining and visually appealing atmosphere. Move the mouse over an object, drag and drop, drag along a path and practice using drop down menus. Various clicking activities are included, such as clicking anywhere, click timing and double-clicking. Introductions to each activity are provided and the successful completion of a task is met with a range of pleasing rewards. See www.inclusive.co.uk for full details.

1041	Win/Mac CD-Rom	£45
1042	Additional user licence	£12

The standard computer mouse or laptop touch pad can be difficult for small hands to use. To help, we have brought together a wide selection of alternatives that can be used to replace a standard mouse. These include rollerballs and joysticks in a variety of sizes, with some offering advanced features, such as speed control and double-click buttons. Remote operation is provided for by a selection of head movement sensing devices and a switch control interface.

SMALLtrack

The SMALLtrack is a simple rollerball ideal for small hands. The SMALLtrack is perfect for young children learning cursor control, with a bright contrasting rollerball and colourful left and right buttons.

5692 SMALLtrack USB

£25

BIGtrack

Designed for children, this BIG trackerball has many features that make it ideal for users who don't have the fine motor skills required by a mouse. BIGtrack doesn't require control with the fingertips - a swipe at the ball and at the buttons works just as well. BIGtrack has these great features:

- Simple to set up.
- The design is suitable for the desktop or your lap.
- There is no need for fine motor skills to operate BIGtrack.
- Two big mouse buttons.
- High contrast colours.

BIGtrack has left and right mouse click buttons located behind the trackerball to help prevent unwanted clicks. BIGtrack also allows for a second mouse to be connected simultaneously. Works on any Windows or Macintosh computer that has a USB or PS2 port. Also available with two standard 3.5mm switch sockets, allowing switch access to the left click and right click functions. Plastic guard available. See website for full details.

0348 BIGtrack

£58

0349 BIGtrack with switch sockets

£89

5111 BIGtrack Plastic Guard

£39

Microspeed KidTRAC PC Max USB

A large, sturdy, affordable, three button trackerball which is 100% Microsoft mouse compatible. Easy to use: just plug in and go! The low profile case acts as a natural hand rest and minimizes the wrist angle by mirroring the natural contour of the hand. Includes a drag lock feature - simply press the drag button and the button stays locked until you press a second time. Supplied with USB connector. For PC only.

0581

Microspeed KidTRAC PC Max USB

£69

Inclusive KidTRAC Max USB

Like the Microspeed Max KidTRAC but with switch sockets! The jacks allow switch operation of the blue, red and green (drag lock) buttons. We can supply coloured switches to match the buttons (those pictured are not included). Inclusive KidTRAC Max is great for operating switch software that allows mouse clicks for switch input.

Little Mouse

Little Mouse is a small two button mouse with a "green go" left click and "red stop" right click, recommended by teachers when instructing young children how to use a computer mouse. Little Mouse has no scroll wheel, it's easy to control and made of rugged plastic for strength and durability. Size: 3.38" long x 2.25" wide x 1.25" high. USB with PS2 adaptor included.

NEW

5275 Little Mouse USB/PS2 £24

Tiny Mouse

The Tiny Mouse is about half the size of a typical standard mouse and just right for your child's small hands. A scroll wheel and coloured right and left buttons help children learn to click and move the cursor with greater comfort and control. Optical technology - no trackball to become dirty or lost, or to malfunction. USB with PS2 adaptor.

0790 Tiny Mouse USB/PS2 £19

Single Button Mouse

Often requested by teachers across the country, this mouse is great for both SEN and Foundation pupils that have problems distinguishing between a left and right mouse click. Requires USB connection and Windows '98 or later version.

2295 Single Button Mouse £24

My First Mouse

These mice are just the right size for little hands and have attractive designs that appeal to young children. They are easy to use too - just plug and play.

The Educational RYB version has bright red, yellow and blue colouring to help denote the different buttons. My Bee and the Ladybird are fun characters that will really motivate your learners. Optical technology. USB and PS2.

n/a My First Mouse (specify choice) £12

Keyboard Stickers and Gloves

Full Keyboard Stickers

These stickers include every key in upper and lowercase. Includes four sheets of stickers - white on black, yellow on black, black on white and black on yellow.

3124 Full Keyboard Stickers £10

Compatible with all portable MP3 players, iPods, CD/DVD players, PC and Mac.

- Volume output limited to 85 DB.
- Solid and robust design.
- Attractive colours.
- Extra thick, no tangle cord.
- Lightweight design.
- Size adapted to children's heads.
- Jack: 3.5mm – stereo.
- Cord length: 2438mm.

NEW

5078 Clevy Headphones

£19

Easi-Ears Wireless Headphones

NEW

Easi-Ears, a new digital audio system, allows a group to listen together on wireless headphones anywhere in the classroom, or even outdoors. No need to be connected to a computer or a CD player and certainly no messy wires! Download MP3 content from your PC through the docking station onto each pair of headphones.

Children can then play, pause, or move between tracks using the controls on their headsets. Teachers can also select which track children are listening to using the remote control unit. Each pair of headphones is fully rechargeable through the docking station (battery life approx. 8 hours) and contains its own MP3 controls for volume.

If the headphones are removed before the track has finished, the track will pause and only resume when put back on. Robust and fully adjustable with a twistable headband. The full set of Easi-Ears includes a set of 6 different coloured headphones, remote control unit, docking station for recharging and software.

5689 Easi-Ears Wireless Digital Audio System

£349

Bee-Bot - learn all about control and directional language with Bee-Bot!

Easy to use with big arrow buttons and very robust, Bee-Bot is fantastic for children of all abilities. A large memory of up to 40 steps means you can send your Bee-Bot across the room to friends or around your own obstacle course. Bee-Bot will confirm moves and commands with flashing eyes and optional sounds. It works on rough or smooth surfaces and is small enough to use on a table. A bundle is also available with six Bee-Bots, two chargers and three sets of rechargeable batteries.

1885	Bee-Bot Rechargeable	£46
1886	Bee-Bot Rechargeable Bundle	£229

Alphabet Mat

Ideal for developing literacy and ICT skills. Can you make Bee-Bot find a letter? Can he spell out particular words? Features upper and lowercase letters.

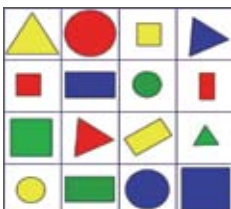

Busy Street Mat

This mat supports a wide range of subjects including ICT, literacy and numeracy. Comprehensive support notes are also included.

Treasure Island Mat

Have fun exploring and hunting for treasure. Ideal for teaching control in the Foundation Stage and KS1. Complete with support notes.

Shape Size and Colour Mat

Help Bee-Bot to find different shapes and colours as he navigates this bright and colourful mat. Combine mathematics and ICT whilst having fun!

Race Track Mat

Can Bee-Bot follow the track and win the race? Can he finish in time? Great for group activities. You could customise your Bee-Bots

with clip-on shells to race each other. With support notes and photocopiable game cards.

Transparent Grid Mat

A transparent mat for creating your own activities. The mat is ready printed with a grid to suit the Bee-Bot. Your learners could design their own mats too!

Giant Sequence Cards

49 durable cards to help plan your Bee-Bot program. Perfect for group work.
