

## multiroom DVR

### Enjoy DVR Recordings Throughout the Home

Multiroom DVR for Passport® Guide brings your digital cable experience to the next level:

- Access DVR recordings throughout your home – from the living room, to the kitchen, to the bedroom, on any set-top box connected on the home network.
- Watch all recordings, including HD in multiple rooms at any time.
- Stop a recording in one room and resume play in another or play the same recording on up to three networked set top boxes simultaneously.

### Multiroom DVR Uses a Home Network of Set-top Boxes

**Now, your whole family can enjoy DVR recordings – even in HD – from any set-top box connected to the home network.**

# Addendum: Passport Guide User Manual

## Access recordings from your primary DVR

Enjoy all the benefits of DVR! The primary DVR on your home network has full DVR functionality to play, schedule and delete recordings and pause live TV. Your primary DVR can record two programs simultaneously – even HD shows – while up to three secondary set-top boxes on the network enable you to play, schedule, delete and manage your DVR recordings. From the Recorded Shows list, an icon indicates those recordings that are being viewed in another room. Recordings cannot be deleted until playback has ended. You can even play the same recording on up to four set-top boxes simultaneously.

Recorded Shows on your primary DVR  
Access DVR Menus, sort to Group Titles or view DVR Network Information

Recorded Shows Options on your primary DVR  
Options vary if the recording has been viewed

## View DVR Network Information

From The Recorded Shows list, press A to view DVR network information for a list of networked set-top boxes in the home and the recordings being viewed. An icon  will appear if a recording is being viewed within the home network.

The DVR category provides access to Recorded Shows

Find Shows on networked set-top boxes  
Recorded Shows goes to list of DVR recordings

## Sit back and enjoy the show from networked set-top boxes

Press LIST (or MY DVR) to access the Recorded Shows list, choose a program and press OK for program information. Follow the on-screen prompts to play or resume – or even restart a program from the beginning. Pause, fast-forward, rewind and instant replay to control your recorded show. Parental Controls settings are unique to each set-top box on the network. Remember, you can only control live TV on the primary DVR.

Program Info on networked set-top boxes  
Select Record Options, Play, Play from beginning, Erase or Keep Longer

You can stop playback of a recorded program in one room on the network, and resume playback in another room. If four users are playing the same recorded program on four different set-top boxes, and each playback is stopped at different times before the end of the recording, playback will resume for all users from the most recent stopped recording.
