Electric Food Slicer

Model #14150

Cheeses

Breads

Fruits

Offer your customers a quality food slicer that they can use easily in their homes. Consumers can save money by buying in bulk, slicing as needed. Boneless meats, cheeses and breads can be sliced with precision and versatility. Lettuce and cabbage can be shred for coleslaw. Potatoes can be thinly sliced for homemade chips. Fresh deli platters can be created at home with this ready to use slicer.

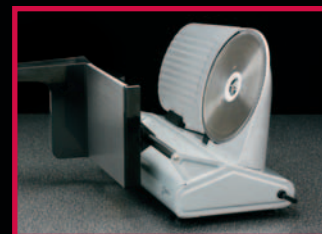

This durable diecast aluminum slicer comes ready to use, no assembly required.

FEATURES

- Large 7½ inch diameter, stainless steel blade
- Angled platform allows food to fall easily
- Adjustable thickness knob for precision slicing - slice foods wafer-thin to more than ½" thick
- Perfectly even slices every time with no shredding
- Durable diecast aluminum construction
- Food pusher is designed to grip food and hold in place while slicing
- Handles for easy carrying
- Easy to clean with removable blade and retractable platform

- 100 watt AC motor

Platform flips forward for easy cleaning
