DTA

The DTA will cut tomatoes, oranges, lemons etc. into perfectly proportioned segments while at the same time removing the core. The DTA is ideal for preparing mixed salads with tomatoes and for preparing oranges and lemons for drinks and cocktails.

Recommended both for cafeterias and restaurants with table or buffet service and also Fast Food establishments or bars.

601163

FEATURES

- The DTA reduces the preparation time needed for cutting tomatoes and apples into 4, 6, 8 or 12 segments.
- Apple segments are cut removing the core for preparing tarts and cakes.
- The DTA helps control costs as each segment is perfectly proportioned.
- Supplied with interchangeable attachments suitable for every requirement.
- All of the elements can be washed in a dishwasher.
- The blade units can be easily removed and are interchangeable on a single base.
- The base with the blade holder unit, all in cast aluminium, stands on the work surface.
- Two stainless steel shafts fixed onto the support unit function as a guide for the plunger movement.

DITO**Electrolux**

- Aluminium plunger with integral handle which slides along the shafts to press the vegetable or fruit onto the cutter blades.
- The cutlery quality stainless steel is razor sharp to obtain very smooth segments and a perfect presentation. These blades are slightly serrated to improve cutting.
