12" Food Slicer DSL Series

601577 (DSL12) 12" Food Slicer 120 V/1p/60Hz

Short Form Specification

Item No. _____

Unit to be Electrolux Dito 12" Food Slicer. Electrical characteristics to be 120 V SINGLE-phase operation with adjustable speeds at 300 rpm. The slicing machine is made of anodized aluminum alloy and has the advantage of being easy to clean and is very hygienic. The cut thickness-adjusting knob is very sensitive and enables a millimeter adjustment. The easy and precise sharpening tool makes the work of the user easier by keeping the edge of the blade always sharp. The carriage, running on self-lubricating bushes, has an exceptional fluency and you can cut also heavy sausages, roast-beef, cheese and fish. Though this is a small slicer, it has all the advantages and the features of a big slicer.

Main features

- Adjustable speed control knob.
- Cut thickness-adjusting knob (millimeter adjustment).
- Power: 1/2 HP – single phase.
- Motor speed: 300 rpm.
- 373 watts.
- Compact design
- A highly sensitive cam mechanism permits the user to regulate the thickness slicing down to millimeters.
- 24 V wiring and NVR device
- Plexiglas hand protection
- Microswitch mounted on blade protection
- Electronic push-button panel has a class IP 54 silicone protection
- Blade ring protection
- Mechanism for locking the trolley in place when removing the mobile block.
- Belt drive mechanics
- Made of an aluminum alloy treated by anodic oxidation. This procedure guarantees high hygienic standards of the parts interested by the cut and resistance to acids, salts and oxidation processes.
- The blade is made of chromium plated steel 100Cr6; it is grinded and hardened to guarantee an accurate and sharp cut of products also after it has been re-sharpened.
- The other components of the slicer are made of ABS, LEXAN, PLEXIGLAS and stainless steel AISI 430 or 304.
- Dimensions: (HxLxW): 23.75" x 23" x 23.75"
- Approx. shipping weight—50 lbs
- UL electrical and NSF sanitation listed.
- NEMA # : 5-15P
- 2 year parts warranty, 1 year labor.

Optional Accessories

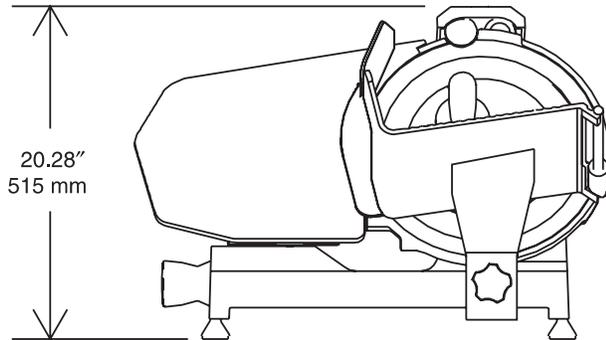

- Blade 12" for food slicer (PNC 653646)
- Blade (teflon coated) 10" for food slicer (PNC 653651)

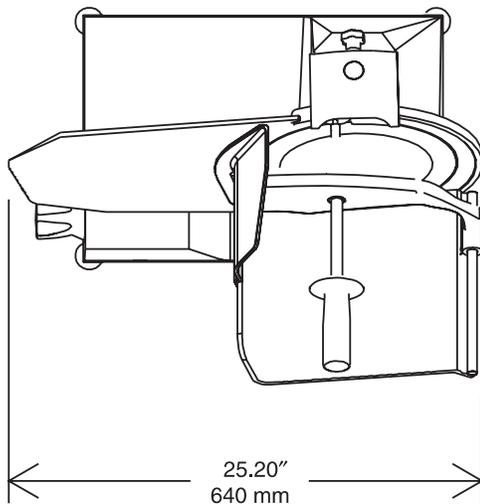

5-15P

Key Information

The **MECHANICAL SAFETY** system includes:

- Blade guard;
- Cover;
- Meat pusher;
- Hand cover on meat hopper;
- Meat hopper + finger protection.

The **ELECTRICAL SAFETY** system includes:

The slicer is equipped with: a micro-switch which stops the slicer in case the tie rod for blade guard is removed; the micro-switch prevents from restarting the slicer if the guard has not been set in the switch-off position.
