## Website

Our website, [www.barolympic.co.uk](http://www.barolympic.co.uk) has a wealth of useful information on our product ranges and latest news. You can also find frequently asked questions about how to get the best from our products and you can find an answer to your under-bar systems needs. But if you cannot find an answer you can email us your enquiry using our enquiry form or using directly our email address: [enquiry@barolympic.co.uk](mailto:enquiry@barolympic.co.uk)

## Info

### Colour Illustrations

Due to variables in photographic and printing processes, all colours in this brochure are subject to deviation from the equipment actually illustrated.

### Important Notes

BarOlympic is constantly seeking to improve the specification, design and production of its equipment and alterations take place continually.

While every effort has been made to ensure that all descriptions are correct at the time of going to press, this brochure should not be regarded as an infallible guide, nor as an offer for sale of any particular individual product.

## Guarantee

All equipment supplied by BarOlympic is covered under a warranty for a period as specified under the relevant product page. The date will commence from the date purchased by the original owner from the Distributor.

The Warranty is applicable only when the equipment is purchased for use within and retained within the original location.

During the Warranty period the equipment will be repaired or replaced (entirely at BarOlympic's option) by a BarOlympic Authorised Service Agent without cost to the original purchaser.

The warranty lapses if the equipment has been installed incorrectly by a third party, not authorised by BarOlympic, and/or if changes have been made or repairs carried out of which BarOlympic was not notified and for which BarOlympic did not give authorisation.

The foregoing is to be evaluated only by BarOlympic.

The warranty applies only when the equipment has been paid for in full and is used under normal circumstances and conditions of use and in a professional manner, in accordance with the operating and maintenance regulations as described in the user's manual and in the context of the normal operation, as to be evaluated by BarOlympic.

The warranty covers equipment failure in normal catering use due to defects in material and/or workmanship and excludes failure due to any misapplication, neglect, alteration, abuse, accident, fire, poor maintenance/lack of cleaning, inadequate installation conditions or any Act of God.

Warranty is not valid on items that malfunction due to poor maintenance or installation conditions.

The warranty does not cover the cost of or the cost of any service calls to reset any circuit breakers or timers unless caused by actual equipment malfunction.

Requests for warranty work should whenever be made by the ultimate customer. A charge will be made by BarOlympic if the engineer's call-out is not deemed to be caused by manufacturing defects. This charge will be made to the person logging in the call.

BarOlympic assumes no responsibility for any extended delay or the impossibility of replacing or repairing any defective components or parts due to circumstance beyond the control of BarOlympic.

The warranty does not cover secondary damage or force majeure, which include amongst other: damage by water as result of leaks from the appliance, loss resulting from an injury, trading loss as result of the incorrect functioning of the appliance, fire, statutory liability of the user to third parties and the like.

# BC1 Single Door Bottle Cooler

- **Strong, all metal construction**
- **2 adjustable shelves supplied**
- **Will display 3 levels of premium beer**
- **Front vented, can be built in**

# IM1200 Automatic Ice Maker

- Ice production 120kg/24hrs, storage 50kg
- Energy saving ice production method
- Jet Spray system produces hard, clear ice
- Hard wearing Stainless Steel exterior
- Easy to clean & maintain

Large icemaker capable of producing 120kg ice / 24hrs. Designed with a patented system of waste heat recovery, these icemakers can save up to 20% on electricity costs. It also enables them to work in high ambient areas. The reliable Jet Spray system produces clear, hard long lasting thimble shaped ice cubes.
