Gear transmission

The range of vertical slicers provides a rational solution to the slicing problems of restaurants, canteens, butcher's and supermarkets. Those appliances are particularly ideal for slicing raw meat, salamis and pressed meat in general. The models detailed on this sheet are vertical slicers with gear transmissions.

601143

FEATURES

- Base and main components in sanitary burnished aluminium thus guaranteeing durability, high sanitary standards and ease of cleaning.
- Sharpened blades in tempered forged steel.
- Removable and easy to use top mounted stone blade sharpener.
- Removable carriage system.
- Gear drive system for heavy and

continuable daily operations.

- Cover blade and product deflector easily removable without tools.
- Cover blade full covering for improved slicing and movement during manual operations.
- Carriage rollers and self-lubrication bushes for ease of movements during operation.
- Gauge plate interlock allows the removal of carriage for cleaning only when the appliance is switched off.

Food slicers
