### 7. Trouble Shooting – MT4 crashing

If you experience issues with MetaTrader 4 crashing after installing the EA then the most likely cause will be an out-of-date version of MT4. If this is the case, simply closing down and restarting MetaTrader and activate the LiveUpdate system and resolve the problem.

One other possibility is a security feature of Windows and most often affects Windows Vista systems. If you experience such a crash after installing the EA into MetaTrader then please follow these steps: 1) Click the Start button in Windows

2) From the menu that appears, click on "Control Panel"

3) From the displayed options in the Control Panel window, click on "Performance and Maintenance" and then press on "System"

4) On the right-hand side, click on "Advanced" and click on the "Settings" button under "Performance" row.

# 8. FAQ

**Q**: Do I have to trade myself? Is it difficult to setup?

**A**: No! All you need to do is setup the FX Robot (EA) and let them trade on your account to bring you profit! You will get step-by-step instructions on how to setup and run them.

**Q**: What platform is EA working on?

**A**: EA are developed for theMetaTrader4 platform only. The world's most competent brokers use this trading platform. It is extremely user friendly.

**Q**: Where is EXE program? I can't open ex4 files!

**A**: EA is not an EXE program; it is a trading plug-in for the Metatrader 4 platform. They are easily installed in your Metatrader platform. Just read the instructions to learn how to work it out.

**Q**: Where is the folder of Metatrader4 EA? I can't find it on my PC!

**A**: The common folder of the EA is :C:\ProgramFiles\Metatrader4\Experts However you do not need to search via "My Computer" . The installer will guide you through.

**Q**: Can EA work when I am away or gone out?

**A**: Yes, they can work 24 hours a day for you. It is not necessary for you to monitor every time on your trades. Our FX Robot (EA) will monitor the trades, open orders and close positions for you when needed. Just stay tune and you money will grow.

**Q**: Can I use several EA on the same account?

**A**: Yes, sure. However please understand the trade behavior of each EA and set the right risk level. The most important thing is set a different set of "Magic Number" which is the differentiator of every different trade. Under no circumstances that putting same magic number in the same MT4 platform.

**Q**: I see a sad face on the chart after I drag the EA onto the chart.

**A**: Please refer to the "Running the EA" section to ensure you check the correct MT4 Options setting.

**Q**: The EA is still not trading! What's wrong?

A: If you follow every setting as per the manual, the only reason is the trading criteria are not met. Trading is not to trade every moment. A good EA will look for a good entry point to trade. You must understand the EA characteristic before plug-in to the chart to trade. Please do not buy off the shelf EA and you do not know the EA type.

Q: How come my MT4 is keeping on log in and out?

A: This means that you do not have a stable broadband connection in your area. Trading is about consistencies and you will not allow for down time. Hence you may consider purchasing a Dedicated Server or Virtual Private Server (VPS) as a solution.
