## Quiz for Exercise 8

1. How do you create a printer shortcut on your desktop?

	A. Drag the Printers folder to the desktop and click Yes in the resulting dialog box.
	B. Highlight the appropriate printer icon in the Printer folder. Select Save As from the File Menu. Select Desktop Shortcut from the Save As dialog box.
	C. Drag the printer icon from the Printers folder to the desktop and click Yes in the resulting dialog box.
	D. Select Create Shortcut from the View Menu in the Printers dialog box.

2. Using deferred printing, the document is actually printed:

	A. as soon as the printer becomes available.
	B. at the time you specified in Deferred Print dialog box.
	C. to a floppy disk for use by a remote printer.
	D. on the network printer.

3. Why would you print to a file?

	A. You want to print your file on your friend's color printer.
	B. Your print queue is full.
	C. Your printer is currently in use.
	D. Your printer driver is not working.

4. Can you install a printer in Windows 98 without the printer being physically connected to the computer?

	A. No.
	B. Yes, but only if it is a Network Printer.
	C. Yes, but you must have the Printer Driver on a disk.
	D. Yes.

5. What is meant by a local printer?

	A. The printer to which the file is printed unless you specifically tell the PC to use a different one.
	B. A printer that is physically connected to your PC.
	C. A Network printer used by several computers in the local area.
	D. The default Network printer.

6. A friend gives you an old printer and its User's Manual but does not have the drivers for it. It is not included in the printers list in Windows 98. What do you do?

	A. Use the HP LaserJet II driver since it works with most printers.
	B. Check the User's Manual to see if the printer emulates one of the printers that is in the Printers list in Windows 98.
	C. Use the printer only in MS-DOS until you can find the proper Windows 98 driver?
	D. Scrap the printer.

7. How do you turn on the Extended Capabilities Port?

	A. In the BIOS setup program.
	B. Place a checkmark in the ECP box on the General page in the Parallel Port (LPT1) Properties dialog box.
	C. Place a checkmark in the ECP box on the Settings page in the Printers Properties dialog box.
	D. Any one of the above.

8. What is (are) the advantage(s) of using the Extended Capabilities Port?

	A. It is faster and it allows feedback from the printer.
	B. It frees up hardware resources that would otherwise be required.
	C. It frees up the parallel port.
	D. All the above.

9. Which of the following may cause a document to print slower than usual?

	A. A missing printer driver.
	B. Spooling is enabled but inoperative because of corrupted code.
	C. TrueType fonts are being sent as bitmaps rather than as outlines.
	D. The Printer is off line.

10. To remove a printer in Windows 98:

	A. drag the Printer shortcut icon to the Recycle Bin.
	B. drag the Printer icon from the Printers folder to the Recycle Bin. Confirm that you wish to delete the printer.
	C. highlight the printer icon in the Printers folder. Select Delete from the File Menu. Confirm that you wish to delete the printer.
	D. physically disconnect the printer from the computer and Windows 98 will take care of everything else.
