### Product Details:

- Stylish and slim case, designed for Apple iPhone 5.
- Able to give your iPhone 5 up to 100% more charge (1 additional charge).
- Creative design: works with all functions of the iPhone 5 without having to take your phone out of the case. You can sync your phone, as well as charge both your iPhone and the battery case together without having to take your iPhone out!
- Integrated Circuit Design: Effectively protects against short-circuit or overcharge even through user error.
- We have used materials of the highest quality without sacrificing our customers on price!
- LEDs indicate charging, as well as remaining capacity in your battery case.

### Illustrations:

- ① 4 LED indicators (each indicates 25% capacity)
- ② Charger On/Off button
- ③ Mute key
- ④ Volume controls
- ⑤ iPhone power button
- ⑥ Headphone jack
- ⑦ Lightning USB input
- ⑧ Bumper release groove
- ⑨ Speaker ports
- ⑩ Camera port
- ⑪ Stand

### How to Use

- Put your iPhone5 tightly on the power case
- Slide the iPhone5 into the power pack, make sure that the pin connector is securely inserted into the bottom of the iPhone5.
- Put on the bumper to fix the power case. Press firmly to snap in place on all sides.

### Operating Guide

#### ► Charging the power case

- Connect the lightning USB cable included with your iPhone, or any other Apple-certified charging cables to your standard wall charger to charge the battery case. The iPhone and battery case can be charged at the same time. The case is designed to let the iPhone charge first, and then the case will be charged.

- Note: For first time use, please charge the battery case separately for about 24 hours to ensure maximum battery LEDs may indicate full charge, but continue to charge the battery case for 24 hours. All subsequent charges should take about 4-5 hours.

#### ► Activating the charging function:

- Press the charger On/Off button to activate the battery charging function. When charging, LED indicators will flash to indicate charging. To stop charging, press the On/Off button again.

#### ► Syncing your iPhone with your computer:

- You can sync your iPhone with your laptop or desktop while the phone is in the battery case. Simply connect the lightning USB port to your battery case and enjoy all functions of your iPhone while it is in the battery case.
