720P Digital Video Camcorder with Optical Telescope Zoom Lens

Product code: CVSE-DV01-2GEN

Handheld DV camera (digital video and still pictures) with great telescope style 8x optical zoom lens attachment. This unit records video in MPEG4 format up to 30 frames per second (30 FPS).

New wholesale compact digital camcorder with a feature rich profile, optical zoom lens attachment, and the ability to take up to 12MP still photos or 720P MPEG4 videos at 30 FPS. This camcorder is smartly designed with an easy to view 3 inch flip out screen, convenient recording buttons, and on-the-fly memory expandability with standard SD cards.

This DV cameras best feature is the screw-on optical telescope zoom lens, allowing

you to take pictures of long distance objects. The zoom lens also has a manual focus adjustment, giving you ultimate control over the focus and quality of your distant shots. When combined with the camera's native 4x digital zoom, you then have a monster of a zoom camcorder!
