1. Overview

Thank you for purchasing a KYS90 mobile phone.

2. Warnings

Not following these simple guidelines may be dangerous or illegal. Read the complete user guide for further information.

TURN ON SAFELY

Do not turn on the phone when wireless phone is prohibited or when it may cause interference or danger.

ROAD SAFETY

Obey all road safety laws. Always use both of your hands to operate the vehicle while driving.

INTERFERENCE

All wireless phones may be sensitive to interference, which may affect performance.

TURN OFF IN HOSPITALS

Follow all restrictions. Turn off the phone near medical equipment.

TURN OFF ON AIRCRAFTS

Follow all restrictions. Wireless devices can cause interference on aircrafts.

TURN OFF WHEN REFUELING

Do not use the phone at/near refueling stations. Do not use near fuel or chemicals.

USE SENSIBLY

Only qualified personnel may install or repair this product.

ENHANCEMENTS AND BATTERIES

Use only appropriate enhancements and batteries. Do not connect incompatible products.

WATER-RESISTANCE

Your phone is not water-resistant. Keep it dry.

BACKUP COPIES

Remember to make back-up copies or keep a written record of all important information stored in your phone.

CONNECTING TO OTHER DEVICES

When connecting to any external device, read its user guide for detailed safety instructions. Do not connect with incompatible products.

3. Phone Registration

In order to register the details of the customer, the software embedded in the phone has the facility to send a sms automatically to MIRC Electronics Ltd upon insertion of the SIM card. It is in the interest of the user to register its details with the company for any future services, as may be needed. The user agrees to pay the SMS charges in respect of the automated SMS sent to the company upon insertion of the SIM card.

You can make an extension call. 2. In standby mode, long press this key to lock keypad. When keypad is locked, press left soft key and * key to unlock.
 <p># Key</p>	<ol style="list-style-type: none"> 1. In text editing interface, press "#" key to switch the text input method. 2. Press and hold "#" key to activate or deactivate Meeting mode.

6. Getting Started

6.1 Battery Installation

Caution: Install according to the illustration above to avoid breaking the battery connectors.

6.2 SIM Card/T-Flash Card Installation

Caution: Do not bend or scratch your SIM card and T-Flash card. Avoid exposing your SIM card and T-Flash card to static electricity, water, or dirt.

Tips: Face the gold color contact point of SIM card towards the cell phone and push the SIM card into the slot. With the metal contacts facing down, gently slide the T-Flash card into the slot. Press and pull the cover up to lock it.

6.3 Charging the Battery

Insert the charger into  USB interface on right side of the phone; the flash symbol on the charger plug must face upwards.

Connect the charger to a standard wall outlet and the battery

power icon in the up-right corner of the screen will start scrolling. When the battery bar stops scrolling, the battery charge is complete. Press the two sides of the charger plug and disconnect the charger from the phone.

- When the battery is low, a "low battery" message will display across the screen and the battery icon will seem empty. If the battery level is insufficient, the phone will turn off automatically. Do not use your phone under low battery state for an extended period of time or it may cause battery damage.

6.4 Security Settings

—PIN code

PIN code (Personal Identity Number) prevents unauthorized use of your phone. The **PIN** code is provided by your network operator with the **SIM** card.

If you enter the wrong code three times in a row, the **PIN** code will be blocked. To unblock the **PIN** code, you need to enter your PUK. Your PUK is provided by your network operator.

—Phone Lock

Turn on/off the power on password (the length of the password is 4-8 digital numbers). If you activate the "Phone lock", you need to enter the password each time you on turn the phone. If you want to modify the power on password or deactivate "Phone lock", enter Phone lock status and Change password option to set. The default password is 0000.

7. Your Phone

7.1 Power On

• Press and hold  power key to turn on your phone, light the backlight, and display power on animation.

- If you do not insert a SIM card, or the SIM card has incomplete connection, your phone will show "No SIM". In this condition, you can only access part of the menu and only permission using some urgent calling.

- If the **PIN** code is blocked, the alert message for inputting **PUK** code will display on the screen before power on.

- The phone will search the network automatically after power on.

If your phone registers to network correctly, the name of the network and signal strength will display; if your phone can't register or cannot register correctly, you can only access emergency calls and other functions that do not rely on the network.

7.2 Making a Call

In standby mode, press numerical keys to input phone number to dial phone number. When you finish inputting phone number, press the  dial key to select SIM1/2 to make a call. If you're making a long distance call, add the area code preceding the telephone number.

Press  left soft key to access Options.

— Call

Select SIM1/2 to call the number.

— Save

Save the number as New contact or add to Existing contact.

— Send

Send SMS or MMS to the number.

7.3 Rejecting a Call

Press  end key to reject an incoming call.

7.4 Answering a Call

When you receive a call, the phone will ring or vibrate and will display an incoming call indicator. Press the  dial key or  OK key to answer.

Press  left soft key to access Options:

- Speaker
- Mute
- Hold
- End call
- Volume
- DTMF
- Record
- Phonebook
- Messages
- Distorted voice
- Call background sound

7.5 Volume Settings

During a call, press Up/Down navigation keys to adjust the volume.

7.6 Ending Calls

Press the  end key to end or cancel a call.

7.7 Emergency Service

You can dial an emergency call without the SIM card.
Contact your service provider to get the emergency call number.

7.8 Extension Call/Quick Dial

After inputting phone number, quickly press  * key thrice until the symbol "p" appears, then input the extra number.

7.9 Missed/ Dialed Call

Enter main menu-> History -> check Missed/Dialed calls.
In standby mode, press  dial key to check call history.

7.10 Call Divert

When the call divert is activated, incoming calls will be diverted to voice mail or other phone numbers according to the call divert settings.

7.11 Call Barring

When the call barring activated, some of the calls will be barred according to the call barring setting condition.
Contact your service provider to sign up for call barring.

7.12 T-flash Card

Insert the T-Flash card into phone. This will expand the Flash memory of the phone.

Tap Multimedia menu, you can browse MP3, MP4, picture, video, etc.

7.13 USB Cable

You can transfer and store files, such as MP3, MP4 and pictures from PC, through USB cable, to the mass storage in phone or identified SD card that is inserted.

The operating method is as follows:

— Connect: Plug the IO port of the cable into your phone, and the USB port into the PC.

Read & write mode:

T-Flash card: Install the T-Flash card, and connect the phone set to PC, if the phone set is power off, it can be charged or used as a mass storage.

— File transfer

- File folder instruction: Find the mobile memory (T-FLASH card) in "my computer", double click it, and you will find the folders as follows:

"Photos" is used to store the picture.

"My Music" is used to store the MP3 music file.

"Videos" is used to store the video file.

These folders is preset by the system, don't change the folders' name.

- Read & Write: You can copy the files in T-Flash to PC hard disk, or copy the files in PC hard disk to the folder of the T-Flash card.

— Quit: On the PC side, select taskbar->delete hardware safely, exit the T-Flash card identified states, stop the T-Flash card, and pull out the USB cable.

7.14 Power Off

In standby mode, press and hold  power key to turn off phone.

8. Standby Screen

Press and hold  end key to turn on your phone, phone will light the backlight and display power on animation.

On the screen, icons indicate the network name, signal strength, battery levels, and phone configure information. Refer to icons information in standby screen.

14.6 Photo Viewer

Choose card memory or phone memory to check photos stored. Select one photo and press  left soft key to access

Options:

- View

- Set as: Wallpaper or Contact
- Send: MMS/Bluetooth
- Rename
- Delete
- Delete all files
- Mark: Mark /Mark All
- Slideshow
- View details: Name, File type, Size, Date, Resolution, Location

14.7 Voice Memo

You can take a recorder in this function. Press  OK key to record, or press  left soft key to access Options:
 — Record

After recording, press  left soft key to access Options
 — View files: To view files stored on phone or card memory

15. Games

In the main menu, select  to enter Games. You can select the games already stored.

16. Organizer

In the main menu, select  to enter Organizer.

16.1 Calendar

You can use this feature to view the year, date and solar

term easily. Press  navigation keys to navigate other date. Press  left soft key to access Options:

- View
- New Event: Appointment, All day event
- Weekly view
- Event list
- Go to date: Enter the Solar calendar and it can go to the date you want to check.
- Settings
- Delete all: Before date, all events
- Search event
- Memory details

16.2 Alarm

The alarm clock feature sounds an alert or makes a vibration alert at a time you specify. Select one alarm and you can edit title, time, status, frequency, and ringtone.

16.3 Stopwatch

Press  OK key to start, press it again to pause. Press  left soft key to reset stopwatch, press  right soft key to back to return to upper menu.

16.4 Timer

This function counts down time, press keypad to set time. When it reaches 00:00:00, your phone rings or vibrates.

16.5 World Clock

Press  navigation keys to change time zone, you can view the time of different areas.

16.6 Notepad

Use this function to write down notes. Select one note and press  left soft key to access Options:

- View: To check the note
- Edit: To edit the note
- Add: Add to new note to notepad
- Delete
- Delete all: Delete all notes in notepad

16.7 Bluetooth

Press  left soft key or  OK key to access:

- Turn on/off
- Paired devices
- Search devices
- Settings

16.8 E-Book

To read e-books stored on card memory. Select one txt file and press  left soft key to access Options:

- View: Open the file to read. Press  left soft key to access Options.
 - Full screen
 - My bookmark
 - Scroll style

- Language code
- Information
- Go to line
- Delete
- Delete all
- Scroll style
- Language code
- Information

16.9 Calculator

This feature can use your phone as a calculator for simple calculations.

Press keypad to input number and calculate. Use following direction keys to calculate:

Navigation key: +、-、×、÷

OK key: Show the calculation result.

* Key: Decimal point

16.10 Converter

This function can let you convert: Currency, Energy, Speed, Mass, Area, Volume, Power, Time, Pressure, Length, and Temperature. Input corresponding data, the result will display on screen.

16.11 BMI

This function can let you calculate BMI. Input height and weight, your phone will automatically calculate the result. After the calculation completed, you can select to Add the

result to List, and can check the record whenever you want.

17. Services

In the main menu, select  to enter Services.

17.1 Wap Explorer

Select SIM/SIM2 to enter:

You can check bookmarks, or local page. Press  left soft key to access Options:

- Open: To open the wap site
- Guidance: Goto URL, Homepage
- Manage bookmark (this only display in Bookmarks)
- Folder: Create New
- Mark
- Clean
- Settings
- Download dir
- Exit

17.2 Common URL

You can select several common URL in this menu. Such as Yahoo, FaceBook, Ebuddy, MSN, Twitter, Nimbuzz. You can also check help information.

17.3 SIM Services

If your SIM card supports STK function, the phone can display different first level menu according to different STK card. This function needs the network provider support. If

user finds STK function can't operate normally, please contact the network provider. If the network provider does not support this function, we do not claim any responsibility whatsoever.

18. File Manager

In the main menu, select  to enter File Manager. You can check and manage the files in phone or memory card. Select one file and press  left soft key to access Options:

- Open
- Rename
- Delete
- Create folder
- Settings: Select to sort files by specific rules and check memory details

The operations of certain folder on phone may differ. Please refer to your phone.

19. Movie King

In the main menu, select  to enter Movie king. This function can let you see the movies stores card memory. Movies can be sorted by Action, Adventure, Animation, Comedy, etc. Enter one species to select movie to see.

Note- Customer can get the KING MOVE software from the authorized service center or it can be

downloaded from our website www.onida.com

20. User Profiles

In the main menu, select  to enter User profiles. The phone supplies several profiles. Enter the menu, you can select one profile and turn on it. In Personalize, you can customize the profiles as you like. Also you can select Restore to reset.

21. Shortcuts

In the main menu, select  to enter Shortcuts. You can add applications to this shortcut menu or delete. With this function menu, you can open the applications added directly.

22. Entry mode

You can use several methods for entering text and numbers. By selecting a Text Entry Mode, the phone provides a few Text Entry Mode for new adding, editing contact records, finding contacts, editing SMS and writing memos.

Select Text Entry Mode:

22.1 Letter entry mode

Press a key once to insert the first letter on the key, twice for the second letter, etc. If you pause briefly, the last letter in the display is accepted and the text awaits the next entry.

For example, press the "2" key continuously, it will appear "a"、"b"、"c"、"2"one by one.

22.2 Number entry mode

Number Entry Mode can input the number in the text, such as telephone number. Tap the proper number and input it.

23. Care and maintenance

Battery care

- Your device is powered by a rechargeable battery. When the power is weak, please charge the battery. In order to extend the lifespan of the battery, use all the battery's power before recharging.
 - Unplug the charger from the electrical plug and the device when not in use. Do not leave the battery connected to a charger more than a week. Overcharging may shorten its lifespan.
 - Extreme temperatures can affect the ability of your battery to charge. Battery needs the fit temperature. If the surrounding temperature is over 40°C, the battery cannot be charged.
 - Use the battery only for its intended purpose. Never use any charger or battery that is damaged.
- Do not short-circuit the battery. Accidental short-circuiting can occur when a metallic object such as a coin, clip, or pen causes direct connection of the positive (+) and negative (-) terminals of the battery. (These look like metal strips on the battery.) Short-circuiting the terminals may damage the battery or the connecting object.

- Leaving the battery in hot or cold places, such as in a closed car in summer or a freezer in winter conditions, will reduce the capacity and lifetime of the battery. Always try to keep the battery between 59°F and 77°F (15°C and 25°C). A hot or cold battery may not function temporarily, even when the battery is fully charged.
- Battery performance is particularly limited in temperatures below freezing.
- Do not dispose of batteries in a fire! Dispose of batteries according to local regulations. Please recycle when possible. Cell phones are not considered household waste.

Mobile phone maintenance

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will corrode electronic circuits. If your device does get wet, remove the battery and allow the device to dry completely before replacing it.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
- Do not store the device in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the device in cold areas. When the device returns to its normal temperature, moisture can form inside the device and damage electronic circuit boards.
- Do not attempt to open the device other than as instructed in this guide.

- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device.
- Do not paint the device. Paint can clog the moving parts and prevent proper operation.
- Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the device and may violate regulations governing radio devices.

All of the above suggestions apply to your device, battery, charger, or any enhancement. If any device is not working properly, take it to the nearest authorized service facility for service.

All pictures are for reference only in the instruction book; please refer to the actual phone.

Accessories List: One each of Handset, Battery, Charger, Headset, Data cable, and User Manual.

form in a safe place

MIRC ELECTRONICS LTD provides this Limited Warranty to person who has purchased the ONIDA mobile phone and original accessory delivered with your mobile phone.

1.The warranty period for the transceiver for 1 year, battery & charger for 6 months is from the date of purchase of the product.

2.The warranty does not cover external housing and cosmetic parts.

3.MIRC ELECTRONICS LTD warrants to you that during the warranty period MIRC ELECTRONICS LTD or a MIRC ELECTRONICS LTD authorized service network will repair or replace, at MIRC ELECTRONICS LTD option, any defective product, or parts thereof, with new or factory rebuilt replacement items, and return the product to the consumer in working condition. No charge will be made to the consumer for either parts or labour in repairing or replacing the product. All replaced boards or equipment shall become property of MIRC ELECTRONICS LTD.

4.The warranty in respect of a repaired or replaced product/part shall extend for the remaining warranty period of the repaired product or replacement thereof to the consumer

5.Upon request from MIRC ELECTRONICS LTD or its authorized service center, the consumer must provide the purchase receipt or other documentation or information in respect of the date and place of purchase.

6. The consumer shall have no coverage or benefits under this warranty in the event that any of the following conditions are applicable.

- The Product has been subject to abnormal use or conditions, improper storage, exposure to excessive moisture or dampness, exposure to excessive moisture or dampness, exposure to excessive temperatures, unauthorized modifications, unauthorized repair including but not limited to use of unauthorized spare parts in repairs abuse, accident, Acts of God, spills of food or liquids, maladjustment of customer control and breakage or damage to antenna.

- MIRC ELECTRONICS LTD has not been notified by the consumer of the defect in the product during the applicable warranty period.

- The product serial number or the accessory date code has been removed, defaced or altered.

- The defect or damage caused by defective function of the cellular system or by inadequate signal reception by the external antenna.

- The product has been used with or connected to an accessory not supplied by MIRC ELECTRONIC LTD, not fit for use with ONIDA mobile phones or used in other than its intended use.

- The seals of the product's battery enclosure have been broken or show evidence of tampering or the product's battery has been used in equipment other than for which it has been specified.

7. In order to derive the benefits of this warranty, the

consumer should follow the following procedure.

- The consumer shall return the product to place of purchase for repair or replacement.
- The consumer may contact local MIRC ELECTRONICS LTD office for the nearest authorized service center.
- The consumer shall arrange for the product to be delivered to the authorized service center.
- The consumer will be billed for any parts or labour charges not covered by this warranty. The consumer shall be responsible for expenses related to reinstallation of the product.
