NEW

MSRP $199.99

The Brinno TLC 200 is a new class of time lapse camera designed for both the amateur and advanced camera enthusiast. Designed to make time lapse simple yet with the flexibility to change lenses and custom program time intervals if the user is a serious Time Lapse movie maker. The TLC 200 has advanced power management, allowing for months of battery life for extended duration capture periods. It even has an external shutter for creating stop action movies. The LCD allows for accurate targeting of subjects and precise framing of scenes.
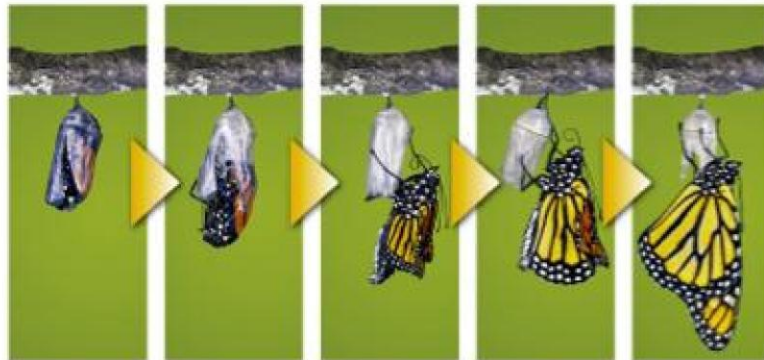

The time lapse market has been growing steadily the past 5 years, as shown by the vast numbers of time lapse movies being posted to Video sharing sites such as YouTube. In the past the user had to use his expensive digital camera making it unavailable for normal use while making the movie....not any longer.

Phase3Systems

Brinno's Time Lapse Camera TLC200

Phase3Systems

A Time Lapse Camera captures images within time intervals and converts these images into video.

Brinno's MAC100 (HomeWatchCam)

What is Brinno's Motion Activated- HomeWatchCam?

Brinno's HomeWatchCam (MAC100) uses Motion Activated technology to capture photos of anything that comes into the designated detection area. The MAC100 converts the photos into Time Lapse videos that you can watch on your computer. You can use the HomeWatchCam for home security, capturing wildlife in your backyard or even evidence of that pesky dog digging holes in your flower beds! Brinno's HomeWatchCam (MAC100) uses 4 AA batteries, and stores images on an SD card (included with camera) which makes it portable to take with you anywhere.

Stay ahead of the game with the MAC100 (HomeWatchCam)

Home Security

Brinno's HomeWatchCam can be used for home security. Its motion activated technology will capture images of any uninvited guests in the targeted area.

View the Great Outdoors

Put your Brinno's HomeWatchCam in the back yard or target it on a bird feeder or birdbath to capture amazing images of wildlife.

Catch That Naughty Animal in Action!

Brinno's HomeWatchCam can also be used to capture evidence of pesky animals, so you will know which critter tore up your beautiful garden and when they did it.
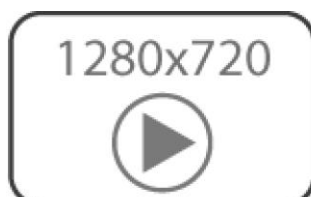

Brinno HomeWatchCam Features

The MAC100's Passive Infrared Red motion detection system can capture any movement in the detecting area.

Motion Activated

The MAC100 (HomeWatchCam) comes with unique Power control technology. 4 AA batteries can capture up to **10,000** frames/photos!

Power Saving

The MAC100's (HomeWatchCam) built-in Time Lapse technology, easily converts thousands of photos into amazing time lapse videos.

Time Lapse Video

The MAC100 runs off of 4AA batteries, so you can take it with you and place it almost anywhere!

No Wire

Aim your MAC100 at doors or windows to capture images of uninvited guests!

Home Security

The MAC100 is easy to install. All you need is to insert the batteries and SD card, set the time and date stamp (optional) and turn the power on!
