INSTALLATION INSTRUCTIONS

INSTALLATION

Your new Gold Medal Six Ounce Kettle Popcorn Machine requires no additional assembly. Remove all packing material and tape before starting operation.

OPERATING INSTRUCTIONS

CONTROLS AND THEIR FUNCTIONS

There are three switches on the popper.

LIGHT AND WARMER SWITCH

Turns on the heat to the bottom corn pan and heat light.

KETTLE MOTOR SWITCH

Turns on the motor which drives kettle agitator shaft.

KETTLE HEAT SWITCH

Turns on the heat element

AMOUNT OF POPCORN AND OIL

Your new popper is equipped with a six ounce (177 ml) corn measure cup. We recommend flavored and colored coconut oil. Popcorn popped in coconut oil stays fresh longer. Coconut oil does not leave black deposits in your kettle like other oils.

Corn charge - 6 oz. (177 ml)

Oil charge - 1.6 to 2.0 oz. (60 ml) Flavacol - 1 tablespoon (8 cc)

POPPING INSTRUCTIONS

To avoid serious burns, do **NOT** touch the kettle while it is hot!

- 1. Turn KETTLE HEAT and KETTLE MOTOR switch ON.
- 2. Make test pop with 3 kernels of corn and 1 oz. (30 ml) of oil.
- 3. Load pre-measured popcorn and oil pouch into kettle.
- 4. When corn has popped, dump kettle.
- 5. Repeat cycle starting with Item #3; always pop 3-5 batches for best popcorn.

CARE AND CLEANING

A DANGER

Unplug your machine bofore cleaning glass panel and case. Never immerse the kettle in water. This will ruin the electrical components and automatically void the guarantee.

Each time you finish a series of poppings, wipe the outside of the kettle with a soft cloth to remove any oil drippage on the outside of the kettle. After you finish popping for the day, allow kettle to cool until it is not too hot to handle, but still warm. Unplug kettle and remove it from the machine. With a cloth, wipe out the inside of the kettle, kettle lid, crossbar, outside and underneath of the kettle.

Cleaning the cabinet of your machine is easy. Take a clean cloth and wipe excess grease from the glass. Wipe the outside of the machine also. **NOTE:** Never use a glass or plastic cleaner that contains ammonia. It will crack the plastic on the machine.
