**OPERATING INSTRUCTIONS**

# User's Manual for the Bluetooth Speaker BT010

Thank you for purchasing Hamilton Buhl's Bluetooth speaker, BT010. Before getting started, please read the user's manual carefully so as to ensure proper operation and optimized performance of this product. This unit not only offers a stylish appearance but it's compact design also offers high fidelity sound.

## Function Buttons

## Power on the Unit

The speaker will give out prompt tone of “click-click” and the Bluetooth indicator light will start flashing

## Connecting Bluetooth/ NFC

### **NOTE:**

Some devices may need to remove protective cover before using

Turn on the blue tooth function on your device. If connecting the NFC (Near Field Communication) blue tooth speaker, please confirm your device has that function. If the function is available please turn NFC on. Push the power switch on and move the device close to the “NFC” LOGO on the speaker. The the device will automatically pair the speaker. If no NFC, please turn your device and speaker on, then search the pairing model number “BT010” and pair it manually. Bluetooth indicator light will flash slowly after successful connection and the speaker gives out prompt tone of “toot”. If Bluetooth speaker fails to detect any equipment within five minutes during the power is switched on, Bluetooth will shut itself down automatically. To make another connection, it is necessary to switch on. The Bluetooth devices that are connected successfully before will connect automatically when Bluetooth is activated next time.

If connection fails, please power off the device and power it back on, confirm the unit is charged.

## **Bluetooth music playback:**

Press and hold “” to pause during playback; Press “” to play during pause.

## **Hand free calls:**

After connected with the mobile phone successfully, the speaker will beep when a call comes in. Press  to pick it up and to talk, no need to pick up the phone. Press  again to hang up to terminate the call. To refuse a call, hold down the button. Double click on “” button to redial the last phone number at Bluetooth connection state.

## **AUX playback:**

Insert the video cable into AUX audio input interface of the speaker or the audio interface of players such as computers, the AUX indicator light will turn on.

1. For AUX playback press “ ” to pause and press “ ” again to resume the sound.
2. The speaker will turn off automatically after 5 minutes without a connection. Use the On/Off  switch to turn the unit back.

## **Charging:**

Insert the MICRO USB end of USB power code provided with into USB power jack of the speaker. Connect the opposite end to a computer USB port or USB charger. The charging indicator light will be off after charging is complete.
