

Lex Lighting Safety Instructions

1. Please keep this User Manual for future reference and be sure to pass this manual on to anyone using the fixture.
2. Always make sure that you are connecting to the proper voltage as stated on the decal or rear panel of the fixture.
3. This product is intended for indoor use only! To prevent risk of fire or shock, do not expose fixture to rain or moisture.
4. Make sure there are no flammable materials close to the unit while operating.
5. The unit must be installed in a location with adequate ventilation, atleast 20inches (50 cm) from adjacent surfaces. Be sure that no ventilation slots are blocked.
6. Always disconnect from power source before servicing or replacing fuse and be sure to replace with same fuse rating.
7. Secure fixture to fastening device using a safety chain.
8. Maximum ambient temperature (Ta) is 104° F (40° C). Do not operate fixture at temperatures higher than this.
9. In the event of a serious operating problem, stop using the unit immediately. Never try to repair the unit by yourself. Repairs carried out by unskilled people can lead to damage or malfunction and will void your warranty. Please contact the nearest authorized technical assistance center.
10. Never connect the device to a dimmer pack.
11. Make sure the power cord is never crimped or damaged.
12. Never disconnect the power cord by pulling or tugging on the cord.
13. Never carry the fixture directly from the cord. Always use the hanging/mounting bracket.
14. Avoid direct eye exposure to the light source while it is on.

Operating Your Fixture

Plug in your MultiLex and immediately it will light up and begin its auto-run program.

Turn the Sound Sensitivity clockwise to adjust the units sensitivity to sounds. Clockwise decreases the sensitivity. Turning this dial fully down (counter clockwise) will stop the motorised beam movement.

Mounting Your Fixture

Your light is designed to be hung from either a Ceiling, DJ Truss or T-Bar Stand. The bracket comes supplied with a hole to allow mounting of the fixture.

Always ensure the fixture is tightly fitted to whatever it is your mounting it too.

Care and Maintenance

Cleaning your fixture will keep it looking great for many years and also ensure its long life and trouble free operation. Clean your MultiLex with a slightly damp, lint-free cloth. Never use chemicals to clean the fixture as this could impair its finish. Always make sure the fixture is powered off before cleaning.

If you need to replace the fuse, always make sure you replace with the same fuse specification. NEVER attempt to wrap foil around the fuse.
