

# The Country Market Label Program

Adaptable, Versatile,  
Affordable

Set up as standard to create labels using the five most popular sizes, 14, 21, 28, 18 to a sheet and round labels for preserve lids.

Adaptable to create labels of any size, the only limitations being label content and font size.

This can be especially useful for craft producers; by printing on thin card, using the print label edge facility to show a cutting line it is possible to make swing tag labels.

You will of course have to cut out the label, punch a hole and attach a string yourself!

Versatile; the logo has been changed and the label content can be displayed in many ways.

- Market or Society name

- For impact, just the logo

- Lot numbers

- Any allergens and messages you choose in black or red.
- Drained and gross weight.

# Other features

- Several different products can be printed on the same sheet of labels. (Provided they are all the same size)

Print labels

Crafts

Page - A4 (210 x 297 mm)

1	2	3
4	5	6
7	8	9
10	11	12
13	14	15
16	17	18

Number of pages required = 1

Clear Q Print Close

- Invoices can be printed and then sales entered with commission rate, to show the amount you will receive.
- Labels for other members can be produced.
- Non Country Market labels can also be produced.
- Weekly, monthly and yearly statistics of sales and labels printed are also available.

# Updates

- The program loads onto the newer Windows 8 system and we have an adaptation for users of Mac.
- Many new devices do not have a disc drive and we can now email the program as a 'zipped' file.
- There is also the possibility of putting the program on the web site, this is being trialled at the moment.

- Some members have struggled with this new program, but do persevere, it is worth it in the end.
- Printed labels give your goods a professional look, and have led to increased sales for many producers.
- Please give the program a try.

£5

Affordable

£5

All this for only five pounds

The price includes

- The program disc with built in help.
- A User Manual with a step by step guide.  
(There will be no technical back up from the office)
