

The Concept of the Small Really Big !

- **It is small and light**, you can easily carry it closely around in any environment.
- **Easy to use interface** : the soft keys combined with the scrolling keys provide an easy and fast access to all of the features.
- **The voice dial** makes calling easier than ever before : to make a call, just say the name of the person you want to talk to and Genie connects you automatically.
- **Unique Features** such as the agenda, the to do list enable you to save time. An alert beep reminds you about your appointments.
- **Genie's Hot Keys** give you an innovative personalisation opportunity : with it, you can have fast access to the most frequently used names or features, by a simple long press on a key number.

Fully Featured !
